Time: 3 hours

Course Objectives: This paper gives an overview of major conflicts having taken place in various regions of the world after Cold War, giving broad reference to strategy and tactics.

Course Outcome: The course on Major Conflicts in the Post-Cold War Era enables students to understand the changing nature of warfare after 1991 and to examine key conflicts such as the Gulf Wars, Balkan crises, Afghanistan and Iraq wars, and other regional confrontations. It helps learners analyze the role of ethnic tensions, terrorism, humanitarian intervention, peacekeeping, and the involvement of international organizations and major powers. The course also develops the ability to evaluate new forms of conflict including proxy wars, civil wars, and hybrid warfare, thereby enhancing students' critical and analytical understanding of contemporary global security dynamics.

Course Title- Research Methodology

(Instructions for the Paper Setter and the Students)

Course Duration: 60 Hours

Credits: 04

Maximum Marks: 100 (90 Theory + 10 Internal Assessment)

Time: 3 hours

Course Objectives: The paper deals with various basic elements of research problems, applications and types including research designs.

Course Outcome: On the completion of this course, the students will be able to

- i. Project an understanding of the basic concepts of research;
- ii. Distinguish between qualitative and quantitative research and select good research design;
- iii. Choose appropriate approaches, methods, and techniques for data collection and sampling;
- iv. Write research work on the research problem.

Pedagogy of the Course Work

90% Lectures (including expert lectures)

10% Unit Tests, Snap Tests, assignments, attendance and class room participation

Note:

1. The Syllabus has been divided into four (4) units.
2. There shall be 9 questions in all.
3. The first question shall be short answer type containing 12 short be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be compulsory question.
4. Rest of the paper shall contain four (4) units and each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each. All questions shall carry 18 marks.
5. For the private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

DISSERTATION (P1)

Course Duration:

Credits: 04

Maximum Marks: 100

Course Instructions / Guidelines

1. Eligibility

This course is applicable to candidates pursuing **B.A. (Hons.) with Research.**

2. Preparation of Synopsis

- I. The candidate shall prepare a **research synopsis** of the proposed dissertation.
- II. The synopsis shall not exceed **3000 words**.
- III. The synopsis should clearly outline:
 - Title of the study
 - Research objectives
 - Review of relevant literature
 - Research methodology
 - Scope and significance of the study

3. Presentation Requirement

- The candidate shall deliver a **formal presentation** of the synopsis before the faculty members of the concerned department.
- The presentation shall be conducted **immediately after the completion of the odd semester examination.**

4. Evaluation

The candidate's performance shall be evaluated on the basis of:

- Quality and clarity of the synopsis
- Understanding of the research problem
- Methodological framework
- Presentation skills and response to questions

5. Award of Marks

- A maximum of **100 marks** shall be awarded.
- The marks shall be assigned collectively to assess the overall academic performance of the candidate in synopsis preparation and presentation.

(Instructions for the Paper Setter and the Students)

Course Duration: 60 Hours

Credits: 04

Maximum Marks: 100 (90 Theory + 10 Internal Assessment)

Time: 3 hours

Course Objectives: This paper gives an overview of major conflicts having taken place in various regions of the world after Cold War, giving broad reference to strategy and tactics.

Course Outcome: The course on Major Conflicts in the Post-Cold War Era enables students to understand the changing nature of warfare after 1991 and to examine key conflicts such as the Gulf Wars, Balkan crises, Afghanistan and Iraq wars, and other regional confrontations. It helps learners analyze the role of ethnic tensions, terrorism, humanitarian intervention, peacekeeping, and the involvement of international organizations and major powers. The course also develops the ability to evaluate new forms of conflict including proxy wars, civil wars, and hybrid warfare, thereby enhancing students' critical and analytical understanding of contemporary global security dynamics.

Course Instructions / Guidelines

1. Submission of Dissertation

- The candidate shall submit the completed dissertation to the concerned **Department/College/Institution** on or before the pre-fixed date announced by the authority.

2. Evaluation Committee

- The dissertation shall be evaluated by **two subject experts**.
- The **research supervisor** shall be one of the two examiners.

3. Appointment of External Examiner (Affiliated Colleges/Institutions)

- The second examiner shall be an **external expert**.
- The external examiner may be:
 - From the university campus, or
 - From another affiliated college/institution of Panjab University, Chandigarh.
- The external expert from an affiliated college/institution must be an **approved Ph.D. supervisor of Panjab University, Chandigarh**.

4. Viva-Voce Examination

- An **open viva-voce** shall be conducted by the external examiner.

Award of Marks

- **Distribution of marks:**
 - **150 marks** – Quality and standard of the dissertation work
 - **50 marks** – Candidate's performance in viva-voce examination

5. Combined Evaluation Criterion

- Separate passing marks in dissertation evaluation (150 marks) and viva-voce (50 marks) are **not required**.
- The **combined total** of dissertation evaluation and viva-voce marks shall be considered for determining the passing grade.

ECO-DSC-19/RBC-1 (MAJ-7) 701:RESEARCH METHODOLOGY IN ECONOMICS

Topology of the code	Major
Course Duration/LTP (Lectures, Tutorials, Practicals)	L= 60 hours (4 hours a week for 15 weeks= 01 semester), T=0, P=0
Credits	4
Max. Marks	100 Marks = Theory 90 marks + Internal Assessment 10 marks
Time	3 hours
Level	400

Course Objective: To rigorously train the students with the concepts, methodology and reasoning involved in analysing the economic behaviour of firms and markets, in general, a static and partial equilibrium frameworks.

Pedagogy of the Course Work: The course relies on a combination of lectures, solving problems, and discussing of academic articles or real-life situations. Teacher will assign topic for assignments on contemporary themes and issues

Course Outcomes: This course equips students with foundational research skills, including identifying research problems, reviewing literature, and applying tools like Mendeley. Learners will understand triangulation, meta-analysis, and interdisciplinary approaches in social science research. They will gain competence in designing questionnaires, conducting interviews and observations, and applying measurement and scaling techniques. The course further develops the ability to test hypotheses using parametric and non-parametric methods and interpret economic data sources. By the end, students will be capable of designing, conducting, and presenting rigorous and methodologically sound research.

Instructions for Paper-setter and candidates:

The maximum mark for the paper will be 100. The question paper will be of 90 marks and continuous evaluation 10 marks. The time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

There shall be 9 questions in all

The first question is compulsory comprising 12 short answer-type questions spread over the whole syllabus. The candidates are required to attempt 9 questions. Each question shall be of two marks (9 x 2= 18).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 18 marks (18x4=72).

UNIT – I

Introduction to Research Methodology: Meaning and Objectives of Research, Types of Research, Defining the Research Problem.

Inter-disciplinary Research in Social Sciences: Rationale and Approaches.

ECO-DSC-20 (MAJ-7) 702: ADVANCED MICROECONOMICS-I

Topology of the code	Major
Course Duration/LTP (Lectures, Tutorials, Practicals)	L= 60 hours (4 hours a week for 15 weeks= 01 semester), T=0, P=0
Credits	4
Max. Marks	100 Marks = Theory 90 marks + Internal Assessment 10 marks
Time	3 hours
Level	400

Course Objective: The objective of the paper is to rigorously and comprehensively equip the students with theoretical concepts, methodology and process of reasoning involved in analyzing economic behaviour of individuals, firms and markets using, in general, a static and partial equilibrium framework. The students would be evaluated at the end of each semester through subjective type questions/ answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.

Pedagogy of the Course Work: The course relies on a combination of lectures, solving problems, and discussing of academic articles or real-life situations. Teacher will assign topic for assignments on contemporary themes and issues

Course Outcomes: This course enables students to understand core economic decision-making, equilibrium concepts, and the methodological foundations of economic theory. Learners will analyse consumer behaviour under certainty and uncertainty, evaluate market demand influences, and interpret issues arising from asymmetric information. The course further develops the ability to examine production decisions, cost structures, and efficiency in both short and long run. By the end, students will be equipped to apply microeconomic models to real-world choices, policy issues, and market outcomes with analytical clarity and critical reasoning.

Instructions for Paper-setter and candidates:

The maximum mark for the paper will be 100. The question paper will be of 90 marks and continuous evaluation 10 marks. The time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

There shall be **9** questions in all

The first question is compulsory comprising 12 short answer-type questions spread over the whole syllabus. The candidates are required to attempt 9 questions. Each question shall be of two marks (9 x 2= 18).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 18 marks (18x4=72).

UNIT-I

Central Ideas of Economics: How do people make decisions? People: face 'trade offs'; incur opportunity costs and gain benefits of decisions; think at the margin and respond to incentives. How do people interact? Specialization and exchange can make each party 'better off' market often work efficiently, the invisible hand; three coordination tasks in the economy: which commodity be produced and how much of it? Who should produce it and how? Who should consume and how much of it?

Methodology of Economics as a Social Science: Alternative Processes of Construction of Positive Economic Theories.

Equilibrium: Concept, Stability, Existence and Uniqueness of Equilibrium. Types: Static and Dynamic Equilibrium. Partial and General Equilibrium. Stability Analysis: Marshallian and Walrasian Approaches.

UNIT- II

Analysis of Consumer Choice under Certainty: Cardinal Analysis, Ordinal Utility Approach; Revisiting Consumer Equilibrium and Effects of Changes in Relative Prices and Money Incomes and Derivation of 'Marshallian' and 'Compensated' Demand Curves.

Consumer Surplus: Hicks' and Marshall's Approach

Application of Indifference Curves: Cash Subsidy vs. Kind Subsidy; Income Leisure Choice; Intertemporal Choice of Consumption.

Revealed Preference Theory and Consistency of Choice.

UNIT- III

Market Demand: The Role of Network Externalities; 'Bandwagon', 'Veblen' and 'Snob' Effects.

Analysis of Consumer Choice under Uncertainty:

Measurement of Risk. Expected Utility and Preferences towards Risk. Why do people gamble (insure)? Risk Return Trade Off. Reducing Risk.

Analysis of Consumer Behavior under Asymmetric Information:

Hidden Actions: Principals, Agents and Moral Hazard.

Hidden Characteristics: Adverse Selection Problem. Market and Government Responses to the Problems of Moral Hazard and Adverse Selection.

UNIT-IV

Theory of Production and Costs:

Production, Input Choice and Cost with One Variable Input. Law of Returns to Variable Proportions and Choice of Optimum Quantity of an Input. Derivation of Short Run Cost Curves from Productivity Curves of a Variable Factor of Production. Reserve Capacity and the Shape of Short Run Cost Curves.

Multiple Input Decisions: The Choice of Optimal Techniques of Production and Factor

Combinations. Factor Price Changes: Substitution and Output Effects. Elasticity of Input Substitution. Constant, Increasing and Decreasing Returns to Scale. Expansion Path and derivation of Long Run Cost of Production Curves.

Economies and Diseconomies of Scale: Shape of Short and Long Run Costs Curves: Theory versus Empirical Evidence. Multi Product Firms and Dynamic Changes in Costs: Economies of Scope; The Learning Curve Analysis.

Level	400

Course Objective: Macroeconomics or aggregative economics analysis establishes the functional relationship between the large aggregates. The aggregate analysis has assumed such a great significance in recent times that a prior understanding of macroeconomic theoretical structure is considered essential for the proper comprehension of the different issues and policies. Macroeconomics now is not only a scientific method of analysis; but a body of empirical economic knowledge. The paper entitled “Macro-Economics-I” equips the students at the postgraduate level to understand systemic facts and latest theoretical developments for empirical analysis. The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.

Pedagogy of the Course Work: The course relies on a combination of lectures, solving problems, and discussing of academic articles or real-life situations. Teacher will assign topic for assignments on contemporary themes and issues

Course Outcomes: This course equips students to critically analyses income and employment determination through classical and Keynesian frameworks, understand consumption behavior under certainty and uncertainty, and evaluate major investment theories and their macroeconomic implications. Learners will develop the ability to interpret money supply and demand mechanisms, assess theoretical and empirical debates, and apply models such as the multiplier, accelerator, and Tobin’s-q. By the end of the course, students will be able to integrate these macroeconomic concepts to explain real-world economic fluctuations and policy outcomes effectively.

Instructions for Paper-setter and candidates:

The maximum mark for the paper will be 100. The question paper will be of 90 marks and continuous evaluation 10 marks. The time allowed will be 3 hours.

UNIT-I

Income and Employment Determination: Integrated Classical and Keynesian Models of Income and Employment Determination; commodity, money (including bond market of Keynes), and labour markets.

Wage-Price Flexibility and Automatic Full Employment: Classical Versus Keynesian Approach.

UNIT-II

Consumption and Consumption Function: Keynes Consumption and saving functions under psychological law of consumption, Consumption Puzzle: Absolute Income hypothesis, Relative Income hypothesis, Permanent Income hypothesis and Life Cycle Hypothesis.

Consumption under Uncertainty: Random Walk Hypothesis; Interest Rate and Saving; Consumption and Risky Asset: Consumption CAPM.

UNIT-III

Investment and Investment Function: Type of Investment, Role of investment using Investment Multiplier, Classical and Keynesian Theories of Investment, Accelerator Theory of Investment, NeoClassical Theory of Investment and Tobin's-q Theory of Investment. Effects of Uncertainty, Kinked and Fixed Adjustment Costs, Investment in the Housing Market.

UNIT-IV

Supply of Money: Theoretical Debate and Empirical Attempts to define money; Components of Supply of Money, Credit Creation by Commercial Banks, Money Multiplier.

Demand for Money: Classical Quantity Theory, Keynesian Theory, Baumol and Tobin's Contributions. Friedman's Restatement of Quantity Theory of Money.

UNIT - I

Differentiation: Review of Simple differentiation; Partial and total derivatives; Homogenous function; Euler's theorem, Maxima and Minima of a function of two independent variables; Constrained optimization; Lagrange's method.

Economic Applications: Elasticity of demand; Partial elasticities; Competitive and Complementary Commodities; Optimization Problems in cost and Revenue.

UNIT – II

Growth Rate and its Measurement: Present Value and its Applications.

Matrices: Review of adjoint and inverse of matrices; Rank of Matrix; Linear Independence and Dependence of Vectors/Matrices; Solutions of Equations (up to three) by Matrix Inverse and Gauss elimination Methods; Consistency of Equations; Quadratic Forms – Types and Properties. Simple Economic Applications.

UNIT - III

Correlation and Regression Analysis: Multiple and Partial Correlation involving three Variables. The Linear Regression Model; Finding the Multiple Linear Regression Equation and Coefficients up to two explanatory variables: Interpretation of the Coefficients, R^2 and adjusted R^2 .

Time Series Analysis: Definition and components. Methods of Trend Measurement: Quadratic, Exponential and Modified Exponential. Seasonal Indices by Methods of Simple Average, Ratio to Moving Average and Ratio to Trend.

UNIT – IV

Index Numbers: Concepts of Price Relative, Quantity Relative and Value Relative. Laspeyres's, Paasche's and Fisher Index Numbers. Test of an Ideal Index Number. Base shifting, Splicing and deflating of Index Numbers. Problems in the Construction and Limitation of Index Numbers.

Probability Theory: Classical, empirical and Axiomatic Definitions of Probability. Laws of Addition and Multiplication (with examples); Bayes Theorem and its applications. Concept of Random Variable; probability mass and density functions; Expected Values, Moments (definition and types); Moments Generating Function (definition and properties).

The first question is compulsory comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of two marks (10 x 2= 20). Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60)

UNIT I

Concept and Meaning of Planning, Health Planning, Health Needs and Demands, Resources, Objectives, Targets and Goals, Plan, Pre-Planning, Planning Cycle and its Steps. Concept of Management, Management Methods and Techniques. Methods based on Behavioural Sciences, Quantitative Methods, Personal, Financial and Material Management.

UNIT II

Health Planning in India, Various Committees (from Bhore Committee to Health for All 2000), Planning Commission, Health Sector Plans, Investments and Achievements during the Five Year Plans,
Health Systems in India at the Centre, the State and the District Level.

UNIT III

The Relevance of Health Economics, Key Economic Concepts (Elasticity, Marginal Analysis, Opportunity Cost, Efficiency, Equity). Supply and Demand – The Law of demand, Price Elasticity of Demand, The Law of Supply, Equilibrium, Consumer Theory, Production and Market Supply in different market conditions.

Economic Efficiency and Basic Principle of Cost Benefit Analysis, Cost Effectiveness Analysis, Cost Utility Analysis – QALY & DALY.

UNIT IV

Demand-Side Considerations, Demand for Health, The Production of Health, The Demand for Medical Care, Measuring Demand. The Market for Health Insurance, Health Insurance and Market Failure. Supply-Side Considerations, The Market for Health Care Professionals - The Theory of Labour Markets, Input Pricing, Demand for Inputs, Human Capital Investment. Financing of Health Services in India, National Health Accounts.

Suggested Practical Work: Use of Linear Programming in Industry.

The paper-setter must put a note in the question paper in this regard.

There shall be **9** questions in all

The first question is compulsory comprising 12 short answer-type questions spread over the whole syllabus. The candidates are required to attempt 9 questions. Each question shall be of two marks (9 x 2= 18).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 18 marks (18x4=72).

UNIT-I

Analysis of Competitive Markets: Profit Maximization and Equilibrium of a Firm and Industry in the Short Run and Long Run under Perfect Competition including the Supply Curve. Consumers' and Producers' Surplus and Efficiency of Perfect Competition. Welfare Effects of an Excise Tax, Import Tariff, Price controls (supports) and Production Quotas.

Monopoly: Source, Measurement and Welfare Costs and Dynamic benefits of Monopoly Power. Monopoly Price Discrimination. Output and Welfare Comparisons with Single Price Monopoly. Inter-temporal Price Discrimination and Peak Load Pricing. Two part tariffs and Tie-in Sales. Public Policy toward Monopoly

UNIT-II

Monopolistic Competition: Characteristics. A firm's Short and Long Run Equilibrium with Differentiated Products and Selling Costs (Advertisement). Group equilibrium. The Issue of Excess Capacity under Monopolistic Competition. The debate over Advertising.

Oligopoly: Cournot, Stackellberg and Kinked demand Curve. Leadership Models. Collusion and Cartels.

Game Theory and Economics of Cooperation: Dominant Strategy and Nash Equilibrium. The Prisoner's Dilemma, Mixed Strategies, Repeated Games, Collusion and Tit-for-Tat Strategy. Public Policy towards Oligopoly. Contestable Markets.

UNIT-III

Markets for Factor Inputs: Factor Pricing under Perfect Competition: Demand for a Factor Input when One Input is Variable. Demand for a Factor Input when Several Inputs are Variable. Market Demand for a Labour. Supply of Labour by an Individual: Trade Off between Work and Leisure. Wage rate determination.

Factor Pricing under Imperfect Competition: Wage rate determination with Monopolistic Power in Product Market, Monoposonistic Power in Factor Market; Bilateral Monopoly. Competitive Buyer Firm versus Monopoly Union.

UNIT-IV

Welfare Economics: Social Welfare Function: Utilitarian, Rawlsian and Bergson-Samuelson Social Welfare Functions and Optimization of Social Welfare.

General Equilibrium and Efficiency: Pareto-Optimality Conditions. Perfect Competition and Economic Efficiency. First and Second Theorem of Welfare Economics. Compensation Criteria and Arrow's Impossibility Theorem.

Externalities & Efficiency: Externalities in Production and Consumption. Coase Theorem and Public Policies towards Externalities. Common Property: Overuse of Common Property, Solving Common Problems

ECO-DSC-25 (MAJ-8) 802: ADVANCED MACROECONOMICS-II

Topology of the code	Major
Course Duration/LTP (Lectures, Tutorials, Practicals)	L= 60 hours (4 hours a week for 15 weeks= 01 semester), T=0, P=0
Credits	4
Max. Marks	100 Marks = Theory 90 marks + Internal Assessment 10 marks
Time	3 hours
Level	400

Course Objective: Macroeconomics or aggregative economics analysis establishes the functional relationship between the large aggregates. The aggregate analysis has assumed such a great significance in recent times that a prior understanding of macroeconomic theoretical structure is considered essential for the proper comprehension of the different issues and policies. Macroeconomics now is not only a scientific method of analysis; but a body of empirical economic knowledge. The paper entitled “Macro-Economics-I” equips the students at the postgraduate level to understand systemic facts and latest theoretical developments for empirical analysis. The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.

Pedagogy of the Course Work: The course relies on a combination of lectures, solving problems, and discussing of academic articles or real-life situations. Teacher will assign topic for assignments on contemporary themes and issues

Course Outcomes: This course equips students to critically analyses income and employment determination through classical and Keynesian frameworks, understand consumption behavior under certainty and uncertainty, and evaluate major investment theories and their macroeconomic implications. Learners will develop the ability to interpret money supply and demand mechanisms, assess theoretical and empirical debates, and apply models such as the multiplier, accelerator, and Tobin’s-q. By the end of the course, students will be able to integrate these macroeconomic concepts to explain real-world economic fluctuations and policy outcomes effectively.

Instructions for Paper-setter and candidates:

The maximum mark for the paper will be 100. The question paper will be of 90 marks and continuous evaluation 10 marks. The time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

There shall be **9** questions in all

The first question is compulsory comprising 12 short answer-type questions spread over the whole syllabus. The candidates are required to attempt 9 questions. Each question shall be of two marks (9 x 2= 18).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and

the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 18 marks (18x4=72).

Unit-I

IS and LM Framework: Derivation, Properties, Shifts and Rotations of IS and LM Curves under closed and open economy systems. Derivation, Properties, Shifts, and Rotations of BP Curve. Simultaneous Equilibrium in Money and Product Markets. Impact of Opening-up on simultaneous equilibrium (i.e., IS-LM-BP simultaneous equilibrium).

Monetary and Fiscal Policies: Objectives, Conflicts among Objectives. Relative Effectiveness of Monetary and Fiscal Policies under Different Situations in IS-LM-BP Framework. International Trinity and Quadrilemma choices under IS-LM-BP framework.

UNIT-II

Inflation: Effects of Inflation. Theories of Inflation: Quantity Theory, Keynesian Theory, Monetarist views on Inflation, Modern theory of Inflation, Structural Theory. The menu of policy choices.

Philips Curve Analysis: Short Run and Long Run views. The Monetarist-Keynesian Debate and the Phillips Curve.

UNIT-III

Trade Cycle: Hansen–Samuelson Accelerator–Multiplier Interaction Model, Hicks Model, Kaldor Model, Goodwin model of endogenous cycles.

UNIT – IV

The New Classical School: Rational Expectations Hypothesis: Dynamic Time Inconsistency, Policy Ineffectiveness Proposition.

The Random Walk of GDP: The Relative Importance of AD and AS.

Real Business Cycle Model: Disturbances and Propagation mechanism. Macroeconomic Policy in Real Business Cycle Model.

The New-Keynesian School: Real and Nominal Wage-Price Rigidity Models - Menu Costs Model, Implicit Wage Contract Models, Efficiency Wage Models, Insider-Outsider Models.

UNIT - I

Integration: Indefinite and Definite, Integration of a Function of only one Variable; Methods of Integration; Substitution and Partial Fraction. Application of Integration in Economics; Consumers' and Producers' Surplus; Finding Demand Function, Maximum Profit and Capital Growth Equation.

Differential Equations: Introduction, Solution of Differential equations – Variable-separable, Homogenous, Exact, Linear and Bernoulli's form cases; Solution of Linear Differential Equation with Constant Coefficients.
Economic Applications w.r.t. Demand, Revenue, Cost Functions and Simple Market Equilibrium Models.

UNIT – II

Difference Equations: Solution of a Difference Equation and Simple Economic Applications.

Linear Programming: Definition, Assumptions, Formulation and Solution of LPP (Feasible, Basic and Optimal Solutions) by graphical and simplex method. Dual Problem: Solution of Primal and Dual Problems by Simplex Method and their Interpretation.

UNIT – III

Probability Distributions: Properties (including derivation of mean and variance) and Applications of Binominal, Poisson and Normal Distributions.

Statistical Inferences: Concepts of parameter, statistic and standard error (including its utility). Sampling Distribution of a Statistic, Distribution of Sample Mean, Properties of an Ideal Estimator; Unbiasedness, Consistency, Efficiency and Minimum Variance. Interval Estimation and Confidence Interval for mean, difference of means, single proportion and difference of proportions.

UNIT – IV

Tests of Significance: Large and Small Sample Tests based on Normal and t Distribution, Test of Significance of Mean, Difference between means, Single Proportion, Difference between two proportions, Simple Correlation Coefficient and Simple Regression Coefficient, test based on F and Z Distribution (Fisher's Z Statistics).

Chi-Square Tests: Conditions for Chi-Square Test; Application of χ^2 Distribution – Test for Goodness of Fit, Independence and Specified Value of the Variance.

Analysis of Variance: Applications with regard to one way and two way classifications.

Max. Marks	100 Marks = Theory 90 marks + Internal Assessment 10 marks
Time	3 hours
Level	400

Course Objective: This course aims to provide a comprehensive understanding of labour market theories, from classical to contemporary perspectives. It examines the functioning of labour institutions, wage determination, and the impact of legislation and industrial relations. The course also evaluates contemporary challenges in the Indian labour market, including informalisation, gender disparities, and the evolving nature of work

Pedagogy of the Course Work: The students would be evaluated at the end of each semester through subjective-type questions/answers (both short and essay type). The scripts would be evaluated by the teacher/instructor teaching the paper and the grade shall be submitted accordingly. The course relies on a combination of lectures, solving problems and discussing academic articles or real-life situations. The teacher will assign topics for assignments on contemporary themes and issues from the syllabi.

Course Outcomes: This course shall enable students to comprehend the theoretical and empirical foundations of labour markets and employment dynamics. It shall provide insights into the functioning of wage determination mechanisms, labour market segmentation, and institutional frameworks governing labour relations. The course shall also equip students to critically analyse contemporary issues in the Indian Labour Market such as informalisation, wage inequality, gender disparities, and structural transformations, thereby preparing them for advanced research and policy analysis in labour and employment economics.

Instructions For the Paper-Setter and Candidates:

The maximum mark for the paper will be 100. The question paper will be of 90 marks and continuous evaluation 10 marks. The time allowed will be 3 hours.

UNIT-I

Labour Markets and Employment: Nature and characteristics of labour markets in developing countries like India;

Paradigms of labour market analysis – Classical, neo-classical and dualistic economy; Demand for labour; Supply of labour in relation to growth of labour force; Labour market policies.

Employment and Development Relationship: Poverty and unemployment in developing countries; Unemployment – Concept, Types, and Measurement, particularly in India; Impact of rationalization, technological change and modernization on employment.

UNIT-II

Wage Determination: Classical, Neo-classical and bargaining theories of wage determination; Concepts of minimum wage, living wage and fair wage in theory and practice; Discrimination in labour markets; Wage determination in various sectors – rural, urban, organized, unorganized and informal sectors; Non-wage component of labour remuneration;

Inflation-wage relationship at micro and macro levels; Productivity and wage relationship; Analysis of rigidity in labour markets; Asymmetric information and efficiency of labour markets in wage determination; National wage policy.

UNIT-III

Industrial Relations: Theories of Labour Movement – Growth, pattern and structure of labour unions in India, Achievements of labour unions; Causes of industrial disputes, their settlement and prevention mechanism; Role of tripartism; Current trends in collective bargaining.

UNIT-IV

State and Labour: State and Social Security of Labour – Concept of Social Security and its evolution; Social assistance and social insurance; Review and appraisal of State policies with respect to social security and labour welfare in India; Special problems of labour; Receding State and its effect on working of labour markets;

Labour market reforms – Exit policy, need for safety nets, measures imparting flexibility in labour markets; Globalization and Labour Markets.

3. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60)

Unit I

Foundations of Political Economy

Scope and subject matter of political economy; Mode of production and the superstructure; Pre-capitalist modes of production: Primitive communism, Slavery and Feudalism

Unit II

Capitalist Mode of Production

Core features of the capitalist mode of production; Capital accumulation and the reserve army of labour; The falling tendency of the rate of profit; The nature and dynamics of capitalist crises

Unit III

State, Monopoly Capitalism, and Accumulation

The state and its role in capital accumulation under capitalism; Development of monopoly capitalism: Concentration and centralisation of capital, Corporations, cartels, trusts, and mergers, Banks and financial institutions in monopoly capitalism

Unit IV

Agrarian Questions and Imperialism in 21st Century

The agrarian question in classical and contemporary debates; Capitalism in agriculture
Imperialism: Classical theories (Hobson, Lenin, Luxemburg); Contemporary imperialism;
Contemporary imperialism and its relationship to the agrarian question

Max. Marks	100 Marks = Theory 90 marks + Internal Assessment 10 marks
Time	3 hours
Level	400

Course Objective: Application of economic theory need a reasonable understanding of economic relationship and relevant statistical methods. The econometric theory thus becomes a very powerful tool for understanding of applied economic relationships and for meaningful research in economics. This paper accordingly is devoted to equip the students with basic theory of econometrics and relevant applications of the methods. The topics covered in the course include various problems faced in estimation of both single equations and simultaneous equations models. Besides the time-tested method of imparting verbal instructions through lectures, description and derivation of econometric models would be demonstrated by extensive use of blackboard. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments and written examinations.

Pedagogy of the Course Work: The course relies on a combination of lectures, solving problems, and discussing of academic articles or real-life situations. Teacher will assign topic for assignments on contemporary themes and issues from the syllabi. Special tutorials/contact hour for one-to-one student-teacher interactions.

Course Outcome: By the end of this course, students will gain a solid understanding of econometrics, including its nature, scope, and methodology, and how to specify and estimate econometric models. They will learn to apply simple and multiple regression models using the Ordinary Least Squares method, understand the properties of least squares estimators, and evaluate model fit using R-squared and Adjusted R-squared. Students will also be able to test the significance of regression coefficients, conduct hypothesis testing, and address econometric problems like multicollinearity, autocorrelation, and heteroscedasticity. The course will cover specification errors, such as the omission of relevant variables or inclusion of irrelevant ones, and the impact of measurement errors in variables. Additionally, students will learn about model selection criteria and the use of dummy variables in regression models.

UNIT- I

Introduction: Nature and Scope of Econometrics, Methodology of Econometrics. Specification of an Econometric Model. Nature of Data used in Estimation.

Simple and Multiple Regression Models: Estimation of Model by Method of Ordinary Least Squares; Properties of the Least Squares Estimators, the Gauss-Markov Theorem. Goodness of Fit-R Square & Adjusted R Square.

UNIT –II

Testing Significance of Regression Coefficients: Confidence Interval and Hypotheses Testing.

Econometrics Problems: Nature, Consequences, Detection and Remedial Measures of the Problems of Multicollinearity and Autocorrelation.

UNIT- III

Econometrics Problems: Nature, Consequences, Detection and Remedial Measures of the Problem of Heteroscedasticity.

The student successfully securing 192 credits will be awarded B.A. (Hons.) degree with research.											

Table 1	Table 2
Notes: 1. In the first semester student will be offered three different subjects A, B & C. 2. At the end of second semester each student may choose any one of the two streams namely Single Major or Multi-Disciplinary. The student choosing Single Major stream is required to give his/her Major and Minor at end of the second semester. 3. The student opting for Single Major must secure 50% credits of the total credits in the Major subject and obtain 24 credits from the Minor subject(s). To qualify for Minor in a particular subject, the student must attain at least 12 credits in that subject(s). 4. A student who secures 75% or more marks in aggregate till semester 6 (upto 3 year degree) shall be eligible for 4 YEAR DEGREE B.A. HONOURS with research on the condition that the Institution is either a PU approved Research Centre or already offering master programme in the subject. 5. Language paper chosen as MIL-1 and MIL-2 should be in the same subject. 6. Once Major and Minor papers are chosen in 3rd semester, the same will continue as Major and Minor subject in the subsequent semesters. 7. The first major paper in any semester shall be offered as minor paper to other discipline/courses. 8. 'RM' represents Research Methodology.	Notes: 1. In the first semester student will be offered three different subjects A, B & C. 2. At the end of second semester each student may choose anyone of the two streams namely Single Major or Multi-Disciplinary. The student is required to give his/ her Major and Minor at end of the second semester. 3. Subject A shall be the subject in which the candidate shall pursue Honours degree (if opted) 4. The Institution shall ask the student to opt for Hons. Subject well in advance before the end of semester IV. 5. A student who secures 75% or more marks in aggregate till semester 6 (upto 3 year degree) shall be eligible for 4 YEAR DEGREE B.A. HONOURS with research, on the condition that the Institution is a PU approved Research Centre/ offering MA courses in that subject. 6. Language paper chosen as MIL-1 and MIL-2 should be in the same subject. 7. Once Major and Minor papers are chosen in 3rd semester, the same will continue as Major and Minor subject in the subsequent semesters. 8. The first major paper in any semester shall be offered as minor paper to other discipline/ courses. 9. The RM MAJ Subject represents research methodology paper of Subject-A
Research: 1. The candidate opting for Honours in research is required to study two papers of Research Methodology (RM) of 04 credits each and write a Dissertation of 08 credits in the Major subject. 2. The Dissertation (P1) opted by the candidates pursuing B.A.(Hons.) with Research: A synopsis of at most 3000 words shall be prepared by the candidate and a presentation before faculty members of department shall be arranged immediately after the end of odd semester examination to evaluate the performance of candidate. Marks out of 100 shall be awarded to assess candidate's performance. 3. The Dissertation (P2) opted by the candidates pursuing B.A.(Hons.) with Research: The dissertation submitted to the Department/College/Institution, before a pre-fixed date announced by the Department/College/Institution, shall be evaluated by two subject experts. The supervisor shall be one of these two experts. The second expert for an affiliated College/Institution shall be an external examiner either from university campus or from another affiliated college/institution of Panjab University, Chandigarh. The external expert appointed from an affiliated College/Institution shall also be an approved Ph.D. supervisor of Panjab University, Chandigarh. However, for a department on campus offering these programme, the external expert shall be appointed from an institution beyond the administrative jurisdiction of Panjab University, Chandigarh (i.e., expert from another university or research institute not affiliated with the Panjab University). The open viva-voce shall be conducted by the external expert in the mandatory presence of the supervisor. Marks out of 200 shall be awarded by the external expert only. The bifurcation of 200 marks shall be as follows: i. Marks out of 150 shall be awarded for the quality of dissertation work; and Marks out of 50 shall be awarded on the basis of candidate's performance in viva-voce. ii. Hence, the dissertation Course in 4th semester shall carry 8 credits (200 marks) and the grade in this Course shall be decided on the basis of the percentage marks obtained out of 200. Passing marks for a dissertation paper shall be 40% (i.e., 80 out of 200) with a grade letter 'P'. iii. It is not necessary to score passing marks/grade separately but a sum of marks obtained from dissertation evaluation (marks out of 150) and viva-voce examination (marks out of 50) shall be considered to fulfill passing grade criterion.

CRITICAL THEORY – I
(Discipline Specific Core)

Course Title:	Critical Theory – I
Course Code:	ENG-DSC-21 (MAJ/MIN) -701
Typology of Course:	Discipline Specific Core (DSC)
Level:	400
Course Duration:	75 hours in one semester (3hrs of direct teaching + 2 hrs practical)
Credits:	4 credits
Maximum Marks:	100 (90 Theory + 10 Internal Assessment)

Course Description: The course introduces and initiates the students to the field of critical theory. It begins with analyzing the key movements that emerged in the middle of the twentieth century. The course examines movements such as structuralism, post-structuralism, deconstruction and beyond. It facilitates arguments about the nature of language, the role played by linguistics in shaping the trajectory of critical theory, the study of myth, the role of the author and reader in literary criticism of the period, psychoanalytic criticism and the subject, the place of discourse, rhizomatic structures, and so on.

Learning Outcomes:

1. The students will be able to read canonical texts of critical theory, the literary and theoretical movements.
2. They will be able to understand key thinkers such as Saussure, Jakobson, Levi Strauss, Barthes, Lacan, Derrida, Foucault, and Deleuze.
3. They will be able to use critical concepts within each theoretical movement.
4. They will be able to analyze and critique these thinkers and theories.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week, and two hours of practical per week, during which, the students shall be given exercises of practical criticism. The students can also be shown video-lectures available online on the topics related to critical theory, prescribed in the syllabus.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students each group.

Course Contents:

Testing Scheme:

There shall be five questions of 18 marks each. The first question shall be based on entire syllabus consisting of five short-answer-type questions out of which the students have to attempt three. Thereafter four more essay type questions with an internal choice from each unit will be asked.

Model Test Paper:

Max. Marks: 100

Theory: 90 marks

Internal Assessment: 10 marks

Time: 03 Hours

Note: All questions are compulsory. Each question carries 18 marks.

Q.1. Attempt *three* out of five

- a. Distinction between Parole and Langue.
- b. Distinguish between metaphor and metonymy.
- c. Difference between work and text.
- d. Mirror Stage, as explained by Lacan
- e. What is discourse?

(6X3=18)

Q 2. What does Ferdinand de Saussure state about the nature of language? How is language socially constructed?

OR

What, according to Jakobson, are the two aspects of language? How do his ideas enable us to critically analyze a literary text?

Q 3 What does Claude Levi-Strauss mention about the structure of myth in the reading in your course? What can you analyze about mythical structures given his observations?

Or

How does the death of the author facilitate the birth of the reader? Discuss.

Q4. Analyze how the development of the psyche of the subject in its mirror stage impacts the formation of the subject, according to Lacanian psychoanalytic thought.

OR

Derrida says “deconstruction is everything and nothing”. Explain the difficulties in defining ‘deconstruction’.

Q 5. How does Foucault use the structure of panopticon to theorize the all- pervasive gaze of power?

OR

Increasingly we are heading towards societies of control, without being subjected to external institutional controls. Explain.

CULTURAL STUDIES – I
Discipline Specific Core**

Course Title:	Cultural Studies – I
Course Code:	ENG-DSC-22 (MAJ)-702
Typology of Course:	Major/Discipline Specific Course
Level:	400
Course Duration:	75 hours in one semester
Credits:	4 credits (3 hrs. of direct teaching and 2 hrs. of practical)
Maximum Marks:	100 (90 Theory + 10 Internal Assessment)

Course Description: This course introduces students to the foundational concepts, debates, and thinkers in cultural studies. It explores shifting definitions of culture, the rise of mass and popular culture, and the emergence of subcultures, drawing on seminal texts by Arnold, Eliot, Leavis, Adorno, Williams, Hall, Habermas, and Hebdige. The objective is to equip students with theoretical tools to critically analyse cultural practices, media forms, and everyday life within their social and historical contexts. The course aims to build both conceptual clarity and critical analytical skills central to cultural studies.

Learning Outcomes:

1. The students will understand foundational concepts such as culture, popular culture, mass culture, consumer culture, and subculture.
2. They will critically assess the ideas of key cultural theorists including Arnold, Eliot, Leavis, Adorno, Williams, Hall, Habermas, and Hebdige.
3. They will be able to situate cultural theories within their historical and social settings.
4. They will apply cultural studies frameworks to interpret contemporary cultural texts, practices, and everyday life.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week, and two hours of practical per week, during which, the students shall be given exercises of practical criticism. The students can also be shown video-lectures available online on the topics related to cultural studies, prescribed in the syllabus.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students each group.

Course Contents:

Language and Linguistics – I
(Discipline Specific Core)

Course Title:	Language and Linguistics – I
Course Code:	ENG-DSC-23 (MAJ)-703
Typology of Course:	Discipline Specific Core (DSC)
Level:	400
Course Duration:	75 hours in one semester (3hrs of direct teaching + 2 hrs. practical)
Credits:	4 credits
Maximum Marks:	100 (90 Theory + 10 Internal Assessment)

Course Description: The course aims to introduce the study of language. The learners will comprehend the origin, nature, structure and function of language in human society. This involves the development of an awareness of philosophical, historical, comparative, structural, social and psychological perspectives on language as it evolves as a system with its cognitive aspect and social function. The course traces the main directions that the study of language has taken through the readings of thinkers in the field of linguistics.

Learning Outcomes:

1. Students will understand key linguistic concepts, including the human–animal language distinction and Saussure’s principles of linguistic structure.
2. They will analyse how language operates within society and culture through central ideas in sociolinguistics and communicative competence.
3. They will explain the basics of phonetics, phonology and the global spread of English as a world language.
4. They will apply fundamental concepts of morphology and semantics to examine word formation and meaning.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week, and two hours of practical per week, during which, the students shall be given exercises of language and linguistics. The students can also be shown video-lectures available online on the topics related to topics prescribed in the syllabus.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students each group.

POSTCOLONIAL WRITINGS – I
(Discipline Specific Core)**

Course Title:	Postcolonial Writings – I
Course Code:	ENG-DSC-24 (MAJ)-704
Typology of Course:	Discipline Specific Core (DSC)
Level:	400
Course Duration:	75 hours in one semester (3 hrs of direct teaching + 2 hrs practical)
Credits:	4 credits
Maximum Marks:	100 (90 Theory + 10 Internal Assessment)

Course Description:

This course introduces students to the critical field of postcolonial literary studies, examining how empire, language, culture, and gender intersect in shaping both colonial and postcolonial discourse. Through engagement with foundational thinkers, the course highlights the politics of representation, the role of English in colonial and postcolonial contexts, the construction of national identity, and the challenges posed by feminist and subaltern perspectives. By situating literature within broader historical and cultural debates, students will develop the ability to critically analyze texts and theories that interrogate power, identity, and resistance in the postcolonial world.

Learning Outcomes:

5. Students will be able to explain how empire, imperialism, and orientalism shaped the Western literary canon and cultural discourse.
6. They will analyze the role of English in colonial India, evaluate native responses to linguistic imperialism, and assess the contemporary status of English in postcolonial contexts.
7. Students will be able to critically engage with theories of nationalism and cultural identity to understand how nations arise and how culture becomes a site of transformation.
8. They will examine how postcolonial feminist thought challenges both Western feminism and male-centered postcolonial discourse, recognizing the representation of women as subaltern subjects.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week, and two hours of practical classes per week. During practical classes, there will be student-led seminars on specific thinkers or texts. Students will be encouraged, by assigning them into small groups, to make presentations on themes like nationalism, feminism, or subalternity. They will not only grasp the historical and theoretical foundations of empire and postcolonial studies but also develop the ability to critically interrogate language, culture, and gender in global contexts.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students in each group.

Course Content:

Unit I: Language, Empire, and English in India

1. Thomas Babington Macaulay, 'Indian Education: Minute of the 2nd of February, 1835,' from G. M. Young (ed.), *Macaulay: Prose and Poetry* (Cambridge, MA: Harvard University Press, 1967): 719-30.

Testing Scheme:

There shall be five questions of 18 marks each. The first question shall be of short notes (choice of three out of five) which should be concise (250 words approx.) and directly address the topic without unnecessary digression. Short notes will be based on key ideas, theories, or themes relevant to the given units.

There shall be four essay-type questions of 18 marks each. The questions shall be spread over the four units. Internal choice will be given in each question from each unit.

Model Test Paper:
Max. Marks: 100
Theory: 90 marks
Internal Assessment: 10 marks
Time: 03 Hours

Note: All questions are compulsory. Each question carries 18 marks.

Q. 1. Attempt any *three* out of five.

- Anglicist vs. Orientalist debate.
- What do you mean by the phrase “Masks of Conquest”?
- Role of intellectual elites according to Frantz Fanon.
- Define the concept of the “Third World woman”.
- Distinguish between Western and Eastern nationalisms.

(6x3=18)

Q. 2. ‘I have never found one among them who could deny that a single shelf of a good European library was worth the whole native literature of India and Arabia.’ Do you think Macaulay's statement on Indian education is a strategy of gaining control over the natives?

Or

‘Colonialism uses educational institutions to augment the perceived legitimacy and propriety of itself, as well as providing the means by which colonial power can be maintained.’ Discuss with reference to Gauri Viswanathan's Introduction to *Masks of Conquest*.

Q. 3. Examine the characteristics of nationalism as the inheritance of colonized countries from western models and the role played by the intellectuals in ushering them.

Or

Frantz Fanon was deeply anxious about the need to resist not only 'the great white error' of racist stereotyping but also 'the great black mirage' of an essentialist 'African' identity for black people. Explain this contradiction as brought out in his essay 'The Pitfalls of National Consciousness' while describing the role of the intelligentsia in nationalist construction.

Q. 4. Do Western feminists construct a 'singular monolithic subject' in their representation of third-world women? Explain in the context of Chandra Talpade Mohanty's essay 'Under Western Eyes'.

Or

How does Vandana Shiva relate the two movements of feminism and ecology? In what ways do the forces of corporate globalization and colonialism affect the lives of women in developing countries?

Q. 5. In his essay 'Cultural Identity and Diaspora', Stuart Hall describes identity as both collective and shared as well as dispersed and fragmented. Which out of the two notions of identity represent adequately the trauma of the colonized people?

Or

Hybridity enables the postcolonial subject to transcend the risks of cultural binarism (self/other) and the desire to search for 'pure' roots. If so, is it preferable to the antagonism of binary categories from your understanding of Homi Bhabha's essay 'Of Mimicry and Man'?

RESEARCH METHODS**

Course Title: Research Methods
Course Code: ENG-RM-24-704
Typology of Course: Research Methodology
Level: 400
Course Duration: 75 hours in one semester (3hrs. of direct teaching + 2 hrs. practical)
Credits: 4 credits
Maximum Marks: 100 (90 Theory + 10 Internal Assessment)

Course Description: Research involves systemic exploration of subject-matter for creating new knowledge or extending the frontiers of existing knowledge. This paper is designed keeping in view the increasing importance of research for Master's students in the emerging contexts. The paper is of introductory nature. It aims to impart the basic understanding of research tools and techniques, theory, online and print sources and documentation to the students. The paper consists of four units with each containing prescribed readings, which are of both theoretical and practical nature, and the students are expected to learn the theoretical as well as the practical aspects of research.

Learning Outcomes:

1. The students will understand the fundamentals of research—its purpose, processes, and the role of theory—in literary studies.
2. They will develop practical skills in locating, evaluating, and using online and print research tools for scholarly work.
3. They will acquire competence in MLA documentation, including preparing accurate in-text citations and a comprehensive Works Cited list.
4. They will learn to plan, structure, write, and present research projects according to established academic conventions.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week, and two hours of practical per week, during which, the students shall be given exercises related to research. The students can also be shown video-lectures available online on the topics related to research methods, prescribed in the syllabus.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students each group.

Unit I Basics

1. Part I: "Research, Researchers, and Readers", from *The Craft of Research* (4th edition) by Wayne C. Booth et al. (The University of Chicago Press, 2016), 1-26.
2. Suman Gupta, "The Place of Theory in Literary Disciplines", from *The Handbook to Literary Research*, edited by Delia da Sousa Correa and W.R. Owens, (Routledge, 2010), 109-130.

Unit II Techniques

1. Shafquat Towheed, "Tools and Techniques for Literary Research: Using Online and Printed Sources", from *The Handbook to Literary Research*, edited by Delia da Sousa Correa and W.R. Owens (Routledge, 2010), 9-35.
2. W.R. Owens, "Planning, Writing and Presenting a Dissertation or Thesis", from *The Handbook to Literary Research*, edited by Delia da Sousa Correa and W.R. Owens (Routledge, 2010), 187-204.

Unit III Documentation i.

1. Chapter 4: "Documenting Sources: An Overview", *MLA Handbook*, 9th edition(The Modern Language Association, 2021), 95-104
2. Chapter 5: "The List of Works Cited", *MLA Handbook*, 9th edition(The Modern Language Association, 2021), 105-226.

Unit IV Documentation ii.

1. Chapter 6: "Citing Sources in the Text", *MLA Handbook*, 9th edition(The Modern Language Association, 2021), 227-286.
2. Chapter 7: "Notes", *MLA Handbook*, 9th edition(The Modern Language Association, 2021), 287-292.

Testing Scheme:

There shall be five questions of 18 marks each. The first question shall be based on entire syllabus consisting of five short-answer-type questions out of which the students have to attempt three. Thereafter four more questions with an internal choice from each unit will be asked. **The questions based on UNIT III and IV may have sub-parts based on MLA stylesheet/documentation as per given syllabus.**

Model Test Paper:

Max. Marks: 100

Theory: 90 marks

Internal Assessment: 10 marks

Time: 03 Hours

Note: All questions are compulsory. Each question carries 18 marks.

Q.1. Attempt *three* out of five.

- a. How does Wayne Booth define the value of research?
- b. Write a short note on offline sources of research.
- c. What is importance of planning in research.
- d. What is plagiarism and how to avoid it.
- e. What is importance of documentation in research?

(6X3=18)

Q.2 Discuss how Booth and his co-authors conceptualise the relationship between researchers and readers.

OR

Analyse Suman Gupta's argument about the role of theory in structuring literary studies as a discipline.

Q.3 Write a detailed note on the online sources of research.

Or

Discuss Owens' recommended stages of planning and drafting a dissertation. How do these stages contribute to clarity, scholarly rigour, and originality?

Q.4. Explain the core principles of MLA documentation as outlined in Chapter 4.

Or

Rewrite the following bibliographic details according to *MLA Handbook* 9th edition (any 9)—

- i. Giorgio Agamben's book, Homo Sacer: Sovereign Power and Bare Life, published by Stanford University Press, publication year 1998.

Writings from Punjab –I
(Discipline Specific Core)**

Course Title:	Writings from Punjab –I
Course Code:	ENG-DSC-25 (MAJ)-705
Typology of Course:	Discipline Specific Core
Level:	400
Course Duration:	75 hours in one semester (3hrs of direct teaching + 2 hrs practical)
Credits:	4 credits
Maximum Marks:	100 (90 Theory + 10 Internal Assessment)

Course Description: The course aims to introduce students to the vibrant and syncretic literary traditions of Punjab that emerged between the fifteenth and nineteenth centuries. Positioned at a historically contested geopolitical crossroads, Punjab witnessed sustained cultural interactions and social upheavals. In response, powerful spiritual and literary movements, particularly Sikh, Sufi, and Bhakti traditions flourished, generating an expansive corpus of egalitarian and inclusive writings. These traditions, preserved in *the Granth Sahib*, Sufi and Bhakti poetry, continue to resonate in both religious and secular spheres through their rich performative practices. The course examines this evolution of narrative and thought by engaging with key Punjabi texts across genres such as *Gurbani*, *Sufiana kāv*, Bhakti poetry, Persian epistles like *Zafarnāma*, and *Qissa kāv*. It seeks to familiarize students with significant works written in medieval Punjabi and Persian while situating them in the broader socio-economic and cultural matrix of medieval Punjab. By tracing the development of a deeply rooted syncretic ethos, the course offers multiple perspectives on how literary expression in Punjab was shaped over five centuries. Ultimately, the objective is to help students understand how these diverse writings collectively laid the foundation for Punjabi literary culture.

Learning Outcomes

1. Students will be able to read, understand and critically engage with major literary texts produced in medieval Punjab across Sikh, Sufi and Bhakti traditions.
2. Students will be equipped to analyze the thematic concerns, stylistic features and ideological underpinnings of texts composed in medieval Punjabi and Persian.
3. They will be able to draw connections across Sikh, Sufi, Bhakti and *Qissa* traditions, understanding how divergent literary voices contributed to a shared Punjabi literary ethos.

4. Students will be able to critique the selected writers and genres, examining how they shaped and responded to the religious, social and ethical challenges of their times.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week and two hours of practical per week. This will involve contextual lectures and discussions on the historical and cultural background of medieval Punjab. During practical/tutorial hours, students will engage in exercises such as comparative reading, interpretive writing and oral presentations on selected works. Audio-visual material may be incorporated to illuminate the performative dimensions of the texts.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students each group.

Course Contents:

Unit I Writings of the Gurus

1. Guru Nanak Dev. "Hymns from Siddha Goshta" (pp. 96-103), "Hymns from Barah Mah" (pp. 104-110), *Hymns of Guru Nanak*. Ed. & Trans. by Khushwant Singh (Hyderabad: Orient Longman, 1991).

CRITICAL THEORY – II
(Discipline Specific Core)

Course Title: Critical Theory – II
Course Code: ENG-DSC-26 (MAJ/MIN)-801
Typology of Course: Discipline Specific Core (DSC)
Level: 400
Course Duration: 75 hours in one semester (3hrs. of direct teaching + 2 hrs. practical)
Credits: 4 credits
Maximum Marks: 100 (90 Theory + 10 Internal Assessment)

Course Description: The course augments the students' understanding about the field of critical theory. It builds on the earlier course on Critical Theory I, analyses the key movements that emerged in the middle of the twentieth century. The course examines movements such as post-modernism, and its many facets, post-colonialism, feminism, new historicism and cultural materialism are explored in the course. The course seeks to enlighten the students about the use of structuralist, poststructuralist, deconstructive and post-modern criticism as it augments and influences the thinkers of this course.

Learning Outcomes:

1. The students will be able to understand key theoretical texts related to postmodernism, postcolonialism, feminism, and new historicism.
2. They will be able to learn how each movement builds from its predecessor.
3. The students will be able to learn key concepts within each movement, such as metanarrative, orientalism, subaltern, feminism, base-superstructure models, etc.
4. They will be able to contextualize and critique these theoretical movements and concepts.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week, and two hours of practical per week, during which, the students shall be given exercises of practical criticism. The students can also be shown video-lectures available online on the topics related to critical theory prescribed in the syllabus.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students each group.

Cultural Studies – II
(Discipline Specific Core)

Course Title:	Cultural Studies – II
Course Code:	ENG-DSC-27 (MAJ)-802
Typology of Course:	Major/Discipline Specific Course
Level:	400
Course Duration:	75 hours in one semester
Credits:	4 credits (3 hrs. of direct teaching and 2 hrs. of practical)
Maximum Marks:	100 (90 Theory + 10 Internal Assessment)

Course Description: This course offers an advanced understanding of contemporary cultural forms by examining key media platforms such as radio, film, television, social media, and graphic narratives. It introduces students to foundational debates in media theory, technological reproducibility, cultural politics, and participatory culture. Through close reading of canonical texts and practical criticism exercises, the course trains students to analyze how different media shape meaning, identity, ideology, and everyday experience. The objective is to equip learners with conceptual and analytical tools that enable them to critically interpret modern cultural productions and understand their historical, aesthetic, and political significance.

Learning Outcomes:

1. The students will be able to critically analyse major media forms like radio, film, television, social media, and comics using concepts from cultural theory.
2. They will understand how technological change, genre, and participatory culture influence meaning-making across contemporary media.
3. They will be able to apply theoretical frameworks to practical criticism of diverse cultural texts and media artefacts.
4. They will develop an informed awareness of the political, aesthetic, and ideological dimensions of modern media practices.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week, and two hours of practical per week, during which, the students shall be given exercises of practical criticism. The students can also be shown video-lectures available online on the topics related to cultural studies, prescribed in the syllabus.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students each group.

Testing Scheme:

There shall be five questions of 18 marks each. The first question shall be based on entire syllabus consisting of five short-answer-type questions out of which the students have to attempt three. Thereafter four more essay type questions with an internal choice from each unit will be asked.

Model Test Paper:

Max. Marks: 100

Theory: 90 marks

Internal Assessment: 10 marks

Time: 03 Hours

Note: All Questions will carry equal marks.

Q1 Attempt any THREE.

- a. What key characteristics of radio does Andrew Crisell identify in *Understanding Radio*?

- b. What does John Fiske mean by the “modes of television” in his analysis of TV?
 - c. How does Sarah Berry-Flint explain the function of genre in film theory?
 - d. What do Burgess and Green mean by YouTube’s “cultural politics”?
 - e. What is Thierry Groensteen’s argument about the difficulty of defining comics as a medium?
- (6X3=18)**

Q2.What are the characteristics of radio as medium?

OR

What are the views of Walter Benjamin on radio? Does he view radio as a medium of social change?

Q3. The tools of literary criticism are inadequate to understand television. Do you agree?

OR

What are the distinctive features of film as a genre which set it apart from the rest of media?

Q4.YouTube seems to offer a choice of entertainment to the viewer, but it has its own cultural politics. Do you agree? Argue.

OR

YouTube empowers every individual to create and watch his/her type of video. Does this freedom of the individual any way challenge the hegemony of state or big-time capitalist conglomerates in producing entertainment for him/her?

Q5.What do we mean by ‘graphic narratives’? Define the key features of a graphic narrative.

OR

Do comics constitute a significant part of the media? Discuss in detail about the recent resurgence in the world of comics.

Language and Linguistics – II
(Discipline Specific Core)

Course Title:	Language and Linguistics – II
Course Code:	ENG-DSC-28 (MAJ)-803
Typology of Course:	Discipline Specific Core (DSC)
Level:	400
Course Duration:	75 hours in one semester (3hrs of direct teaching + 2 hrs. practical)
Credits:	4 credits
Maximum Marks:	100 (90 Theory + 10 Internal Assessment)

Course Description: The aim of this paper is to develop an understanding of how language can be described at various levels. The English language is to be studied as a reference point, while comparison and consideration of structures in other languages will also be relevant. An important objective is the development of a practical and analytical approach to the study of languages, while extending the scope of linguistics to communication between languages, as in the activity of translation.

Learning Outcomes:

1. Students will understand how languages originate, change, and operate through principles of Universal Grammar.
2. They will examine the relationship between language and the human mind.
3. They will analyse meaning in context through key concepts in pragmatics, including speech acts and universal pragmatics.
4. They will apply major translation methods and cognitive approaches to understand how meaning is transferred across languages.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week, and two hours of practical per week, during which, the students shall be given exercises of language and linguistics. The students can also be shown video-lectures available online on the topics related to topics prescribed in the syllabus.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students each group.

Course Contents:

Unit I: Language: Its Origin, Change and Universal Grammar

1. Fromkin, Rodman &Hymes, “Language Change” (Chapter 10),*An Introduction to Language* (Wadsworth 2010, 9th ed.) 488-530.
2. Noam Chomsky, “Knowledge of Language as A Focus of Inquiry”, *Knowledge of Language* (Praeger, 1986) 1-14.

Unit II: Language and Mind

1. Fromkin, Rodman &Hyams, “Language Processing and the Human Brain”, *An Introduction to Language* (Wadsworth, 2014) Chapter 10, 444-494.
2. R. Jakobson, “Two Aspects of Language and Two Types of Aphasic Disturbances”, *Roman Jakobson: Selected Writings* (Mouton, 1971) 239-259.

Unit III: Pragmatics

1. J. Habermas, "What is Universal Pragmatics?" *On the Pragmatics of Communication* (MIT, 1988) 21-104.
2. Kent Back, "Speech Acts and Pragmatics", *The Blackwell Guide to the Philosophy of Language*, edited Michael Devitt and Richard Hanley (Blackwell, 2006) 147-167.

Unit IV: Translation

1. Peter Newmark, "Translating Methods" (45-53), "Literal Translation" (68-80), "The Other Translation Procedures" (81-93), *A Textbook of Translation* (Prentice Hall, 1988).
2. Amna Abudyak, "Translation and Writing: A Cognitive Process", https://www.academia.edu/35881255/Translation_and_Writing_A_Cognitive_Process.

POST COLONIAL WRITINGS – II
(Discipline Specific Core)**

Course Title: Postcolonial Writings – II
Course Code: ENG-DSC-29 (MAJ)-804
Typology of Course: Discipline Specific Core (DSC)
Level: 400
Course Duration: 75 hours in one semester (3hrs of direct teaching + 2hrs practical)
Credits: 4 credits
Maximum Marks: 100 (90 Theory + 10 Internal Assessment)

Course Description:

This course will examine some key concepts and debates in postcolonial writing, theory and criticism as represented in selected literary texts. It begins with the British Raj and its accompanying literature, leading to an understanding of some conceptual categories of postcolonial studies—its assumptions, contexts, pitfalls. In Units I and II, the course will explore the origins and meaning of the history of colonialism and postcolonialism to understand the effect of imperialism on the colonized world. In Units III and IV, focus will shift to self-representation and resistance, to postcolonial activism and to theories of language and nationalism, as brought out in the selected plays/novels. The course emphasizes not only theoretical grounding but also practical engagement, encouraging learners to connect literary debates with contemporary cultural and political realities, thereby fostering a nuanced understanding of postcolonial thought and its relevance today.

Learning Outcomes:

1. Students will apply key postcolonial theoretical frameworks to diverse texts in this semester.
2. They will evaluate how colonial legacies shape identity, language, and nationhood in different cultural contexts.
3. Students will be able to analyze how postcolonial texts challenge, subvert, or reframe colonial narratives and ideologies.
4. They will demonstrate the ability to identify strategies of resistance, hybridity, and cultural negotiation in literary works.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week, and two hours of practical classes per week. During practical classes, the students will be taught methods of close reading and theoretical application. Teaching strategy will highlight comparative perspectives, drawing connections across regions such as Africa, South Asia, and the Caribbean to reveal both shared and distinct postcolonial experiences. The classroom becomes a space for dialogue where students challenge dominant narratives and articulate marginalized voices. Ultimately, this pedagogy will foster independent research and critical thinking, preparing learners to contribute meaningfully to global literary and cultural debates.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students in each group.

Course Content:

Unit I: The British Raj

William Shakespeare: *The Tempest*, ed. Frank Kermode (Arden). Methuen, 1984.

Unit II: Resistance: Linguistic, Cultural, Ideological

Raja Rao: *Kanthapura*. Delhi: Orient Paperbacks, 1938.

Unit III: New Nations and Nationalisms

Chinua Achebe: *Things Fall Apart*. Oxford: Heinemann, 1958.

Unit IV: Rewriting History

J. M. Coetzee: *Foe*. New York: Viking, 1986.

Suggested Readings:

- Aijaz Ahmad, *In Theory: Classes, Nations, Literatures*. Verso, 1993.
- Gilles Deleuze and Felix Guattari, "What is Minor Literature?" *Mississippi Review*, vol. 11, No. 3, Winter/Spring, 1983, pp. 13-33.

- David Attwell, *J. M. Coetzee: South Africa and the Politics of Writing*. University of California Press, 1993.

Testing Scheme:

There shall be five questions of 18 marks each. The first question shall be of short notes (choice of three out of five) which should be concise (250 words approx.) and directly address the topic without unnecessary digression. Short notes will be based on key ideas, theories, or themes relevant to the given units.

There shall be four essay-type questions of 18 marks each. The questions shall be spread over the four units. Internal choice will be given in each question from each unit.

Model Test Paper:

Max. Marks: 100

Theory: 90 marks

Internal Assessment: 10 marks

Time: 03 Hours

Note: All questions are compulsory. Each question carries 18 marks.

Q. 1. Attempt any *three* out of five.

- a. What is Negritude?
- b. Explain the term 'subaltern'.

- c. What is the meaning of binary oppositions?
- d. Distinguish between pidgins and creoles.
- e. What do you mean by eurocentrism?

(6x3=18)

Q2. Would you agree that existence of binaries support the conception of Shakespeare's *The Tempest*?

Or

Caliban's protest against Prospero and his resistance to colonial power using the language taught by the colonizer helps us interpret the play as a postcolonial text. Explain.

Q. 2. How does Achebe build the argument of the sophistication of tribal proverbial language against the economy of the English language in *Things Fall Apart*? Illustrate from the novel.

Or

Discuss how Chinua Achebe's *Things Fall Apart* is a novel of resistance.

Q. 3. Why is it so significant for Raja Rao to create a spiritual dimension of the nation-in-the-making in *Kanthapura*?

Or

Discuss how far Raja Rao's experiment with the hybridization of English is a success.

Q. 4. How does Friday's story get appropriated in the making of the canon of white male authorship? Explain.

Or

Analyse the theme of power and language in J.M. Coetzee's *Foe*. Does the novel re-write *Robinson Crusoe*?

Writings from Punjab –II (Discipline Specific Core)

Course Title:	Writings from Punjab –II
Course Code:	ENG-DSC-30 (MAJ)-805
Typology of Course:	Discipline Specific Core
Level:	400
Course Duration:	75 hours in one semester (3hrs of direct teaching + 2 hrs practical)
Credits:	4 credits
Maximum Marks:	100 (90 Theory + 10 Internal Assessment)

Course Objectives: Twentieth-century Punjab witnessed profound upheavals that shaped its social, cultural and literary landscape. The region played a significant role in the Indian independence struggle, only to experience the devastating aftermath of Partition which displaced nearly 14 million people and claimed over a million lives. These events left no family untouched and fundamentally altered the idea of community. The subsequent civil strife of the 1980s further fractured a society once grounded in a deeply syncretic ethos. Alongside these ruptures, Punjab also witnessed assertive movements for Dalit identity, women's emancipation and expanding diasporic formations, each contributing to evolving notions of self and community. This course engages with literary expressions emerging from these multiple Punjabs – one inside the nation, and the other beyond the border, and yet another in its ever-expanding diaspora. Through a representative selection of texts written in Punjabi, Urdu, Hindustani and other languages, the course highlights the diverse identities and layered pasts that shape contemporary Punjabiyyat. It further examines how modern Punjabi literature negotiates intersections of caste, class, gender, memory, trauma, migration and belonging. By tracing shifting literary trends and cultural imaginations, the course aims to equip students with a nuanced understanding of the complexities of Punjab in the modern period.

Learning Outcomes:

1. The students will be able to identify how violence, displacement, memory, loss and communal rupture shape modern Punjabi consciousness.
2. They will be able to examine autobiographical and semi-autobiographical modes in Dalit writing and their role in articulating resistance, dignity and selfhood.
3. They will learn to understand how poetry reflects shifting political climates, from early 20th-century reformist visions to late 20th-century radical resistance.
4. They will be able to recognize the syncretic foundations of Punjabiyyat and its reconfigurations through migration, diaspora and modernity.

Pedagogy of the Course:

The paper requires three hours of direct teaching per week and two hours of practical per week. This will involve contextual lectures and discussions on the historical and cultural background of medieval Punjab. During practical/tutorial hours, students will engage in exercises such as comparative reading, interpretive writing and oral presentations on selected works. Audio-visual material, including documentaries, interviews, archival footage and recordings, may be incorporated to illuminate the performative dimensions of the texts.

Note: There shall not be a separate practical examination at the end of the semester. Practical and tutorials shall have a cap of twenty students each group.

MAJOR COURSE: A-28

Course title : Translation Studies: Theory and Applied Practice
Course code : FRN-DSC-28(MAJ)-805
Course duration : 75 hours in one semester/ 5 hours per week
Credits : 4
Maximum marks : 100 (90 theory+ 10 Internal Assessment)

Course Objectives:

- Provide students with a theoretical understanding of translation as a communicative act, emphasizing the relationship between message, situation, and context.
- Develop sensitivity to linguistic and paralinguistic features of the message, such as prosody, word order, and textual articulation in the translation process.
- Train students in advanced translation strategies and procedures, including modulation, equivalence, allusion, and adaptation.

Learning Outcomes:

At the end of the course, students will be able to:

1. Explain key theoretical concepts in translation studies, including message–situation dynamics, prosodic features, and discourse articulation.
2. Analyse source and target texts by identifying shifts in word order, emphasis, and modulation required to convey meaning accurately.
3. Apply appropriate translation strategies—such as equivalence, allusion, adaptation, and metalinguistic reflection—to produce contextually and culturally effective translations.

Course contents/ syllabus:

Topics to be studied:

- Message et situation
- Les faits prosodiques
- L'ordre des mots et la démarche

RBC-02

Course title : Dissertation Planning
Course code : FRN-DST-P1- 707
Course duration : 75 hours in one semester/ 5 hours per week
Credits : 4

Course Objectives:

- To guide students in identifying, refining, and justifying a viable dissertation topic and research problem.
- To develop students 'ability to plan and structure a dissertation proposal, including research questions, objectives, and methodology.
- To equip students with skills in research scheduling, resource management, and adherence to academic and ethical standards.

Learning Outcomes:

At the end of the course, students will be able to:

1. Formulate a clear and feasible dissertation topic with well-defined research questions or hypotheses.
2. Prepare a coherent and well-structured dissertation proposal, including literature review outline and methodological plan.
3. Develop a realistic dissertation work plan, demonstrating awareness of ethical requirements and academic conventions.

Course contents/ syllabus:

This course is designed to guide MA students in French through the process of planning, structuring, and preparing a research dissertation. Emphasis is placed on developing a clear research question, formulating a viable methodology, and critically reviewing literature in the French language and Francophone studies. Students will acquire skills in academic research, analytical thinking, and scholarly writing, while learning how to effectively manage their dissertation timeline. Through workshops, consultations, and structured assignments, students will identify their research topic, define objectives, conduct preliminary literature reviews, and produce a **detailed dissertation plan**. By the end of the course, students will be ready to commence the full dissertation with a coherent structure, methodology, and theoretical framework.

Evaluation as per University norms and pattern.

RBC-03

Course title : Dissertation
Course code : FRN-DST-P2- 806
Course duration : 75 hours in one semester/ 5 hours per week
Credits : 8

Course Objectives:

- To enable students to conduct independent and original research in French or Francophone studies by applying appropriate research methodologies and theoretical frameworks.
- To develop advanced skills in critical analysis, scholarly argumentation, and academic writing in French.
- To guide students through the complete dissertation process, from refining research questions to final submission and oral defense, while upholding standards of academic rigor and ethics.

Learning Outcomes:

At the end of the course,

1. Students will be able to design and carry out an original research project in French or Francophone studies, demonstrating effective use of research methods and relevant theoretical perspectives.
2. Students will be able to produce a well-structured dissertation in French that presents coherent, critically informed arguments supported by in-depth textual or contextual analysis.
3. Students will be able to refine research questions, synthesize scholarly literature, present research findings clearly, and successfully defend their dissertation before an academic panel.

Course contents/ syllabus:

This course provides students with the opportunity to undertake independent, original research in French or Francophone studies. Building on prior coursework in research methodology, literary theory, and critical analysis, students will conceive, execute, and complete a full dissertation under the guidance of a faculty supervisor. The course emphasizes scholarly rigor, critical thinking, and academic writing in French, guiding students through the entire process of dissertation completion: refining research questions, conducting in-depth analysis, integrating theoretical frameworks, and presenting coherent arguments. The course culminates in the submission and defense of the dissertation.

Evaluation as per University norms and pattern.

NOTES: Single Major, Single/Double Minor BA, BA Honours and BA Honours with Research

1. In the first semester students will be offered three different subjects A, B & C.
2. At the end of second semester each student may choose any one of the two streams namely Single Major or Multi-Disciplinary. The student choosing Single Major stream is required to give his/ her Major and Minor at end of the second semester.
3. The student opting for Single Major must secure 50% Credits of the total credits in the Major subject and obtain 24 credits from the Minor subject(s). To qualify for Minor in a particular subject, the student must attain at least 12 credits in that subject(s).
4. A student who secures 75% or more marks in aggregate till semester 6 (up to 3-year degree) shall be eligible for 4 YEAR DEGREE B.A. HONOURS with research on the condition that the Institution is either a PU approved Research Centre or already offering master programme in the subject.
5. Once Major and Minor papers are chosen in 3rd Semester, the same will continue as Major and Minor subject in the sub sequent semesters.
6. 'RM' represents Research Methodology
7. The candidate opting for Honours in research is required to study two papers of Research Methodology (RM) of 04 credits each and write a Dissertation of 08 credits in the Major subject.
8. The Dissertation (P2) opted by the candidates pursuing B.A.(Hons.) with Research: The dissertation submitted to the Department/College/Institution, before a pre-fixed date announced by the Department/College/Institution, shall be evaluated by two subject experts. The supervisor shall be one of these two experts. The second expert for an affiliated College/Institution shall be an external examiner either from university campus or from another affiliated college/institution of Panjab University, Chandigarh. The external expert appointed from an affiliated College/Institution shall also be an approved Ph.D. supervisor of Panjab University, Chandigarh. However, for a department on campus offering these programs, the external expert shall be appointed from an institution beyond the administrative jurisdiction of Panjab University, Chandigarh (i.e., expert from another university or research institute not affiliated with the Panjab University).

The open viva-voce shall be conducted by the external expert in the mandatory presence of the supervisor. Marks out of 200 shall be awarded by the external expert only. The bifurcation of 200 marks shall be as follows:

- i. Marks out of 150 shall be awarded for the quality of dissertation work;
and
- ii. Marks out of 50 shall be awarded on the basis of candidate's performance in viva-voce. Hence, the dissertation Course in 4th semester shall carry 8 credits (200 marks) and the grade in this Course shall be decided on the basis of the percentage marks obtained out of 200. Passing marks for a dissertation paper shall be 40% (i.e., 80 out of 200) with a grade letter 'P'.
- iii. It is not necessary to score passing marks/grade separately, but a sum of marks obtained from dissertation evaluation (marks out of 150) and viva-voce examination (marks out of 50) shall be considered to fulfill passing grade criterion.

NOTES (Multidisciplinary/Inter-disciplinary BA, BA Honours and BA Honours with Research)

1. Subject A shall be the subject in which the candidate shall pursue Honours degree (if opted)
2. The Institution shall ask the student to opt for Hons. Subject well advance before the end of semester IV.
3. In the first semester students will be offered three different subjects A, B & C.
4. At the end of second semester each student may choose any one of the two streams namely Single Major or Multi-Disciplinary. The student choosing Single Major stream is required to give his/her Major and Minor at end of the second semester.
5. A student who secures 75% or more marks in aggregate till semester 6 (up to 3-year degree) shall be eligible for 4 YEAR DEGREE B.A. HONOURS with research, on the condition that the Institution is a PU approved Research Centre/offering MA courses in that subject.
6. Language paper chosen as MIL-1 and MIL-2 should be in the same subject.
7. Once Major and Minor papers are chosen in 3rd semester, the same will continue as Major and Minor subject in the subsequent semesters.
8. The candidate opting for Honours in research is required to study two papers of Research Methodology (RM) of 04 credits each and write a Dissertation of 08 credits in the Major subject.
9. The first major paper in any semester shall be offered as minor paper to other discipline/courses.
10. The RM MAJ Subject represents research methodology paper of Subject-A
11. The Dissertation (P1) opted by the candidates pursuing B.A.(Hons.) with Research: A synopsis of at most 3000 words shall be prepared by the candidate and a presentation before faculty members of department shall be arranged immediately after the end of odd semester examination to evaluate the performance of candidates. Marks out of 100 shall be awarded to assess candidate's performance.

NOTES: Single Major, Single/Double Minor BA, BA Honours and BA Honours with Research

1. In the first semester student will be offered three different subjects A, B & C.
2. At the end of second semester each student may choose any one of the two streams namely Single Major or Multi-Disciplinary. The student choosing Single Major stream is required to give his/her Major and Minor at end of the second semester.
3. The student opting for Single Major must secure 50% credits of the total credits in the Major subject and obtain 24 credits from the Minor subject(s). To qualify for Minor in a particular subject, the student must attain at least 12 credits in that subject(s).
4. A student who secures 75% or more marks in aggregate till semester 6 (up to 3-year degree) shall be eligible for 4 YEAR DEGREE B.A. HONOURS with research on the condition that the Institution is either a PU approved Research Centre or already offering master programme in the subject.
5. Once Major and Minor papers are chosen in 3rd semester, the same will continue as Major and Minor subject in the subsequent semesters.
6. 'RM' represents Research Methodology
7. The candidate opting for Honours in research is required to study two papers of Research Methodology (RM) of 04 credits each and write a Dissertation of 08 credits in the Major subject.
8. **The Dissertation (P2) opted by the candidates pursuing B.A.(Hons.) with Research:** The dissertation submitted to the Department/College/Institution, before a pre-fixed date announced by the Department/College/Institution, shall be evaluated by two subject experts. The supervisor shall be one of these two experts. The second expert for an affiliated College/Institution shall be an external examiner either from university campus or from another affiliated college/institution of Panjab University, Chandigarh. The external expert appointed from an affiliated College/Institution shall also be an approved Ph.D. supervisor of Panjab University, Chandigarh. However, for a department on campus offering these programmes, the external expert shall be appointed from an institution beyond the administrative jurisdiction of Panjab University, Chandigarh (i.e., expert from another university or research institute not affiliated with the Panjab University).

The open viva-voce shall be conducted by the external expert in the mandatory presence of the supervisor. Marks out of 200 shall be awarded by the external expert only. The bifurcation of 200 marks shall be as follows:

- i. Marks out of 150 shall be awarded for the quality of dissertation work; and
- ii. Marks out of 50 shall be awarded on the basis of candidate's performance in viva-voce.

Hence, the dissertation Course in 4th semester shall carry 8 credits (200 marks) and the grade in this Course shall be decided on the basis of the percentage marks obtained out of 200. Passing marks for a dissertation paper shall be 40% (i.e., 80 out of 200) with a grade letter 'P'.

- iii. It is not necessary to score passing marks/grade separately but a sum of marks obtained from dissertation evaluation (marks out of 150) and viva-voce examination (marks out of 50) shall be considered to fulfil passing grade criterion.

NOTES (Multidisciplinary/Inter-disciplinary BA, BA Honours and BA Honours with Research)

1. Subject A shall be the subject in which the candidate shall pursue Honours degree (if opted)

2. The Institution shall ask the student to opt for Hons. Subject well advance before the end of Semester IV.
3. In the first semester student will be offered three different subjects A, B & C.
4. At the end of second semester each student may choose any one of the two streams namely Single Major or Multi-Disciplinary. The student choosing Single Major stream is required to give his/her Major and Minor at end of the second semester.
5. A student who secures 75% or more marks in aggregate till semester 6 (up to 3-year degree) shall be eligible for 4 YEAR DEGREE B.A. HONOURS with research, on the condition that the Institution is a PU approved Research Centre/offering MA courses in that subject.
6. Language paper chosen as MIL-1 and MIL-2 should be in the same subject.
7. Once Major and Minor papers are chosen in 3rd semester, the same will continue as Major and Minor subject in the subsequent semesters.
8. The candidate opting for Honours in research is required to study two papers of Research Methodology (RM) of 04 credits each and write a Dissertation of 08 credits in the Major subject.
9. The first major paper in any semester shall be offered as minor paper to other discipline/courses.
10. The RM MAJ Subject represents research methodology paper of Subject-A
11. **The Dissertation (P1) opted by the candidates pursuing B.A.(Hons.) with Research:** A synopsis of at most 3000 words shall be prepared by the candidate and a presentation before faculty members of department shall be arranged immediately after the end of odd semester examination to evaluate the performance of candidate. Marks out of 100 shall be awarded to assess candidate's performance.
12. **The Dissertation (P2) opted by the candidates pursuing B.A.(Hons.) with Research:** The dissertation submitted to the Department/College/Institution, before a pre-fixed date announced by the Department/College/Institution, shall be evaluated by two subject experts. The supervisor shall be one of these two experts. The second expert for an affiliated College/Institution shall be an external examiner either from university campus or from another affiliated college/institution of Panjab University, Chandigarh. COURSE TITLE:GEOMORPHOLOGY (Theory & Practical)

Course Code: **GEOG-DSC-20 (MAJ-7)-702**

Level of Course: **L-400**

Total Credits: **4 (Theory 2+ Tutorial 1+ Practical 1)**

Maximum Marks: **100 (60 Theory + 10 Internal Assessment+ 30 Practical)**

Course Duration: **Total= 75 hours (Lectures- 30 Hours; Tutorial- 15 Hours; Practical-30 Hours)**

Evaluation: Maximum Marks: **100 (60 Theory + 30 Practical+ 10 Internal Assessment)**

- ❖ Terminal Examination: 60 Marks
- ❖ Internal Assessment: 10 Marks
- ❖ Practical Examination: 30 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES:At the end of the course, the students will be able to:

- ❖ Describe concepts, theories and models of geomorphological knowledge
- ❖ Explain the interactions between geomorphic processes and landform evolution
- ❖ Comprehend the interactions between endogenic and exogenic processes
- ❖ Identify and interpret landforms

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10x2= 20 marks).
2. A total of eight questions will be set out of the whole syllabus at least *two* from each unit. The candidates will attempt *four* questions selecting one from each unit and each question will carry 10 marks (Total 4x10= 40 marks). These will be in addition to the compulsory question at S. No. 1.
3. Special credit will be given to suitable use of maps and diagrams. Use of unmarked map stencils and colour pens/pencils are allowed.
4. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
5. For CDOE, reappear/ improvement candidates(s) who have not been assessed earlier for Internal Assessment, the marks secured in theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. Paper setter must put note (5) in the question paper.

INSTRUCTIONS FOR PRACTICAL EXAMINATIONS:

1. Each student shall prepare a practical file. They will be required to complete their practical file and get it signed from the class teacher at least 10 days before the commencement of the examination.
2. The practical examination in the form of viva-voce only shall be conducted at the respective college itself except for CDOE. There will be no laboratory exercise at that time of examination.
3. Practical examination at the respective colleges shall be conducted by one internal and one external examiner. The external examiner shall be appointed by the principal of the respective colleges in consultation with the senior most teacher of Geography in the college.

4. For students of CDOE, there will be no viva-voce examination for the candidates. They will be required to submit their Practical Note Book (Practical files) with the Centre for Distance and Online Education (CDOE), Panjab University (Department of Geography) at least 10 days before the commencement of their examination. Their Practical files will be evaluated by two examiners (including at least one from the CDOE).
5. Those students who fail in the practical examination are required to prepare a fresh practical file. However, students who failed in theory paper only or are appearing in improvement examination, their practical marks of previous practical examination will be carried forward.
6. For practical classes, the number of students in one group shall not exceed fifteen.
7. There will be 2 hours of teaching per week for this paper.

COURSE CONTENT

Unit-I

- i. Nature, scope and approaches of Geomorphology.
- ii. Concepts of time, scale, and threshold in landform studies.
- iii. Earth's Interior and Isostasy (Airy and Pratt).

Unit-II

- iv. Fundamental Principles: Uniformitarianism, Geomorphic Cycles (Davis's and Penck's models), and Geomorphic Systems (equilibrium, process-response).
- v. Geomagnetism: Characteristics, importance and applications of geomagnetism.
- vi. Denudation chronology: Channel morphology, erosion surfaces, and slope development.

Unit-III

- vii. Applied geomorphology: Understanding landslides, floods, coastal erosion, and desertification.
- viii. Geomorphology in soil conservation, cryosphere dynamics, and mineral exploration.
- ix. Terrain analysis for infrastructure planning (dams, roads) and environmental impact assessment.

Unit-IV

- x. Field Methods: Basic surveying and terrain data collection.
- xi. Geospatial Techniques: Application of GIS (Geographic Information Systems), Remote Sensing (RS), and GPS in mapping, monitoring, and modeling landform changes.
- xii. Use of Geospatial AI (ML and DL) in geomorphology.

COURSE CONTENT: Practical Exercises/Lab-Work

1. Construction and interpretation of Isometric Block Diagram of landforms
2. Mapping bedding plane, dip, strike, folds, faults and associated features
3. Using maps, satellite data, google earth for landform identification and demarcation
4. Study of fluvial landforms and processes using satellite imageries and field work
5. Measuring aspects of drainage basin and stream morphometry
6. Case Study: Mapping topographic and geomorphic attributes

- ❖ Internal Assessment: 10 Marks
- ❖ Practical Examination: 30 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES: At the end of the course, the students will be able to:

- ❖ Trace and contextualize the evolution of cartography from the ancient times to the present
- ❖ Deconstruct and classify theoretical principles of cartography
- ❖ Develop skills for map designs using cartographic principles
- ❖ Apply cartographic knowledge for representation and interpretation of information.

COURSE CONTENT

Unit I

- i. Cartography: Nature, scope and historical evolution
- ii. Computer Assisted Cartography

Unit II

- iii. Types of Data and Data Sources
- iv. Elements of Map Reading: Interpreting Physical and Cultural Features

Unit -III

- v. Elementary conventional methods: Contours, Spot heights, Hachures, Hill shading
- vi. Profiles: Transverse and Longitudinal

Unit -IV

- vii. Representation of Population data and Agricultural data
- viii. Representation of Climatic data: Temperature and Rainfall

COURSE CONTENT: Practical Exercises/ Lab Work

1. Methods of landform analysis: Contours, Spot heights, Hachures, Hill shading
2. Profiles and cross sections: Transverse and Longitudinal
3. Methods of slope analysis and interpretation (Wentworth and Robinson)
4. Mapping geographical data: Choropleth and Dot Method
5. Constructing statistical diagrams: Bar Graphs, Line Graphs, Pie Charts

COURSE TITLE: POPULATION GEOGRAPHY (Only for B.A. Honours)

Course Code: **GEOG-DSC-22 (MAJ-7)-704**

Level of Course: **L-400**

Total Credits: **4 (Theory 3+ Tutorial 1)**

Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

Course Duration: **Total= 60 hours (Lectures- 45 Hours; Tutorial- 15 Hours)**

Evaluation: Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

- ❖ Terminal Examination: 90 Marks
- ❖ Internal Assessment: 10 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES:At the end of the semester, students will be able to:

- ❖ Examine geographical approach to the study of population.
- ❖ Distinguish the concept and measurement of select population attributes
- ❖ Analyse the spatial patterns of population attributes.
- ❖ Evaluate population resource relationship.

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. A compulsory question containing 12 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 9 parts in about 25-30 words each. Each part shall carry 2 marks (Total 9x2= 18 marks).
2. A total of eight questions will be set out of the whole syllabus at least *two* from each unit. The candidates will attempt *four* questions selecting one from each unit and each question will carry 18 marks (Total 4x18= 72 marks). These will be in addition to the compulsory question at S. No. 1.
3. Special credit will be given to suitable use of maps and diagrams. Use of unmarked map stencils and colour pens/pencils are allowed.
4. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.

COURSE CONTENT

Unit -I

- i. Nature, scope and approaches to population geography; population geography in India.
- ii. Sources, quality and reliability of population data: census; surveys (national sample survey, national family health survey etc.); registration (national population register, vital statistics registration) miscellaneous sources.

Unit -II

- iii. Global Demographic Scenario
- iv. Concepts, determinants and world patterns of following attributes of population:
 - Distribution, Density, and Growth
 - Fertility, Mortality and Migration (including laws of Migration)
 - Age and Sex Composition

Unit -III

- v. Linkages between Population Growth and Economic Development.
- vi. Population Growth and Resource Scarcity (supply induced, demand induced; and structural scarcity) and Food Security

Unit -IV

- vii. Population problems and policies of developed and less developed countries
- viii. Population problems and policies of Canada and India.

COURSE TITLE:RESEARCH METHODOLOGY IN GEOGRAPHY

(Only for B.A. Honours with Research)

Course Code: **GEOG-RM-22 (MAJ-7)-704**

Level of Course: **L-400**

Total Credits: **4 (Theory 2+ Tutorial 1+ Practical 1)**

Maximum Marks: **100 (60 Theory + 10 Internal Assessment+ 30 Practical)**

Course Duration: **Total= 75 hours (Lectures- 30 Hours; Tutorial- 15 Hours; Practical-30 Hours)**

Evaluation: Maximum Marks: **100 (60 Theory + 30 Practical+ 10 Internal Assessment)**

- ❖ Terminal Examination: 60 Marks
- ❖ Internal Assessment: 10 Marks
- ❖ Practical Examination: 30 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES:At the end of the semester, students will be able to:

- ❖ Understand the principles of research and research process
- ❖ Develop knowledge on methods and techniques in conducting research
- ❖ Design a research proposal to address a specified problem
- ❖ Generate primary data for research using various tools and techniques
- ❖ Develop insights for writing styles, techniques and research ethics

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

7. There will be 2 hours of teaching per week for this paper.

COURSE CONTENT

Unit-1

- i. Basic Concepts in Research:
 - Meaning and objectives of research
 - Research types and approaches
 - Geographic perspective in research

Unit-II

- ii. Initiating and Conceptualising Research:
 - Research process; Conceptual and Theoretical Framework
 - Research problem: Selection and techniques
 - Research design: Meaning, need and features of a good design

Unit-III

- iii. Data Collection Tools and Methods:
 - Types and sources of data
 - Generation of primary data: Fieldwork, observation and survey
 - Consideration of ethical issues in data collection

Unit-IV

- iv. Data Analysis and Report writing
 - Use of statistics in research
 - Elements of report writing
 - Referencing and bibliography

COURSECONTENT: List of Exercises

1. Writing literature review and identifying research gaps on selected theme
2. Research design on selected theme
3. Preparation of questionnaire
4. Preparation of interview schedules
5. Using measurement tools: Developing scaling techniques and cumulative index
6. Reference Styles: Preparation of references and bibliography
7. Performing similarity checks and plagiarism

COURSE TITLE: CULTURAL GEOGRAPHY (only for B.A. Honours)

Course Code: **GEOG-DSC-23 (MAJ-7)-705**

Level of Course: **L-400**

Total Credits: **4 (Theory 3+ Tutorial 1)**

Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

Course Duration: **Total= 60 hours (Lectures- 45 Hours; Tutorial- 15 Hours)**

Evaluation: Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

- ❖ Terminal Examination: 90 Marks
- ❖ Internal Assessment: 10 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES: At the end of the course, the students will be able to:

- ❖ Explain the concepts, processes and manifestations associated with Cultural Geography.
- ❖ Delineate the processes that have resulted in the production of a particular landscape.
- ❖ Critique the role of power in the construction of cultural landscapes.
- ❖ Develop a sensitivity towards cultural pluralism and social diversity.

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. A compulsory question containing 12 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 9 parts in about 25-30 words each. Each part shall carry 2 marks (Total 9x2= 18 marks).
2. A total of eight questions will be set out of the whole syllabus at least *two* from each unit. The candidates will attempt *four* questions selecting one from each unit and each question will carry 18 marks (Total 4x18= 72 marks). These will be in addition to the compulsory question at S. 3. Special credit will be given to suitable use of maps and diagrams. Use of unmarked map stencils and colour pens/pencils are allowed.
4. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
5. For CDOE, reappear/improvement candidates(s), who have not been assessed earlier for internal assessment, the marks secured in theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. The paper setter must put note (5) in the question paper.

COURSE CONTENT

Unit-I

- i. Cultural Geography: Definition, Evolution and Development
- ii. Place of Cultural Geography within Geography
- iii. Doing Cultural Geography: Philosophical Bases and Methodologies

Unit-II

- iv. Cultural Hearth, Cultural Region, Landscape, Environment
- v. Nature/Human; Space/Place; Regionalism, Homeland
- vi. Identity & Difference; Power & Discourse; Hegemony

Unit-III

- vii. Landscape Evolution; Cultural Diffusion; Adaptation
- viii. Acculturation, Assimilation; Resistance
- ix. Representation; Construction; Socio-spatial Dialectic

Unit-IV

- x. Transforming Landscapes
- xi. Our Unequal World
- xii. The Production of Knowledge and Representation in Cultural Geography

COURSE TITLE: DISSERTATION (Only for B.A. Honours with Research)

Course Code: **GEOG-DST-23 (MAJ-7)-705**

Level of Course: **L-400**

Total Credits: **4**

Maximum Marks: **100 (60Dissertation + 10 Internal Assessment+ 30 Viva Voce)**

Course Duration: **Total= 75 hours**

COURSE OUTCOMES: At the end of the course, the students will be able to:

- ❖ Use research methods (qualitative and quantitative) to collect data and information
- ❖ Incorporate field work as one of the methodologies in geographic research
- ❖ Design and execute field-work, post-field work-based analysis and interpretation
- ❖ Synthesize research problem and propose effective solutions.

INSTRUCTIONS:

1. At the beginning of the semester, each student shall be *assigned a supervisor* to guide and monitor the dissertation.
2. The students shall *submit a topic for dissertation within 10 working days* of the commencement of the semester after consultation and discussion with their respective supervisor.
3. The *allocation of supervisors and approval of the dissertation topic* shall be done by the Board of Control (BoC) after due deliberations. The dissertation topics shall be approved by the BoC within one week after the submission of the topics by the students.
4. The candidates are required to *submit the dissertation (3 hard copies and a soft copy-pdf)* one week before the commencement of end semester examination. The final viva voce shall be conducted during the end semester practical examinations.
5. Assessment of dissertation and *viva voce on it will be done by a Board of Examiners*, consisting of two experts: one external examiner and an internal examiner (supervisor). The supervisor shall be one of these two experts. The second expert for an affiliated College/Institution shall be an external examiner either from university campus or from another affiliated college/institution of Panjab University, Chandigarh. The external expert appointed by an affiliated College/Institution shall also be an approved Ph.D. supervisor of Panjab University, Chandigarh. However, for a department on campus offering these programmes, the external expert shall be appointed from an institution beyond the administrative jurisdiction of Panjab University, Chandigarh (i.e., expert from another university or research institute not affiliated with the Panjab University).
6. *Improvement/repeat cases* must prepare either an improved form of their earlier dissertation or prepare a new one. They must get it approved and signed from the teacher/supervisor assigned/faculty member teaching the course at their parent department.

COURSE CONTENT: Since nature of this paper is purely applied, therefore syllabus need not to be organized into units. The students must produce a dissertation on a theme that involves use of mixed research methods and field-work based investigation for data collection and analysis.

The dissertation on the assigned/chosen research problem/theme shall include the following:

- Introduction: Conceptual and theoretical framework
- Statement of problem, scope and scale of research investigation

- Literature review on the selected theme
- Research questions and objectives.
- Sources of data and research methodology
- Preparation of a questionnaire; sampling techniques, data collection tools and procedure
- Processing and analysis of collected data.
- Analysis and Discussion: Representation and interpretation of data/information.
- Conclusions
- References and Bibliography

Semester-VIII

COURSE TITLE: GEOGRAPHY OF INDIA

Course Code: **GEOG-DSC-24 (MAJ-8/MIN-8)-801**

Level of Course: **L-400**

Total Credits: **4 (Theory 3+ Tutorial 1)**

Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

Course Duration: **Total= 60 hours (Lectures- 45 Hours; Tutorial- 15 Hours)**

Evaluation: Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

- ❖ Terminal Examination: 90 Marks
- ❖ Internal Assessment: 10 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES: At the end of the course, the students will be able to:

- ❖ Appreciate the physiographic, social and economic diversities in India
- ❖ Apply regionalisation techniques in delineating India's physical and socio-cultural regions.
- ❖ Develop the idea of national unity by synthesising various regional dimensions.

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. A compulsory question containing 12 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 9 parts in about 25-30 words each. Each part shall carry 2 marks (Total 9x2= 18 marks).
2. A total of eight questions will be set out of the whole syllabus at least *two* from each unit. The candidates will attempt *four* questions selecting one from each unit and each question will carry 18 marks (Total 4x18= 72 marks). These will be in addition to the compulsory question at S. No. 1.
3. Special credit will be given to suitable use of maps and diagrams. Use of unmarked map stencils and colour pens/pencils are allowed.
4. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
5. For CDOE, reappear/improvement candidates(s), who have not been assessed earlier for internal assessment, the marks secured in theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. The paper setter must put note (5) in the question paper.

COURSE CONTENT

Unit-I

- i. Unity in diversity of India: Unifying mechanism and divisive streaks.
- ii. Evolution of the administrative map of India since Independence.

Unit-II

- iii. Role of language, religion and culture in the formation of regions.
- iv. The question of regional disparity and identity in India.

Unit-III

- v. Regionalisation schemes of India: Physiographic (SP Chatterjee), Climatic (Koeppen and Trewartha), Agricultural (Jasbir Singh and CB. Mamoria), and Industrial (BN Sinha).

Unit-IV

- vi. Northwest India as a Geographic Entity: Jammu & Kashmir, Ladakh, Himachal Pradesh, Haryana, Punjab and Union Territories of Delhi and Chandigarh.
- vii. Land: Physiography and drainage.
- viii. People: Population number, distribution and density, growth and urbanization.
- ix. Economy: Agriculture, Industry and Transport.

COURSE TITLE:CLIMATOLOGY (Theory & Practical)

Course Code: **GEOG-DSC-25 (MAJ-8)-802**

Level of Course: **L-400**

Total Credits: **4 (Theory 2+ Tutorial 1+ Practical 1)**

Maximum Marks: **100 (60 Theory + 10 Internal Assessment+ 30 Practical)**

Course Duration: **Total= 75 hours (Lectures- 30 Hours; Tutorial- 15 Hours; Practical-30 Hours)**

Evaluation: Maximum Marks: **100 (60 Theory + 30 Practical+ 10 Internal Assessment)**

- ❖ Terminal Examination: 60 Marks
- ❖ Internal Assessment: 10 Marks
- ❖ Practical Examination: 30 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES:At the end of the semester, the students will be able to:

- ❖ Comprehend atmospheric phenomena and dynamics.
- ❖ Evaluate the interactions between atmospheric processes and weather phenomena
- ❖ Synthesize climate and weather dynamics
- ❖ Analyse and Measure Weather Patterns, Trends, and Extremes
- ❖ Interpret and Forecast Using Weather Reports and Doppler Radar Imageries

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10x2= 20 marks).
2. A total of eight questions will be set out of the whole syllabus at least *two* from each unit. The candidates will attempt *four* questions selecting one from each unit and each question will carry 10 marks (Total 4x10= 40 marks). These will be in addition to the compulsory question at S. No. 1.
3. Special credit will be given to suitable use of maps and diagrams. Use of unmarked map stencils and colour pens/pencils are allowed.
4. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
5. For CDOE, reappear/ improvement candidates(s) who have not been assessed earlier for Internal Assessment, the marks secured in theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. Paper setter must put note (5) in the question paper.

INSTRUCTIONS FOR PRACTICAL EXAMINATIONS:

1. Each student shall prepare a practical file. They will be required to complete their practical file and get it signed from the class teacher at least 10 days before the commencement of their examination.
2. The practical examination in the form of viva-voce only shall be conducted at the respective college itself except for CDOE. There will be no laboratory exercise at that time of examination.
3. Practical examination at the respective colleges shall be conducted by one internal and one external examiner. The external examiner shall be appointed by the principal of the respective colleges in consultation with the senior most teacher of Geography in the college.
4. For students of CDOE, there will be no viva-voce examination for the candidates. They will be required to submit their Practical Note Book (Practical files) with the Centre for Distance and Online Education (CDOE), Panjab University (Department of Geography) at least 10 days before the commencement of their examination. Their Practical files will be evaluated by two examiners (including at least one from the CDOE).
5. Those students who fail in the practical examination are required to prepare a fresh practical file. However, students who failed in theory paper only or are appearing in improvement examination, their practical marks of previous practical examination will be carried forward.
6. For practical classes, the number of students in one group shall not exceed fifteen.
7. There will be 2 hours of teaching per week for this paper.

COURSE CONTENT

Unit -I

- i. The Earth's Atmosphere: Nature, Composition and Structure.
- ii. Solar Radiation: EMR, Electromagnetic Spectrum, Radiation Laws
- iii. Factors influencing Insolation, Mechanisms of Heat Transfer; Global Distribution; Heat Budget

Unit -II

- i. Temperature: Concept, Measurement, Scales; Vertical and Horizontal Distribution.
- ii. Atmospheric Humidity: Sources, Measurement, and Influencing factors
- iii. Precipitation: Measurements, Forms, and Global Distribution.

Unit-III

- i. Atmospheric Pressure: Influencing Factors, Global Pressure belts and circulation
- ii. Jet Streams and Polar Vortex: Formation, Characteristics and Impacts on weather
- iii. Tropical and Mid-Latitude Cyclones: Formation, Growth Mechanisms and Effects

Unit-IV

- iv. Indian Monsoon: Concept, Features, Types, and Mechanism
- v. Drivers of Indian Monsoon; MJO, ENSO and IOD Linkages
- vi. Western Disturbances in India: Origin, Features and Impacts

COURSE CONTENT: Practical Exercises/Lab Work

1. Representation of Temperature and Rainfall Data: Line & Bar Graph, Hyetograph
2. **Climograph and Hythergraph: Construction and Interpretation**
3. **Drawing Isohyets and Isotherms: Interpolation Techniques**
4. **Statistical Analysis of Climate Data: Trend and Variability**
5. **Measurement of Climate Extreme Indices: Temperature and Precipitation**
6. **Reading digital weather maps/apps/Doppler Radar Imagery**

- ❖ Terminal Examination: 60 Marks
- ❖ Internal Assessment: 10 Marks
- ❖ Practical Examination: 30 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES: At the end of the course, the students will be able to:

- ❖ Recount the principles of remote sensing and its applications
- ❖ Analyse and interpret information from remotely sensed data
- ❖ Synthesize remotely sensed information for its applications/uses
- ❖ Comprehend satellite data analysis through focused hands-on-training.
- ❖ Perform technical procedures of data analysis and extraction

COURSE CONTENT

Unit-I

- i. Remote Sensing: Concept, Types and Applications
- ii. Remote Sensing Platforms, Sensors and Scanning Systems
- iii. Introduction to Major Remote Sensing Satellites

Unit-II

- iv. Radiation Principles; Electromagnetic Spectrum
- v. Energy-Atmosphere Interaction; Atmospheric Windows
- vi. Energy-Earth Interaction; Spectral Signatures of Surface Features

Unit-III

- vii. Image: Meaning and Types and Characteristics
- viii. Resolution: Spatial, Spectral, Radiometric and Temporal
- ix. Basics of Image Processing; Elements of Image Interpretation.

Unit-IV

- x. Thermal Remote Sensing: Concept, Mechanism and Application
- xi. Microwave Remote Sensing: Concept, Mechanism and Application
- xii. Hyperspectral Remote Sensing: Concept, Mechanism and Application

COURSE CONTENT: List of Practical/Lab Exercises:

1. Measuring Satellite Orbital Characteristics
2. EMR: Wavelength, Frequency and Energy Characteristics
3. Spectral Signature of Surface Features
4. Visual Interpretation of Satellite Imageries
5. Image Processing: Polynomial Rectification-Georeferencing
6. Preparing Image Subset and Mosaic
7. Digital Image Interpretation; Pixel and Histogram Analysis
8. Supervised Classification and Accuracy Assessment
9. Unsupervised Classification and Accuracy Assessment
10. Satellite Data based Indices: NDVI, NDMI, EVI, NDWI, NDBI, VCI, TCI.

COURSE TITLE: AGRICULTURE GEOGRAPHY

Course Code: **GEOG-DSC-27 (MAJ-8)-804**

Level of Course: **L-400**

Total Credits: **4 (Theory 3+ Tutorial 1)**

Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

Course Duration: **Total= 60 hours (Lectures- 45 Hours; Tutorial- 15 Hours)**

Evaluation: Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

- ❖ Terminal Examination: 90 Marks
- ❖ Internal Assessment: 10 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES: At the end of the course, students will be able to:

- ❖ Comprehend and analyse basic concepts of agricultural geography.
- ❖ Critique the principles of agricultural, land use and land capability classifications.
- ❖ Regionalize and classify agricultural patterns in real time.
- ❖ Apply the knowledge gained to decode regional and national agriculture scenario.

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. A compulsory question containing 12 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 9 parts in about 25-30 words each. Each part shall carry 2 marks (Total 9x2= 18 marks).

5. For CDOE, reappear/improvement candidates(s), who have not been assessed earlier for internal assessment, the marks secured in theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. The paper setter must put note (5) in the question paper.

COURSE CONTENT

Unit-I

- i. The nature, subject matter and progress in Agricultural Geography
- ii. Approaches:(a) commodity, (b) systematic, (c) regional
- iii. Determinants:(a) physical, (b) economic, (c) socio-cultural

Unit-II

- iv. Selected agricultural concepts and their measurement
 - a. Intensity of cropping
 - b. Degree of commercialization
 - c. Diversification and specialization
 - d. Efficiency and productivity.

Unit-III

- v. Land-use survey and classification (British and Indian)
- vi. Land capability classification (U.S. and Britain)

Unit-IV

- vii. Critical evaluation: Classification of the World Agriculture w.r.t. to Whittlesey
- viii. New perspectives: Contract Farming, Agri-business and Food Security

Evaluation: Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

- ❖ Terminal Examination: 90 Marks
- ❖ Internal Assessment: 10 Marks
- ❖ Examination Time: 3 Hours

COURSE OUTCOMES: At the end of the course, the students will be able to:

- ❖ Appreciate the role of Geography in area administration
- ❖ Apply techniques for analysing the structural attributes of administrative areas
- ❖ Analyse administrative hierarchy, size, shape and location of headquarters
- ❖ Develop insights to various public policies in area administration

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. A compulsory question containing 12 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 9 parts in about 25-30 words each. Each part shall carry 2 marks (Total $9 \times 2 = 18$ marks).

COURSE CONTENT

Unit-I

- i. Administrative Geography; Definition, subject matter and significance: Interface between Geography and Public Administration and Political Geography.

Unit-II

- ii. Study of administrative areas in terms of (a) Evolution, (b) Nature, (c) Structural Attributes (hierarchy, size, shape and headquarters) and (d) Administrative area reform.

Unit-III

- iii. Area Administration: (a) Public Policy: Formulation, Implementation and Impact, (b) Public Finance: Public goods and public economy.

Unit-IV

- iv. Administrative System: (a) The world pattern, (b) Case studies: India and U.S.A.

COURSE TITLE: DISSERTATION (Only for B.A. Honours with Research)

Course Code: **GEOG-DST-27 (MAJ 8)-804**

Level of Course: **L-400**

Total Credits: **4**

Maximum Marks: **200 (150 Dissertation + 50 Viva Voce)**

Course Duration: **Total= 75 hours**

COURSE OUTCOMES: At the end of the course, the students will be able to:

- ❖ Use research methods (qualitative and quantitative) to collect data and information
- ❖ Incorporate field work as one of the methodologies in geographic research
- ❖ Design and execute field-work, post-field work-based analysis and interpretation
- ❖ Synthesize research problem and propose effective solutions.

INSTRUCTIONS:

1. At the beginning of the semester, each student shall be *assigned a supervisor* to guide and monitor the dissertation.
2. The students shall *submit a topic for dissertation within 10 working days* of the commencement of the semester after consultation and discussion with their respective supervisor.
3. The *allocation of supervisors and approval of the dissertation topic* shall be done by the Board of Control (BoC) after due deliberations. The dissertation topics shall be approved by the BoC within one week after the submission of the topics by the students.
4. The candidates are required to *submit the dissertation (3 hard copies and a soft copy-pdf)* one week before the commencement of end semester examination. The final viva voce shall be conducted during the end semester practical examinations.
5. Assessment of dissertation and *viva voce on it will be done by a Board of Examiners*, consisting of two experts: one external examiner and an internal examiner (supervisor). The supervisor shall be one of these two experts. The second expert for an affiliated College/Institution shall be an external examiner either from university campus or from another affiliated college/institution of Panjab University, Chandigarh. The external expert appointed by an affiliated College/Institution shall also be an approved Ph.D. supervisor of Panjab University, Chandigarh. However, for a department on campus offering these programmes, the external expert shall be appointed from an institution beyond the administrative jurisdiction of Panjab University, Chandigarh (i.e., expert from another university or research institute not affiliated with the Panjab University).
6. *Improvement/repeat cases* must prepare either an improved form of their earlier dissertation or prepare a new one. They must get it approved and signed from the teacher/supervisor assigned/faculty member teaching the course at their parent department.

COURSE CONTENT: Since nature of this paper is purely applied, therefore syllabus need not to be organized into units. The students must produce a dissertation on a theme that involves use of mixed research methods and field-work based investigation for data collection and analysis.

The dissertation on the assigned/chosen research problem/theme shall include the following:

- Introduction: Conceptual and theoretical framework
- Statement of problem, scope and scale of research investigation
- Literature review on the selected theme
- Research questions and objectives.
- Sources of data and research methodology
- Preparation of a questionnaire; sampling techniques, data collection tools and procedure
- Processing and analysis of collected data.
- Analysis and Discussion: Representation and interpretation of data/information.
- Conclusions
- References and Bibliography

Notes:-

1. In the first semester student will be offered three different subjects A, B & C.
2. At the end of second semester each student may choose any one of the two streams namely Single Major or Multi-Disciplinary. The student choosing Single Major stream is required to give his/her Major and Minor at end of the second semester.
3. The student opting for Single Major must secure 50 % credits of the total credits in the Major subject and obtain 24 credits from the Minor subject(s). To qualify for Minor in a particular subject, the student must attain atleast 12 credits in that subject(s).
4. A student who secures 75% or more marks in aggregate till semester 6 (upto 3 year degree) shall be eligible for 4 YEAR DEGREE B.A. HONOURS with Research on the condition that the Institution is either a PU approved Research Centre or already offering master programme in the subject.
5. Once Major and Minor papers are chosen in 3rd semester, the same will continue as Major and Minor subject in the subsequent semesters.
6. 'RM' represents Research Methodology.
7. The candidate opting for Honours in Research is required to study two paper of Research Methodology (RM) of 04 credits each and write a Dissertation of 08 credits in the major subject.
8. **The Dissertation (P2) opted by the candidates pursuing B.A. (Hons.) with Research:** The dissertation submitted to the Department/College/Institution, before a pre-fixed date announced by the Department/College/Institution, shall be evaluated by two subject experts. The supervisor shall be one of these two experts. The second expert for an affiliated College/Institution shall be an external examiner either from the University campus or from another affiliated college/institution of PanjabUniversity, Chandigarh. The external expert appointed from an affiliated college/Institution shall also be an approved Ph.D supervisor of Panjab University, Chandigarh. However, for a department on campus offering these programme, the external expert shall be appointed from an institution beyond the administrative jurisdiction of Panjab University, Chandigarh (i.e. expert from another university or research institute not affiliated with the PanjabUniversity).
The open viva-voce shall be conducted by the external expert in the mandatory presence of the supervisor. Marks out of 200 shall be awarded by the external expert only. The bifurcation of 200 marks shall be as follows:
 - (i) Marks out of 150 shall be awarded for the quality of dissertation work; and
 - (ii) Marks out of 50 shall be awarded on the basis of candidate's performance in viva-voce.

Hence, the dissertation course in 4th semester shall carry 8 credits (200 marks) and the grade in this Course shall be decided on the bases of the percentage marks obtained out of 200. Passing Marks for a dissertation paper shall be 40 % (i.e., 80 out of 200) with a grade letter 'P'.

- (iii) It is not necessary to score passing marks/grade separately but a sum of marks obtained from dissertation evaluation (marks out of 150) and viva-voce examination (marks out of 50) shall be considered to fulfill passing grade criterion.

PHYSICAL EDUCATION SEMESTER – VII		
PHYSICAL LITERACY, ACTIVE AGING AND ADVENTURE SPORTS		
Total Marks – 100(Theory Examination)		
Theory Marks (Maximum)	- 80	Internal Assessment (Maximum) -20
Time (Theory Examination)	- 3 Hours	
INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS		
Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A19)	SEMESTER –VII	
Course Objective	- To understand the concept of Physical Literacy. - To apprise the students about the benefits of Active Aging - To inform the students about the Sporting Culture in India - To expose the students to the World of Adventure Sports	
Course Outcome	- The students will learn the concept of Physical Literacy. - The students will learn the benefits of Active Aging - The students will learn about the Sporting Culture in India - The students will learn about the World of Adventure Sports	
Outline Syllabus	PHYSICAL LITERACY, ACTIVE AGING AND ADVENTURE SPORTS	
Credits	4 (Theory: 4)	
Marks	Total Marks-100 (Theory Examination)	
	Theory Marks - 80	Internal Assessment Marks - 20
Contact Hours	Total Contact Hours: 60 (15 Hours Theory = 1 Credit) NOTE: - Four periods per week - One unit contains 60-80 students for theory. - Teachers preparing three teams for University Intercollege competitions, their workload shall be counted by including four periods per week in the teaching workload.	
UNITS	TOPICS	
Unit-1	PHYSICAL LITERACY AND ACTIVE AGING - Meaning and concept of Physical Literacy. - Importance of physical literacy in promoting societal health (children and aged people). - Meaning and concept of Aging and Active Aging. - Benefits of active aging for society - Need to develop modified physical activity program for aged people. - Role of local clubs and public parks in promoting fitness for age people.	
Unit – 2	SPORTS FOR ALL - Concept for Sports for All - Foundation of sporting culture in India. - Sports for All in India; Health, Wellness &the Fit India Movement. - Careers at Sports for Al	

Unit – 3	ADVENTURE SPORTS AND LEADERSHIP DEVELOPMENT • Meaning and definition of Adventure and Adventure Sports. • History, nature and scope of Adventure Sports. • Categories of Adventure Sports: Land based (Trekking and Rock Climbing), Water based (Scuba Diving and Rafting), Air based (Paragliding). • Benefits of Adventure Sports for health and wellbeing. • Personality and Leadership Development through Adventure Sports.
Unit – 4	SAFETY AND EMERGENCY IN ADVENTURE SPORTS • Actual Risk and Perceived Risk. • Risks associated with Adventure Sports. • The Comfort Zone Model: Comfort Zone, Stretch Zone and Panic Zone. • Principle of ‘Challenge by Choice’ and its benefits in Adventure Sports. • Safety gears in Adventure Sports and their benefits. • Emergency Procedure: Basic wilderness first aid concepts and communication protocols (whistle signals, hand signals, light signals, radio signals)

MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A20)	SEMESTER –VII	
Course Objective	1. To have the understanding of test, measurement and evaluation. 2. Students will be able to classify tests, construct knowledge and skill test and administer them. 3. They will also have the knowledge of fitness and motor ability tests, 4. And will also be able to measure sports skills.	
Course Outcome	On completion of the course, the students shall be able to: 1. Analyse basic concepts of test, measurement and evaluation. 2. Understand the various steps of test construction and administration. 3. Evaluate and correlate sports performance through fitness and motor ability tests. 4. Demonstrate and conduct various tests of physical fitness, motor fitness and sports skills.

INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS

Three questions will be set. Question number one will be compulsory of 10 marks with five short types of answers covering the entire syllabus. Two questions are to be attempted selecting one from each unit and each question will carry 15 marks.

MAJOR DISCIPLINE SPECIFIC CORE (MAJ- A23)	SEMESTER – I	
Course Objective	- To know about the historical development of the game. - To learn the skill, tactics and strategies of the game.	
Course Outcome	On completion of the course, the students: - Will have the knowledge of the historical development, rules and regulations and will be able to draw a court/ field of the game. - Will also be able to officiate the matches. - Have the understanding of selecting a team for their institutes.	
Outline Syllabus	THEORY GAME-BASKETBALL OR FOOTBALL	
Credits	4 (Theory: 2, Practical:2)	
Marks	Total Marks –100 (Theory & Practical Examination)	
	Theory Marks (Maximum)-	50
	Theory Examination Marks -	40
	Internal Assessment Marks -	10
Contact Hours	60 Hours (Theory: 30 Hours, Practical: 30 hours) 15 hours theory= 1 Credit, 30 Hours practical = 1 credit) NOTE: four periods per week (2 periods each for Theory and Practical) One unit contains 60-80 students for theory and 30-40 students for Practical. Teachers preparing three teams for University Intercollege competitions, their workload shall be counted by including six periods per week in the teaching workload.	
UNITS	TOPICS	
Unit – 1	HISTORICAL DEVELOPMENT AND OFFICIATING - Historical development of the concerned game in India, Asia and world level - Main tournament organized at national and international levels - Play area dimensions and marking. - Equipment Specifications - Rules of the Game and their interpretation	

Unit – 2	TECHNIQUES (SKILL) AND TACTICS AND STRATEGY • Classification of Skills • Sequential explanation of skills • Various faults in skills, their causes and corrections, types of exercises to develop and consolidate fundamental skills of the game • Individual, group and team tactics • Offensive and defensive tactics • Selection of team (Selection Procedure) • Analysis of Performance in competition
PRACTICAL (SKILL AND PROWESS)	SYLLABUS
BASKETBALL	• Stance and Position • Passing • Dribbling • Shooting • Rebounding and Boxing out
FOOTBALL	• Dribbling • Kicking • Trapping • Throw-in • Passing • Heading

SPORTS BIOMECHANICS		
Total Marks – 100(Theory Examination)		
Theory Marks (Maximum)	- 80	Sessional Marks (Maximum) - 20
Time (Theory Examination)	- 3 Hours	
<u>INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS</u>		
Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A25)	SEMESTER –VIII	
Course Objective	1. To understand the concept of foundation of sports Biomechanics. 2. To apply the principles of Biomechanics on the human movement and sports skills to enhance the performance and reduce the risk of injury. 3. To analysis the sports skill technique/performance qualitatively and quantitatively using the biomechanical instrumentation and measurement.	
Course Outcome	On completion of the course, the students: 1. Will become an efficient sports bio mechanists to work in research laboratories, sports academies, national teams, and faculty in academic institutions. 2. Will be able to work as sports performance analyst with sports teams/sports clubs/research labs as sports performance analyst.	
Outline Syllabus	SPORTS BIOMECHANICS	
Credits	4 (Theory: 4)	
Marks	Total Marks-100 (Theory & Practical Examination)	
	Theory Marks (Maximum)- 80	Internal Assessment Marks- 20
Contact Hours	Total Contract Hours: 60 (15 Hours Theory = 1 Credit) NOTE: • Four periods per week • One unit contains 60-80 students for theory. Teachers preparing three teams for University Intercollege competitions, their workload shall be counted by including four periods per week in the teaching workload.	
UNITS	TOPICS	
Unit-1	FOUNDATION OF SPORTS BIOMECHANICS • Meaning, definition, nature and scope of Biomechanics. • Importance of Biomechanics in Sports. • Role of biomechanics in injury prevention and rehabilitation. • The social and psychological impact of biomechanical interventions on athletes. • Meaning, concept and definitions of Motion. Types of motion: Linear, angular and rotary motion.	

Unit – 2	FORCE AND PROJECTILE • Meaning, concept and definitions of Force. • Types of force and their effect on the body. • Principles of the application of force. • Centripetal and centrifugal forces and their application in the field of sports. • Air and fluid mechanics: flotation and buoyancy, air and water resistance, drag, lift and spin. • Meaning and definition of projectile. Projectile in sports. • Factors affecting the projectile trajectory (e.g. basketball shot, discus throw, javelin throw, baseball throw etc.).
Unit – 3	PRINCIPLES OF MOTION AND STABILITY • Newton’s Laws of Motion and their application in the field of sports. • Gravity and centre of gravity. Base of Support. • Equilibrium: meaning, concept and definitions. Types of equilibrium. Principles of equilibrium. Factors affecting static and dynamic equilibrium. Application of equilibrium in sports. • Friction: Meaning, concept and definition of friction. Types of friction. Laws of friction. Advantages and disadvantages of friction. Methods to increase or decrease friction.
Unit – 4	LEVER, TORQUE AND ANALYSIS OF FUNDAMENTAL MOVEMENTS • Lever: meaning, concept and definitions of lever. • The three classes of Levers in the human body and their advantages. • Application of lever in different sports movements. • Concept of Torque (Moment of Force) and mechanical advantage. • Analysis of fundamental movements: ○ Running (stance, swing, flight, joint movements, muscle action etc), ○ Jumping (approach, take off, flight, landing, joint movements, muscle actions etc.) ○ Throwing (stance, acceleration, release, follow through, joint movements, muscle actions etc.)

PHYSICAL EDUCATION SEMESTER – VIII SPORTS KINESIOLOGY		
Total Marks – 100(Theory Examination)		
Theory Marks (Maximum)	- 80	Sessional Marks (Maximum) - 20
Time (Theory Examination) -	3 Hours	
<u>INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS</u> Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A26)	SEMESTER –VIII	
Course Objective	1. To develop the basic understanding of kinesiology 2. To explore the kinesiology of muscles and its application in human body movements while performing sports activities. 3. To develop a comprehensive understanding of role of kinesiology in injury management. 4. Attachment and action of major muscles.	
Course Outcome	On completion of the course, the students: - Will have the basic knowledge and understanding of kinesiology. - Will be able to analyse movements using kinesiological principles to identify efficient movement patterns. - Students will be able to prevent injuries in relation to faulty movements and by using preventing strategies like warm ups, conditioning etc. - Will demonstrate safe and efficient body mechanics in sports and exercise practices.	
Outline Syllabus	SPORTS KINESIOLOGY	
Credits	4 (Theory: 4)	
Marks	Total Marks-100 (Theory Examination)	
	Theory Marks (Maximum)- 80	Sessional Marks (Maximum)- 20

UNITS	TOPICS	
Unit-1	INTRODUCTION TO KINESIOLOGY - Meaning, definition, nature and scope of Kinesiology. - Academic and professional objectives of Kinesiology. - Importance of Kinesiology in coaching, training and injury prevention. - Planes, Axes and Movement Terminology: Types of Planes of movement (Sagittal, Frontal and Transverse) and their corresponding Axes of rotation: Sagittal, Frontal and Vertical).	

Unit – 2	KINESIOLOGY OF MUSCLES • Structural classification of skeleton muscles. • Types of muscular contractions. • Classification of muscle produced movements. • The techniques of muscular analysis. • Functional Classification of skeleton muscles.
Unit – 3	STRUCTURAL KINESIOLOGY, THE ATTACHMENTS AND ACTION OF MUSCLES OF FOLLOWING JOINTS • Review of the basic structure and functions of the Skeletal System: Meaning and definition of joint. • Types of bones and joints and their functions. • The fundamental movements of joints and their terminology. • The attachments and action of the following muscles : ○ Major muscle of the Upper extremity: biceps, triceps, deltoid ○ Major muscles of the Chest: Pectoralis major, Pectoralis minor, Serratus anterior ○ Major muscles of Upper back: Latissimusdorsi, trapezius, rhomboids major ○ Major muscles of Abdomen: Rectus abdominis, internal and external obliques ○ Major muscles of Hip region: Gluteus maximus, Gluteus minimus, Adductor longus ○ Major muscles of the Lower extremity: Quadriceps, Hamstring, Sartorius, Gastrocnemius
Unit – 4	EXERCISE KINESIOLOGY AND INJURY MANAGEMENT • Principles of Training and Adaptation: Overload, Progression, Specificity, Reversibility, Recovery, Individualization and Variation. • Mechanisms of common sports injuries (Sprain, Strain, Fracture, ACL tears) • The role of joint mobility and muscle flexibility in reducing injury risk. • Phases of rehabilitation: Acute, Sub-acute and Functional • Kinesiological assessment for determining readiness to return to play.

PHYSICAL EDUCATION SEMESTER – VIII MANAGEMENT OF PHYSICAL EDUCATION AND SPORTS		
Total Marks – 100 (Theory Examination)		
Theory Marks (Maximum)	- 80	Internal Assessment Marks - 20
Time (Theory Examination) -	3 Hours	
<u>INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS</u> Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A27)	SEMESTER –VIII	
Course Objective	1. Will have the understanding of management and role of manager. 2. Will be able to plan programmes and will be able to handle public relations and financial management. 3. Understand the ways of effective teaching and class management.	
Course Outcome	On completion of the course, the students: - Will be able to efficiently manage events and will know their duties as managers. - They can also work as public relation officer and will be able to manage finances efficiently. - As teachers they can easily manage their classes.	
Outline Syllabus	MANAGEMENT OF PHYSICAL EDUCATION AND SPORTS	
Credits	4 (Theory: 4)	
Marks	Total Marks-100 (Theory Examination)	
	Theory Marks (Maximum)- 80	Internal Assessment Marks- 20
Contact Hours	Total Contact Hours: 60 (15 Hours Theory = 1 Credit) NOTE: - Four periods per week - One unit contains 60-80 students for theory. Teachers preparing three teams for University Intercollege competitions, their workload shall be counted by including four periods per week in the teaching workload.	
UNITS	TOPICS	
Unit-1	MANAGEMENT AND ROLES OF MANAGER - Management: Meaning, definition, scope, principles, functions of management: Planning, Organizing, Staffing, Directing, Controlling, Coordinating, Evaluating and innovating - Skills of management: Personal skills, Human skills, Conceptual skills, Technical skills and Conjoined skills - Styles of management - Roles of manager: Interpersonal roles, Informational roles, Decisional roles - Qualities of a manager.	

Unit – 2	PROGRAMME PLANNING, PUBLIC RELATIONS AND FINANCIAL MANAGEMENT • Programme planning, Steps in programme planning, Principles of programme planning, Evaluation of physical education programme • Public relations: Meaning, Definitions, Principles, Planning and organizing public relations programme • Financial management: Need for financial management, Principles of financial Management, preparation of budget, Sources of funds, Expenditure
Unit – 3	CLASS MANAGEMENT, FACILITEIS AND EQUIPMENT MANAGEMENT • Class management: Meaning, Steps in class management: Strength of class, Place and time, Uniform, Class formation, Safety measures and Discipline • Principles of class management • Facilities and Equipment management: Types of facility/infrastructure-indoor, outdoor. • Playfield: Area, Location, Layout and Care • Equipments: Need, Importance, Purchase, Care and Maintenance
Unit – 4	CURRICULUM • Meaning and Definition of Curriculum • Principles of Curriculum Construction: Students Centred, Activity Centred, Community Centred, Forward Looking Principle, Principles of Integration, Theories of Curriculum Development, Conservative (Preservation of Culture), Relevance, Flexibility, Quality, Contextually and Plurality • Approaches to Curriculum; Subject Centred, Learner Centred and Community Centred, Curriculum Framework

TRACK AND FIELD**

Total Marks –100 (Theory Examination)			
Theory Marks (Maximum) -	50	Practical Marks (Maximum)-	50
Theory Examination Marks -	40	(Skill and Prowess)	
Internal Assessment Marks -	10		
Time (Theory Examination) -	1 ½ Hours		

INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS

Three questions will be set. Question number one will be compulsory of 10 marks with five short types of answers covering the entire syllabus. Two questions are to be attempted selecting one from each unit and each question will carry 15 marks.

MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A28)	SEMESTER –VIII	
Course Objective	1. To develop excellence and performance in Athletics. 2. To make students Familiar with rules, measurement and techniques of Athletics. 3. To make students learn about the marking of track and field event arenas.	
Course Outcome	After the completion of course: 1. The student will be historical development of Track and field. 2. The student will be oriented with the inherited sign and symptoms that make one adapt for excellence and give best performance. 3. The student will be familiarwith Rules, Measurement and Techniques in sprinting, jumping and throwing events. 4. As teachers the students will be able to organise athletic meet very easily in their institutes.

UNITS	TOPICS	
Unit-1	PHYSICAL LITERACY AND ACTIVE AGING • Meaning and concept of Physical Literacy. • Importance of physical literacy in promoting societal health (children and aged people). • Meaning and concept of Aging and Active Aging. • Benefits of active aging for society • Need to develop modified physical activity program for aged people. • Role of local clubs and public parks in promoting fitness for age people.	
Unit – 2	SPORTS FOR ALL • Concept for Sports for All • Foundation of sporting culture in India. • Sports for All in India; Health, Wellness & the Fit India Movement. • Careers at Sports for All	

PHYSICAL EDUCATION			
Unit – 3		ADVENTURE SPORTS AND LEADERSHIP DEVELOPMENT	
TEST, MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION AND SPORTS		Meaning and definition of Adventure and Adventure Sports.	
		- History, nature and scope of Adventure Sports. Total Marks – 100 (Theory Examination) - Categories of Adventure Sports: Land based (Trekking and Rock Climbing), Water based (Scuba Diving and Rafting), Air based (Paragliding).	
Theory Marks (Maximum) -	80	Sessional Marks (Maximum)	20
Time (Theory Examination)	3 Hours	- Benefits of Adventure Sports for health and wellbeing. - Personality and Leadership Development through Adventure Sports.	
Unit – 4		SAFETY AND EMERGENCY IN ADVENTURE SPORTS	
Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		- Risks associated with Adventure Sports. - The Comfort Zone Model: Comfort Zone, Stretch Zone and Panic Zone. - Principle of ‘Challenge by Choice’ and its benefits in Adventure Sports. - Safety gears in Adventure Sports and their benefits. - Emergency Procedure- Basic wilderness first aid concepts and communication protocols (whistle signals, hand signals, light signals, radio signals). - Students will be able to identify tests, conduct knowledge and skill tests and administer them. - They will also have the knowledge of fitness and motor ability tests, - And will also be able to measure sports skills.	
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A20)		SEMESTER-VII	
Course Objective		- To have the understanding of test, measurement and evaluation. - Students will be able to identify tests, conduct knowledge and skill tests and administer them. - They will also have the knowledge of fitness and motor ability tests, - And will also be able to measure sports skills.

PHYSICAL EDUCATION SEMESTER – VIII SPORTS BIOMECHANICS		
Total Marks – 100(Theory Examination)		
Theory Marks (Maximum) -	80	Sessional Marks (Maximum) - 20
Time (Theory Examination) -	3 Hours	
<u>INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS</u> Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A24)	SEMESTER –VIII	
Course Objective	4. To understand the concept of foundation of sports Biomechanics. 5. To apply the principles of Biomechanics on the human movement and sports skills to enhance the performance and reduce the risk of injury. 6. To analysis the sports skill technique/performance qualitatively and quantitatively using the biomechanical instrumentation and measurement.	
Course Outcome	On completion of the course, the students: 3. Will become an efficient sports bio mechanists to work in research laboratories, sports academies, national teams, and faculty in academic institutions. 4. Will be able to work as sports performance analyst with sports teams/sports clubs/research labs as sports performance analyst.	
Outline Syllabus	SPORTS BIOMECHANICS

UNITS	TOPICS	
Unit-1	FOUNDATION OF SPORTS BIOMECHANICS - Meaning, definition, nature and scope of Biomechanics. - Importance of Biomechanics in Sports. - Role of biomechanics in injury prevention and rehabilitation.	

	• The social and psychological impact of biomechanical interventions on athletes. • Meaning, concept and definitions of Motion. Types of motion: Linear, angular and rotary motion.
Unit – 2	FORCE AND PROJECTILE • Meaning, concept and definitions of Force. • Types of force and their effect on the body. • Principles of the application of force. • Centripetal and centrifugal forces and their application in the field of sports. • Air and fluid mechanics: flotation and buoyancy, air and water resistance, drag, lift and spin. • Meaning and definition of projectile. Projectile in sports. • Factors affecting the projectile trajectory (e.g. basketball shot, discus throw, javelin throw, baseball throw etc.).
Unit – 3	PRINCIPLES OF MOTION AND STABILITY • Newton's Laws of Motion and their application in the field of sports. • Gravity and centre of gravity. Base of Support. • Equilibrium: meaning, concept and definitions. Types of equilibrium. Principles of equilibrium. Factors affecting static and dynamic equilibrium. Application of equilibrium in sports. • Friction: Meaning, concept and definition of friction. Types of friction. Laws of friction. Advantages and disadvantages of friction. Methods to increase or decrease friction.
Unit – 4	LEVER, TORQUE AND ANALYSIS OF FUNDAMENTAL MOVEMENTS • Lever: meaning, concept and definitions of lever. • The three classes of Levers in the human body and their advantages. • Application of liver in different sports movements. • Concept of Torque (Moment of Force) and mechanical advantage. • Analysis of fundamental movements: ○ Running (stance, swing, flight, joint movements, muscle action etc), ○ Jumping (approach, take off, flight, landing, joint movements, muscle actions etc.) ○ Throwing (stance, acceleration, release, follow through, joint movements, muscle actions etc.)

PHYSICAL EDUCATION SEMESTER – VIII SPORTS KINESIOLOGY		
Total Marks – 100(Theory Examination)		
Theory Marks (Maximum)	- 80	Sessional Marks (Maximum) - 20
Time (Theory Examination) -	3 Hours	
INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS		
Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A25)	SEMESTER –VIII	
Course Objective	1. To develop the basic understanding of kinesiology 5. To explore the kinesiology of muscles and its application in human body movements while performing sports activities. 6. To develop a comprehensive understanding of role of kinesiology in injury management. 7. Attachment and action of major muscles.	
Course Outcome	On completion of the course, the students: 5. Will have the basic knowledge and understanding of kinesiology. 6. Will be able to analyse movements using kinesiological principles to identify efficient movement patterns. 7. Students will be able to prevent injuries in relation to faulty movements and by using preventing strategies like warm ups, conditioning etc. 8. Will demonstrate safe and efficient body mechanics in sports and exercise practices.	
Outline Syllabus	SPORTS KINESIOLOGY	
Credits	4 (Theory: 4)	
Marks	Total Marks-100 (Theory Examination)	
	Theory Marks (Maximum)- 80	Sessional Marks (Maximum)- 20
Contact Hours	Total Contact Hours: 60 (15 Hours Theory = 1 Credit) NOTE: - Four periods per week - One unit contains 60-80 students for theory. Teachers preparing three teams for University Intercollege competitions, their workload shall be counted by including four periods per week in the teaching workload.	
UNITS	TOPICS	
Unit-1	INTRODUCTION TO KINESIOLOGY - Meaning, definition, nature and scope of Kinesiology. - Academic and professional objectives of Kinesiology. - Importance of Kinesiology in coaching, training and injury prevention. - Planes, Axes and Movement Terminology: Types of Planes of movement (Sagittal, Frontal and Transverse) and their corresponding Axes of rotation: Sagittal, Frontal and Vertical).	

Unit – 2	KINESIOLOGY OF MUSCLES • Structural classification of skeleton muscles. • Types of muscular contractions. • Classification of muscle produced movements. • The techniques of muscular analysis. • Functional Classification of skeleton muscles.
Unit – 3	STRUCTURAL KINESIOLOGY, THE ATTACHMENTS AND ACTION OF MUSCLES OF FOLLOWING JOINTS • Review of the basic structure and functions of the Skeletal System: Meaning and definition of joint. • Types of bones and joints and their functions. • The fundamental movements of joints and their terminology. • The attachments and action of the following muscles : ○ Major muscle of the Upper extremity: biceps, triceps, deltoid ○ Major muscles of the Chest: Pectoralis major, Pectoralis minor, Serratus anterior ○ Major muscles of Upper back: Latissimusdorsi, trapezius, rhomboids major ○ Major muscles of Abdomen: Rectus abdominis, internal and external obliques ○ Major muscles of Hip region: Gluteus maximus, Gluteus minimus, Adductor longus ○ Major muscles of the Lower extremity: Quadriceps, Hamstring, Sartorius, Gastrocnemius
Unit – 4	EXERCISE KINESIOLOGY AND INJURY MANAGEMENT • Principles of Training and Adaptation: Overload, Progression, Specificity, Reversibility, Recovery, Individualization and Variation. • Mechanisms of common sports injuries (Sprain, Strain, Fracture, ACL tears) • The role of joint mobility and muscle flexibility in reducing injury risk. • Phases of rehabilitation: Acute, Sub-acute and Functional • Kinesiological assessment for determining readiness to return to play.

NOTES:-

1. Subject A shall be the subject in which the candidate shall pursue Honours degree (if opted)
 2. The Institution shall ask the student to opt for Hons. Subject well advance before the end of semester IV
 3. In the first semester student will be offered three different subjects A, B & C.
 4. At the end of second semester each student may choose any one of the two streams namely Single Major or Multi-Disciplinary. The student choosing Single Major stream is required to give his/her Major and Minor at end of the second semester.
 5. A student who secures 75% or more marks in aggregate till semester 6 (upto 3 year degree) shall be eligible for 4 YEAR DEGREE B.A. HONOURS with Research on the condition that the Institution is a PU approved Research Centre/offering MA course in that subject.
 6. Language paper chosen as MIL-1 and MIL-2 should be in the same subject.
 7. Once Major and Minor papers are chosen in 3rd semester, the same will continue as Major and Minor subject in the subsequent semesters.
 8. The candidate opting for Honours in Research is required to study two papers of Research Methodology (RM) of 04 credits each and write a Dissertation of 08 credits in the major subject.
 9. The first major paper in any semester shall be offered as minor paper to other discipline/courses.
 10. The RM MAJ subject represents Research Methodology paper of Subject-A.
 11. **The Dissertation (P1) opted by the candidates pursuing B.A. (Hons.) with Research:** A synopsis of at most 3000 words shall be prepared by the candidate and a presentation before faculty members of department shall be arranged immediately after the end of odd semester examination to evaluate the performance of candidate. Marks out of 100 shall be awarded to assess candidate's performance.
 12. **The Dissertation (P2) opted by the candidates pursuing B.A. (Hons.) with Research:** The dissertation submitted to the Department/College/Institution, before a pre-fixed date announced by the Department/College/Institution, shall be evaluated by two subject experts. The supervisor shall be one of these two experts. The second expert for an affiliated College/Institution shall be an external examiner either from the University campus or from another affiliated college/institution of Panjab University, Chandigarh. The external expert appointed from an affiliated college/Institution shall also be an approved Ph.D supervisor of Panjab University, Chandigarh. However, for a department on campus offering these programme, the external expert shall be appointed from an institution beyond the administrative jurisdiction of Panjab University, Chandigarh (i.e. expert from another university or research institute not affiliated with the Panjab University). The open viva-voce shall be conducted by the external expert in the mandatory presence of the supervisor. Marks out of 200 shall be awarded by the external expert only. The bifurcation of 200 marks shall be as follows:
 - (i) Marks out of 150 shall be awarded for the quality of dissertation work; and
 - (ii) Marks out of 50 shall be awarded on the basis of candidate's performance in viva-voce.
- Hence, the dissertation course in 4th semester shall carry 8 credits (200 marks) and the grade in this Course shall be decided on the bases of the percentage marks obtained out of 200. Passing Marks for a dissertation paper shall be 40 % (i.e., 80 out of 200) with a grade letter 'P'.
- (iii) It is not necessary to score passing marks/grade separately but a sum of marks obtained from dissertation evaluation (marks out of 150) and viva-voce examination (marks out of 50) shall be considered to fulfill passing grade criterion.

Unit-1	TEACHING, LEARNING AND METHODS OF TEACHING • Concept of teaching and learning. • Principles of teaching (simplex to complex, part to whole, learning by doing, intrinsic and extrinsic motivation, frequency and duration of instructions, recognition, methods of teaching physical activities, individual and group teaching, capacity of learner) • Maxims of teaching. • Methods of teaching (Lecture Method, Demonstration Method, Discussion Method, Orientation method) • Factors influencing Methods of teaching • Steps for effective teaching.
Unit – 2	CLASSIFICATION OF PUPILS AND CLASS MANAGEMENT IN PHYSICAL EDUCATION AND SPORTS • Importance of Classification of pupils • Methods of Classification of pupils • Teaching of activities: major games, athletics, rhythmic activities, light apparatus and marching. • Class management. (Meaning, principles and steps in class management) • Teaching Aids and their importance in teaching (Audio-Visual Aids, Charts, Models, Films and Boards)
Unit – 3	PRESENTATION TECHNIQUE • Phases of teaching (Pre-Active Phase, Interactive Phase and Post Active Phase and their operation/function) • Class formation and its types. • Commands and their importance. • Steps in teaching motor skills. • Lesson Planning and its types.
Unit – 4	EDUCATIONAL TECHNOLOGY • Meaning, definition, need and importance of educational technology for a teacher • Latest technologies for the teachers (Telematics, Multimedia, Television and Overhead projector). • Computer related concepts of educational technology (LCD, Adobe Photoshop, Power Point Presentation and Assessing Students Learning)

PHYSICAL EDUCATION SEMESTER – VIII SPORTS BIOMECHANICS		
Total Marks – 100(Theory Examination)		
Theory Marks (Maximum) -	80	Sessional Marks (Maximum) - 20
Time (Theory Examination) -	3 Hours	
<u>INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS</u> Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A18)	SEMESTER –VIII	
Course Objective	7. To understand the concept of foundation of sports Biomechanics. 8. To apply the principles of Biomechanics on the human movement and sports skills to enhance the performance and reduce the risk of injury. 9. To analysis the sports skill technique/performance qualitatively and quantitatively using the biomechanical instrumentation and measurement.	
Course Outcome	On completion of the course, the students: 5. Will become an efficient sports bio mechanists to work in research laboratories, sports academies, national teams, and faculty in academic institutions. 6. Will be able to work as sports performance analyst with sports teams/sports clubs/research labs as sports performance analyst.	
Outline Syllabus	SPORTS BIOMECHANICS	
Credits	4 (Theory: 4)	
Marks	Total Marks-100 (Theory & Practical Examination)	
	Theory Marks (Maximum)- 80	Internal Assessment Marks- 20
Contact Hours	Total Contract Hours: 60 (15 Hours Theory = 1 Credit) NOTE: - Four periods per week - One unit contains 60-80 students for theory. Teachers preparing three teams for University Intercollege competitions, their workload shall be counted by including four periods per week in the teaching workload.	
UNITS	TOPICS	
Unit-1	FOUNDATION OF SPORTS BIOMECHANICS - Meaning, definition, nature and scope of Biomechanics. - Importance of Biomechanics in Sports. - Role of biomechanics in injury prevention and rehabilitation.	

	• The social and psychological impact of biomechanical interventions on athletes. • Meaning, concept and definitions of Motion. Types of motion: Linear, angular and rotary motion.
Unit – 2	FORCE AND PROJECTILE • Meaning, concept and definitions of Force. • Types of force and their effect on the body. • Principles of the application of force. • Centripetal and centrifugal forces and their application in the field of sports. • Air and fluid mechanics: flotation and buoyancy, air and water resistance, drag, lift and spin. • Meaning and definition of projectile. Projectile in sports. • Factors affecting the projectile trajectory (e.g. basketball shot, discus throw, javelin throw, baseball throw etc.).
Unit – 3	PRINCIPLES OF MOTION AND STABILITY • Newton's Laws of Motion and their application in the field of sports. • Gravity and centre of gravity. Base of Support. • Equilibrium: meaning, concept and definitions. Types of equilibrium. Principles of equilibrium. Factors affecting static and dynamic equilibrium. Application of equilibrium in sports. • Friction: Meaning, concept and definition of friction. Types of friction. Laws of friction. Advantages and disadvantages of friction. Methods to increase or decrease friction.
Unit – 4	LEVER, TORQUE AND ANALYSIS OF FUNDAMENTAL MOVEMENTS • Lever: meaning, concept and definitions of lever. • The three classes of Levers in the human body and their advantages. • Application of liver in different sports movements. • Concept of Torque (Moment of Force) and mechanical advantage. • Analysis of fundamental movements: ○ Running (stance, swing, flight, joint movements, muscle action etc), ○ Jumping (approach, take off, flight, landing, joint movements, muscle actions etc.) ○ Throwing (stance, acceleration, release, follow through, joint movements, muscle actions etc.)

PHYSICAL EDUCATION SEMESTER – VIII SPORTS KINESIOLOGY		
Total Marks – 100(Theory Examination)		
Theory Marks (Maximum) -	80	Sessional Marks (Maximum) - 20
Time (Theory Examination) -	3 Hours	
INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS		
Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A19)	SEMESTER –VIII	
Course Objective	1. To develop the basic understanding of kinesiology 8. To explore the kinesiology of muscles and its application in human body movements while performing sports activities. 9. To develop a comprehensive understanding of role of kinesiology in injury management. 10. Attachment and action of major muscles.	
Course Outcome	On completion of the course, the students: 9. Will have the basic knowledge and understanding of kinesiology. 10. Will be able to analyse movements using kinesiological principles to identify efficient movement patterns. 11. Students will be able to prevent injuries in relation to faulty movements and by using preventing strategies like warm ups, conditioning etc. 12. Will demonstrate safe and efficient body mechanics in sports and exercise practices.	
Outline Syllabus	SPORTS KINESIOLOGY

UNITS	TOPICS	
Unit-1	INTRODUCTION TO KINESIOLOGY - Meaning, definition, nature and scope of Kinesiology. - Academic and professional objectives of Kinesiology. - Importance of Kinesiology in coaching, training and injury	

	prevention. Planes, Axes and Movement Terminology: Types of Planes of movement (Sagittal, Frontal and Transverse) and their corresponding Axes of rotation: Sagittal, Frontal and Vertical).
Unit – 2	KINESIOLOGY OF MUSCLES - Structural classification of skeleton muscles. - Types of muscular contractions. - Classification of muscle produced movements. - The techniques of muscular analysis. - Functional Classification of skeleton muscles.
Unit – 3	STRUCTURAL KINESIOLOGY, THE ATTACHMENTS AND ACTION OF MUSCLES OF FOLLOWING JOINTS - Review of the basic structure and functions of the Skeletal System: Meaning and definition of joint. - Types of bones and joints and their functions. - The fundamental movements of joints and their terminology. - The attachments and action of the following muscles : - Major muscle of the Upper extremity: biceps, triceps, deltoid - Major muscles of the Chest: Pectoralis major, Pectoralis minor, Serratus anterior - Major muscles of Upper back: Latissimusdorsi, trapezius, rhomboids major - Major muscles of Abdomen: Rectus abdominis, internal and external obliques - Major muscles of Hip region: Gluteus maximus, Gluteus minimus, Adductor longus - Major muscles of the Lower extremity: Quadriceps, Hamstring, Sartorius, Gastrocnemius
Unit – 4	EXERCISE KINESIOLOGY AND INJURY MANAGEMENT - Principles of Training and Adaptation: Overload, Progression, Specificity, Reversibility, Recovery, Individualization and Variation. - Mechanisms of common sports injuries (Sprain, Strain, Fracture, ACL tears) - The role of joint mobility and muscle flexibility in reducing injury risk. - Phases of rehabilitation: Acute, Sub-acute and Functional - Kinesiological assessment for determining readiness to return to play.

SEMESTER – VIII		
MANAGEMENT OF PHYSICAL EDUCATION AND SPORTS		
Total Marks – 100 (Theory Examination)		
Theory Marks (Maximum) -	80	Internal Assessment Marks - 20
Time (Theory Examination) -	3 Hours	
<u>INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS</u>		
Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A20)	SEMESTER –VIII	
Course Objective	1. Will have the understanding of management and role of manager. 2. Will be able to plan programmes and will be able to handle public relations and financial management. 3. Understand the ways of effective teaching and class management.	
Course Outcome	On completion of the course, the students: 4. Will be able to efficiently manage events and will know their duties as managers. 5. They can also work as public relation officer and will be able to manage finances efficiently. 6. As teachers they can easily manage their classes.	
Outline Syllabus	MANAGEMENT OF PHYSICAL EDUCATION AND SPORTS	
Credits	4 (Theory: 4)	
Marks	Total Marks-100 (Theory Examination)	
	Theory Marks (Maximum)- 80	Internal Assessment Marks- 20
Contact Hours	Total Contact Hours: 60 (15 Hours Theory = 1 Credit) NOTE: - Four periods per week - One unit contains 60-80 students for theory. Teachers preparing three teams for University Intercollege competitions, their workload shall be counted by including four periods per week in the teaching workload.	
UNITS	TOPICS	
Unit-1	MANAGEMENT AND ROLES OF MANAGER - Management: Meaning, definition, scope, principles, functions of management: Planning, Organizing, Staffing, Directing, Controlling, Coordinating, Evaluating and innovating - Skills of management: Personal skills, Human skills,	

	Conceptual skills, Technical skills and Conjoined skills • Styles of management • Roles of manager: Interpersonal roles, Informational roles, Decisional roles • Qualities of a manager.
Unit – 2	PROGRAMME PLANNING, PUBLIC RELATIONS AND FINANCIAL MANAGEMENT • Programme planning, Steps in programme planning, Principles of programme planning, Evaluation of physical education programme • Public relations: Meaning, Definitions, Principles, Planning and organizing public relations programme • Financial management: Need for financial management, Principles of financial Management, preparation of budget, Sources of funds, Expenditure
Unit – 3	CLASS MANAGEMENT, FACILITEIS AND EQUIPMENT MANAGEMENT • Class management: Meaning, Steps in class management: Strength of class, Place and time, Uniform, Class formation, Safety measures and Discipline • Principles of class management • Facilities and Equipment management: Types of facility/infrastructure-indoor, outdoor. • Playfield: Area, Location, Layout and Care • Equipments: Need, Importance, Purchase, Care and Maintenance
Unit – 4	CURRICULUM • Meaning and Definition of Curriculum • Principles of Curriculum Construction: Students Centred, Activity Centred, Community Centred, Forward Looking Principle, Principles of Integration, Theories of Curriculum Development, Conservative (Preservation of Culture), Relevance, Flexibility, Quality, Contextually and Plurality • Approaches to Curriculum; Subject Centred, Learner Centred and Community Centred, Curriculum Framework

SEMESTER –VIII
TRACK AND FIELD**

Total Marks –100 (Theory Examination)			
Theory Marks (Maximum) -	50	Practical Marks (Maximum)-	50
Theory Examination Marks -	40	(Skill and Prowess)	
Internal Assessment Marks -	10		
Time (Theory Examination) -	1 ½ Hours		

INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS

Three questions will be set. Question number one will be compulsory of 10 marks with five short types of answers covering the entire syllabus. Two questions are to be attempted selecting one from each unit and each question will carry 15 marks.

MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A21)	SEMESTER –VIII		
Course Objective	4. To develop excellence and performance in Athletics. 5. To make students Familiar with rules, measurement and techniques of Athletics. 6. To make students learn about the marking of track and field event arenas.		
Course Outcome	After the completion of course: 5. The student will be historical development of Track and field. 6. The student will be oriented with the inherited sign and symptoms that make one adapt for excellence and give best performance. 7. The student will be familiar with Rules, Measurement and Techniques in sprinting, jumping and throwing events. 8. As teachers the students will be able to organise athletic meet very easily in their institutes.		
Outline Syllabus	TRACK AND FIELD		
Credits	4 (Theory: 2, Practical:2)		
Marks	Total Marks –100 (Theory & Practical Examination)		
	Theory Marks (Maximum)- 50 Theory Examination Marks - 40 Internal Assessment Marks - 10	Practical Marks (Maximum)-	50
Contact Hours	60 Hours (Theory: 30 Hours, Practical: 60 hours) 15 hours theory= 1 Credit, 30 Hours practical = 1 credit)		

	NOTE: four periods per week (2 periods each for Theory and Practical) One unit contains 60-80 students for theory and 30-40 students for Practical. Teachers preparing three teams for University Intercollege competitions, their workload shall be counted by including six periods per week in the teaching workload.
UNITS	TOPICS
Unit – 1	• Historical development of the concerned track and field event in India, Asia and world level • Main tournament organized at national and international levels • Records of the track and field events at World, Olympics, Asia, National. • Awards in the Track and Field • Books and magazines on the Track and Field • Layout of 400 metre track, marking of staggers • <i>Layout and marking of Field Events</i> : shot put, hammer throw, discus throw, javelin throw, long jump, triple jump, pole vault • Rules of the Track and Field Events and their interpretation (<i>except combined events, steeple chase, race walking, road races and cross country</i>)
Unit – 2	<i>Sprint Events:</i> • Sprints and Relays: phases of sprints, coaching techniques in sprints, composition of relay team (all relays), common faults and corrective techniques <i>The Jumps:</i> • The High Jump: techniques, advantage of Fosbury Flop, common faults and corrective techniques • The Long Jump: techniques, common faults and corrective techniques <i>The Throws:</i> • The Shot Put: techniques, common faults and corrective techniques • Discus Throw: The techniques, common faults and corrective techniques
PRACTICAL (SKILL AND PROWESS)	SYLLABUS
	• High Jump • Long Jump • Sprints & Relays • Shot Put • Javelin Throw • Discus Throw • Middle Distance Races

PHYSICAL EDUCATION SEMESTER – VII		
PHYSICAL LITERACY, ACTIVE AGING AND ADVENTURE SPORTS		
Total Marks – 100 (Theory Examination)		
Theory Marks (Maximum) - Time (Theory Examination) Hours	80 - 3	Internal Assessment (Maximum) - 20
<u>INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS</u>		
Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A12)	SEMESTER –VII	
Course Objective	8. To understand the concept of Physical Literacy. 9. To apprise the students about the benefits of Active Aging 10. To inform the students about the Sporting Culture in India 11. To expose the students to the World of Adventure Sports	
Course Outcome	8. The students will learn the concept of Physical Literacy. 9. The students will learn the benefits of Active Aging 10. The students will learn about the Sporting Culture in India 11. The students will learn about the World of Adventure Sports	
Outline Syllabus	PHYSICAL LITERACY, ACTIVE AGING AND ADVENTURE SPORTS	
Credits	4 (Theory: 4)	
Marks	Total Marks-100 (Theory Examination)	
	Theory Marks - 80	Internal Assessment Marks - 20
Contact Hours	Total Contact Hours: 60 (15 Hours Theory = 1 Credit) NOTE: • Four periods per week • One unit contains 60-80 students for theory. • Teachers preparing three teams for University Inter college competitions, their workload shall be counted by including four periods per week in the teaching workload.	
UNITS	TOPICS	
Unit-1	PHYSICAL LITERACY AND ACTIVE AGING • Meaning and concept of Physical Literacy. • Importance of physical literacy in promoting societal health (children and aged people). • Meaning and concept of Aging and Active Aging. • Benefits of active aging for society • Need to develop modified physical activity program for aged people. • Role of local clubs and public parks in promoting fitness for age people.	

Unit – 2	SPORTS FOR ALL • Concept for Sports for All • Foundation of sporting culture in India. • Sports for All in India; Health, Wellness & the Fit India Movement. • Careers at Sports for All
Unit – 3	ADVENTURE SPORTS AND LEADERSHIP DEVELOPMENT • Meaning and definition of Adventure and Adventure Sports. • History, nature and scope of Adventure Sports. • Categories of Adventure Sports: Land based (Trekking and Rock Climbing), Water based (Scuba Diving and Rafting), Air based (Paragliding). • Benefits of Adventure Sports for health and wellbeing. • Personality and Leadership Development through Adventure Sports.
Unit – 4	SAFETY AND EMERGENCY IN ADVENTURE SPORTS • Actual Risk and Perceived Risk. • Risks associated with Adventure Sports. • The Comfort Zone Model: Comfort Zone, Stretch Zone and Panic Zone. • Principle of ‘Challenge by Choice’ and its benefits in Adventure Sports. • Safety gears in Adventure Sports and their benefits. • Emergency Procedure: Basic wilderness first aid concepts and communication protocols (whistle signals, hand signals, light signals, radio signals)

MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A13)	SEMESTER –VII	
Course Objective	13. To have the understanding of test, measurement and evaluation. 14. Students will be able to classify tests, construct knowledge and skill test and administer them. 15. They will also have the knowledge of fitness and motor ability tests, 16. And will also be able to measure sports skills.	
Course Outcome	On completion of the course, the students shall be able to: 13. Analyse basic concepts of test, measurement and evaluation. 14. Understand the various steps of test construction and administration. 15. Evaluate and correlate sports performance through fitness and motor ability tests. 16. Demonstrate and conduct various tests of physical fitness, motor fitness and sports skills.

PHYSICAL EDUCATION SEMESTER – VII RESEARCH METHODS IN PHYSICAL EDUCATION AND SPORTS SCIENCES		
Total Marks – 100 (Theory Examination)		
Theory Marks (Maximum) -	80	Internal Assessment (Maximum) - 20
Time (Theory Examination) -	3 Hours	
<u>INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS</u> Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A15)	SEMESTER –VII	
Course Objective	12. To familiarize the students to the principles of research process in Physical education. 13. To make them understand the methods of research, population and to develop the techniques of sampling. 14. To familiarise the students with data analysis process.	
Course Outcome	12. Students will have the knowledge of basics in research methodology and applying them in research/ project work. 13. They will understand the various research tools and their use in research. 14. Students will develop skills in qualitative and quantitative data analysis and presentation, prepare the research proposals and develop skills for thesis writing.	
Outline Syllabus	RESEARCH METHODS IN PHYSICAL EDUCATION AND SPORTS SCIENCES	
Credits	4 (Theory: 4)	
Marks	Total Marks-100 (Theory Examination)	
	Theory Marks - 80	Internal Assessment Marks - 20
Contact Hours	Total Contact Hours: 60 (15 Hours Theory = 1 Credit) NOTE: • Four periods per week • One unit contains 60-80 students for theory. • Teachers preparing three teams for University Intercollege competitions, their workload shall be counted by including four periods per week in the teaching workload.	
UNITS	TOPICS	

Unit-1	INTRODUCTION, RESEARCH PROBLEM, REVIEW OF RELATED LITERATURE AND RESEARCH HYPOTHESIS • Meaning of Research and its characteristics, Classification of Research, Qualities of a Researcher • Research Problem: Sources of Research Problem, Identifying a research problem • Criteria in selecting a research problem • Stating the research problem • Research Hypothesis: Nature and types of Hypothesis, Formation, Testing and evaluating and importance of Hypothesis.
Unit – 2	METHODS OF RESEARCH Historical Research: • Sources of historical materials • Evaluation of historical material • Pitfalls of historical writing. Survey method: • Meaning and importance of survey • Types of survey • Interview- structured and unstructured. Experimental Research • Meaning of Experimental Research • Experimental Validity – Threat to it and ways to reduce it • Types of Experimental Design
Unit – 3	POPULATION AND SAMPLING • Concept of population and sampling • Importance and characteristics of sampling Sampling techniques: Probability and Non - Probability
Unit – 4	DATA ANALYSIS/ WRITING STYLES • Qualitative and Quantitative analysis • Data interpretation: • Analyzing, organizing and presenting data, discussion of results. • Formulation of conclusions and recommendation • Writing Research Report/ Research Paper/ Thematic Paper • Basic Writing Guidelines • Format of Dissertation –American Psychology Association/ Chicago Dissertation Writing System/ Local • How to write abstract and full paper for Journal/ Conference/Seminar • Oral and Poster Presentation

**PHYSICAL EDUCATION
SEMESTER – VIII**

TEACHING METHODOLOGY IN PHYSICAL EDUCATION

Total Marks – 100 (Theory Examination)			
Theory Marks (Maximum) -	80	Internal Assessment Marks -	20
Time (Theory Examination) Hours	- 3		

INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS

Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.

MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A17)	SEMESTER –VIII	
Course Objective	• Understand the concept, principles, and importance of teaching and learning in Physical Education. • Learn the classification of pupils and apply effective class management techniques in Physical Education settings. • Acquire skills related to lesson presentation techniques for effective teaching of physical activities. • Enhance professional competence required for planning, organizing, and conducting Physical Education classes.	
Course Outcome	On completion of the course, the students will be able to: • Demonstrate understanding of the role of teacher and learner in the teaching-learning process. • Classify pupils based on age, ability, skill level, and individual differences. • Apply appropriate voice modulation, posture, and communication skills for effective presentation • Explain the concept and importance of educational technology in Physical Education.

	• Four periods per week • One unit contains 60-80 students for theory. Teachers preparing three teams for University Inter-college competitions, their workload shall be counted by including four periods per week in the teaching workload.
UNITS	TOPICS
Unit-1	TEACHING, LEARNING AND METHODS OF TEACHING • Concept of teaching and learning. • Principles of teaching (simplex to complex, part to whole, learning by doing, intrinsic and extrinsic motivation, frequency and duration of instructions, recognition, methods of teaching physical activities, individual and group teaching, capacity of learner) • Maxims of teaching. • Methods of teaching (Lecture Method, Demonstration Method, Discussion Method, Orientation method) • Factors influencing Methods of teaching • Steps for effective teaching.
Unit – 2	CLASSIFICATION OF PUPILS AND CLASS MANAGEMENT IN PHYSICAL EDUCATION AND SPORTS • Importance of Classification of pupils • Methods of Classification of pupils • Teaching of activities: major games, athletics, rhythmic activities, light apparatus and marching. • Class management. (Meaning, principles and steps in class management) • Teaching Aids and their importance in teaching (Audio-Visual Aids, Charts, Models, Films and Boards)
Unit – 3	PRESENTATION TECHNIQUE • Phases of teaching (Pre-Active Phase, Interactive Phase and Post Active Phase and their operation/function) • Class formation and its types. • Commands and their importance. • Steps in teaching motor skills. • Lesson Planning and its types.
Unit – 4	EDUCATIONAL TECHNOLOGY • Meaning, definition, need and importance of educational technology for a teacher • Latest technologies for the teachers (Telematics, Multimedia, Television and Overhead projector). • Computer related concepts of educational technology (LCD, Adobe Photoshop, Power Point Presentation and Assessing Students Learning)

PHYSICAL EDUCATION SEMESTER – VIII SPORTS BIOMECHANICS		
Total Marks – 100(Theory Examination)		
Theory Marks (Maximum) -	80	Sessional Marks (Maximum) - 20
Time (Theory Examination) -	3 Hours	
<u>INSTRUCTIONS FOR THE PAPER-SETTER AND STUDENTS</u> Nine questions will be set. Question number one will be compulsory of 20 marks with ten short types of answers covering the entire syllabus. Four questions are to be attempted selecting one from each unit and each question will carry 15 marks.		
MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A18)	SEMESTER –VIII	
Course Objective	1. To understand the concept of foundation of sports Biomechanics. 2. To apply the principles of Biomechanics on the human movement and sports skills to enhance the performance and reduce the risk of injury. 3. To analysis the sports skill technique/performance qualitatively and quantitatively using the biomechanical instrumentation and measurement.	
Course Outcome	On completion of the course, the students: 4. Will become an efficient sports bio mechanists to work in research laboratories, sports academies, national teams, and faculty in academic institutions. 5. Will be able to work as sports performance analyst with sports teams/sports clubs/research labs as sports performance analyst.	
Outline Syllabus	SPORTS BIOMECHANICS

UNITS	TOPICS	
Unit-1	FOUNDATION OF SPORTS BIOMECHANICS - Meaning, definition, nature and scope of Biomechanics. - Importance of Biomechanics in Sports. - Role of biomechanics in injury prevention and rehabilitation. - The social and psychological impact of biomechanical interventions on athletes.	

	• Meaning, concept and definitions of Motion. Types of motion: Linear, angular and rotary motion.
Unit – 2	FORCE AND PROJECTILE • Meaning, concept and definitions of Force. • Types of force and their effect on the body. • Principles of the application of force. • Centripetal and centrifugal forces and their application in the field of sports. • Air and fluid mechanics: flotation and buoyancy, air and water resistance, drag, lift and spin. • Meaning and definition of projectile. Projectile in sports. • Factors affecting the projectile trajectory (e.g. basketball shot, discus throw, javelin throw, baseball throw etc.).
Unit – 3	PRINCIPLES OF MOTION AND STABILITY • Newton's Laws of Motion and their application in the field of sports. • Gravity and centre of gravity. Base of Support. • Equilibrium: meaning, concept and definitions. Types of equilibrium. Principles of equilibrium. Factors affecting static and dynamic equilibrium. Application of equilibrium in sports. • Friction: Meaning, concept and definition of friction. Types of friction. Laws of friction. Advantages and disadvantages of friction. Methods to increase or decrease friction.
Unit – 4	LEVER, TORQUE AND ANALYSIS OF FUNDAMENTAL MOVEMENTS • Lever: meaning, concept and definitions of lever. • The three classes of Levers in the human body and their advantages. • Application of liver in different sports movements. • Concept of Torque (Moment of Force) and mechanical advantage. • Analysis of fundamental movements: ○ Running (stance, swing, flight, joint movements, muscle action etc), ○ Jumping (approach, take off, flight, landing, joint movements, muscle actions etc.) ○ Throwing (stance, acceleration, release, follow through, joint movements, muscle actions etc.)

MAJOR DISCIPLINE SPECIFIC CORE (MAJ-A19)	SEMESTER –VIII	
Course Objective	1. To develop the basic understanding of kinesiology 11. To explore the kinesiology of muscles and its application in human body movements while performing sports activities. 12. To develop a comprehensive understanding of role of kinesiology in injury management. 13. Attachment and action of major muscles.	
Course Outcome	On completion of the course, the students: 13. Will have the basic knowledge and understanding of kinesiology. 14. Will be able to analyse movements using kinesiological principles to identify efficient movement patterns. 15. Students will be able to prevent injuries in relation to faulty movements and by using preventing strategies like warm ups, conditioning etc. 16. Will demonstrate safe and efficient body mechanics in sports and exercise practices.

POLICE ADMINISTRATION

ANNEXURE - I

POLICE ADMINISTRATION

Syllabus of BA/BA Honours/ BA Honours with Research examination 2026-27 under NEP

Level of Course: L-400

Semester – VII

Paper I

PAD-DSC-19 (MAJ-7/MIN-7) 701 - Police Administration: Theory and Practice

Total Credits: 4 (Theory: 3 lectures + Tutorial: 1 lecture)

Max. Marks: 100

Theory: 90 marks

Int. Ass.: 10marks

Time: 3 Hours

Course Objective

The objective of this paper will be to introduce to the students the concept and rationale of police in society and its evolution. The endeavor will be to familiarize the students with the working of police organizations at the union, state and local level. In addition, it imparts information regarding the latest developments in the field of police reforms, community policing, human rights and gender participation in police in India.

Learning Outcomes

The paper will provide comprehensive knowledge about the role, concept & significance of police. It will widen the understanding about the working of Central Armed Police Forces & Police Administration at state & district levels. The students will understand the working and environment in which the police in India, at various levels, functions and the numerous professional challenges faced by them. It will equip them with both the academic and professional knowledge of administration of police in India.

Pedagogy of the Course Work:

90% Class room teaching,
10% Internal Assessment comprising Unit test,
Assignments and class room participation.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper –setter must put note (ii) in the question paper.

PAD-DSC-20 (MAJ-7) 702 – Crime Investigation Techniques & Procedures

Total Credits: 4 (Theory: 3 lectures + Tutorial: 1 lecture)

Max. Marks: 100

Theory: 90 marks

Int. Ass.: 10marks

Time: 3 Hours

Course Objective

The paper will impart knowledge to the students about the crime investigation techniques and procedure followed by the police after the occurrence of crime. The students will be taught about the crime scene, its importance, inspection of crime scene and its preservation along with the role of investigation officer. Further, important aspects of investigation procedures i.e. examination of witness, test identification parade, arrest, search, seizure and custodial procedures will also be discussed. The paper will focus on use of ICT and modern scientific techniques in investigation.

Learning Outcomes

The paper intends to provide knowledge and develop skills among the students about the crime investigation, procedures and crime scene management. The students, after the successful completion of the paper, will develop the skills required for preservation of crime scene, investigation of various types of crime. The students will gain insight regarding the multiple aspects associated with investigation such as arrest, search and examination of witness. It will enhance their critical ability regarding the use of ICT and scientific techniques in investigation.

Pedagogy of the Course Work: 90% Class room teaching,

Paper-III

PAD-DSC-21 (MAJ-7) 703–Police Station: Organisation and Management

Total Credits: 4 (Theory: 3 lectures + Tutorial: 1 lecture)

Max. Marks: 100

Theory: 90 marks

Int. Ass.: 10 marks

Time: 3 Hours

Course Objective

The paper aims to develop the understanding of organization and management of police station in India. It acquaints the students with organization structure, types and the role of police station in Police Administration. It will impart knowledge about the management of investigation, preventive measures, resources utilization and workload at police station. Moreover, the use of information and communication technology in police station and issues and challenges of police station will also be discussed in the paper.

Learning Outcomes:

The paper will provide conceptual clarity regarding (i) concept, meaning, objectives and legal framework for police station, types of police station and role of police station in law enforcement, crime prevention etc.; (ii) organization structure and hierarchy of police station, duties and responsibilities of police officers in police station, reporting, supervision and sub-units within police station; (iii) citizen-centric policing, investigation management, resource management, and workload management; (iv) use of information and communication technology in police station, citizen-centric services, issues and challenges pertaining to police station functioning. The students will gain insights regarding the administration and working of police stations.

Pedagogy of the Course Work: 90% Class room teaching,
10% Internal Assessment comprising Unit test,
Assignments and class room participation.

Instructions for Paper-setter and candidates:

Course Contents

Unit – I

Concept, Meaning, Objectives and Legal framework for Police Station
Types of Police Stations: Urban, Rural, Specialized Units
Role of Police Station in Law Enforcement, Crime Prevention and Public Order

Unit- II

Organization, structure and Infrastructure of Police station
Duties and Responsibilities of Key Personnel: SHO, Inspector, Sub -Inspector, Assistant , Sub -Inspector, Head Constable and Constable
Reporting and Supervision: Chain of Command and Accountability

Unit- III

Administrative Management of Police Station: Registers, Documentation, File Management
Investigation Management: DDR, FIR, Zero FIR, Evidence, Case Diaries, Charge-sheets Resource, Time, Task and Workload Management in Police Station

Unit- IV

Information and Communication Technology and Police Station
Citizen-Centric Services and Community Policing Initiatives
Issues and Challenges of Police Station functioning

Total Credits: 4 (Theory: 3 lectures + Tutorial: 1 lecture)

Max. Marks: 100
Theory: 90 marks
Int. Ass.: 10 marks
Time: 3 Hours

Course Objective

This paper emphasizes to develop conceptual understanding of academic research methodology and skills. In specific, the paper aims to focus on identification of the research problem, review of literature, formulation and testing of hypothesis, preparation of research design, and methods of data collection. The students will be familiarized with significance of research ethics, focusing on plagiarism, data privacy and protection. It aims to inculcate requisite skills for report writing.

Learning Outcomes

It will enable the students to seek ability and skills needed to conduct academic research in a systematic manner. The students will develop analytical and cognitive abilities for (i) Identification of the research problem; (ii) Review of literature; (iii) Formulation and testing of hypothesis; (iv) Preparation of research design; (v) Methods of data collection; (vi) Research Ethics followed by researcher; and (vii) Steps involved in report writing. The paper will thus, help the students to develop appropriate research based skills and critical ability to synthesize issues for defining research design.

Indian Polity: A Legal Constitutional Perspective

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Description/Objectives:

This is an advanced course in studying the legal and constitutional text that shapes the architecture of Indian polity. The discussion over the course content would help the students to not only have an insight into the original intent of the Constituent Assembly members while setting up the constitutional institutions and offices but also frame the provisions related to the rights of the citizens. Students who have already read the courses focusing on the Constitution of India will now be better acquainted with the constitutional principles, including the interpretation of the constitutional laws by the higher judiciary, which provide the bedrock on which the institutions are founded, and also how they have functioned since independence.

Learning Outcomes:

On successful completion of the course, students would be able to get a basic idea of the constitutional antecedents, the Process of the making of the Constitution, explain the linkage between the constitution, colonial rule and the socio-political contestations surrounding constitution-making. Students will have an idea of Constitution, Constitutionalism, Constitutional Morality. They will be able to comprehend the founding principles of India's Constitutional Democracy. This course enables students to grasp the issues that were the subject of intense debates in the Constituent Assembly, how the Indian Constitution protects the civic and political rights of the citizens and communities? Students will be able to analyse the idea of the basic structure of the constitution/doctrine of checks and balances

Pedagogy of the Course:

The students will be learning about the course contents through class room lectures followed by discussions. The focus would be on reading the original constitutional and legal text including the judgments followed by the scholarly interpretations. The students would be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks on the basis of Unit test, Snap test, Class Attendance, Class assignments and Class Room participations.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short

answer type questions carrying 2 marks (9x2 = 18 marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks).

- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	: 100 marks
Theory	: 90 marks
Int. Ass.	: 10 marks
Time	: 3 hours

Course Objectives:

The objective of this course is to introduce students to the major themes of western political thought. This will be done by undertaking an in-depth study of the key texts of the thinkers of this tradition. Many of these texts pose difficult questions about political community, social order and human nature, encouraging critical reflection on the foundations of political life.

Learning Outcomes:

By the end of the course students would be able to:

- Understand **and explain** the basic concepts that define the field of political science by **summarizing the development of western political philosophy**.
- Interpret primary texts of classical, Renaissance, and Enlightenment political thinkers in their historical and intellectual contexts.
- Analyse the evolution of concepts such as justice, liberty, equality, and the nature of the political community across different thinkers.

Learn how to read and decode the texts and use them to solve cotemporary socio-political problems.

- Formulate **and clearly present** well-reasoned arguments on contemporary issues and **propose solutions** supported by logical and critical analysis.

Pedagogy of the Course:

The students will be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks on the basis of Unit test, Snap test, Attendance, Class assignments and class room participations.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

POL-DSC-22(MAJ)-704: Discipline Specific Course

Introduction to Research Methodology

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

This course introduces students to the fundamentals of research methodology in the social sciences. It aims to develop the ability to design a research by identifying problems, formulating questions, reviewing literature, and constructing hypotheses. Students will gain familiarity with qualitative and quantitative methods and with primary and secondary data sources, including archives, official statistics, and field-generated materials. The course also cultivates ethical awareness by explaining core principles of research ethics and helping students understand and avoid plagiarism in all its forms.

Learning Outcomes:

By the end of the course, students will be able to identify key concepts in social science research and explain the steps involved in designing a study. They will be able to apply qualitative and quantitative methods to fundamental research tasks and analyse different data sources for relevance and credibility. Students will evaluate ethical concerns, including plagiarism, in real research situations and will finally create coherent research proposals that integrate appropriate methods, data, and ethical principles.

Pedagogy of the Course:

The course will be taught through a mix of interactive lectures using ICT, thematic discussions and case-based analysis of relevant topics. Students will engage with official documents and data to deepen conceptual understanding. Group activities, short research tasks and simulations will encourage application of theory. Critical reflection and comparative inquiry will be emphasised throughout.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Course Content

Unit I: Research Design

Understanding Social Sciences Research

Literature Review, Research Problem, Research Questions, Hypothesis

Unit II: Research Methods

Qualitative: Ethnography, Focus Group and Narratives

Quantitative: Surveys, Interviews and Questionnaire

Unit III: Methods of Data Collection

Types of Data: Primary, Secondary

Sources of Data: Official Statistics, Archival Sources, Field-Generated Data

Unit IV: Research Ethics

Meaning and Significance, Basic Principles

Plagiarism: Types of Plagiarism

Public Administration

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

This course aims to introduce students to Public Administration as a discipline by explaining its nature, scope, and evolution. It develops understanding of organizational principles, personnel and financial administration, administrative law, and control mechanisms. The course also familiarizes learners with administrative reforms, accountability institutions, and the functioning of executive, legislative, and judicial systems in India.

Learning Outcomes:

After completing this course, students will be able to **define** core concepts of public administration, **explain** organizational principles, **analyze** personnel and financial administration systems, **apply** administrative law concepts, **evaluate** control and accountability mechanisms, and **assess** administrative reforms and institutions such as Lokpal, tribunals, and audit bodies within the Indian administrative framework.

Pedagogy of the Course:

The course will be taught through a mix of interactive lectures using ICT, thematic discussions and case-based analysis of relevant topics. Students will engage with official documents and data to deepen conceptual understanding. Group activities, short research tasks and simulations will encourage application of theory. Critical reflection and comparative inquiry will be emphasised throughout.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Indian Polity: A Legal Constitutional Perspective

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	: 100 marks
Theory	: 90 marks
Int. Ass.	: 10 marks
Time	: 3 hours

Course Description/Objectives:

This is an advanced course in studying the legal and constitutional text that shapes the architecture of Indian polity. The discussion over the course content would help the students to not only have an insight into the original intent of the Constituent Assembly members while setting up the constitutional institutions and offices but also frame the provisions related to the rights of the citizens. Students who have already read the courses focusing on the Constitution of India will now be better acquainted with the constitutional principles, including the interpretation of the constitutional laws by the higher judiciary, which provide the bedrock on which the institutions are founded, and also how they have functioned since independence.

Learning Outcomes:

On successful completion of the course, students would be able to get a basic idea of the constitutional antecedents, the Process of the making of the Constitution, explain the linkage between the constitution, colonial rule and the socio-political contestations surrounding constitution-making. Students will have an idea of Constitution, Constitutionalism, Constitutional Morality. They will be able to comprehend the founding principles of India's Constitutional Democracy. This course enables students to grasp the issues that were the subject of intense debates in the Constituent Assembly, how the Indian Constitution protects the civic and political rights of the citizens and communities? Students will be able to analyse the idea of the basic structure of the constitution/doctrine of checks and balances

Pedagogy of the Course:

The students will be learning about the course contents through class room lectures followed by discussions. The focus would be on reading the original constitutional and legal text including the judgments followed by the scholarly interpretations. The students would be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks on the basis of Unit test, Snap test, Class Attendance, Class assignments and Class Room participations.

Instructions for Paper-setter and candidates:

- iii. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- iv. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper-setter must put note (ii) in the question paper.

Western Political Philosophy

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The objective of this course is to introduce students to the major themes of western political thought. This will be done by undertaking an in-depth study of the key texts of the thinkers of this tradition. Many of these texts pose difficult questions about political community, social order and human nature, encouraging critical reflection on the foundations of political life.

Learning Outcomes:

By the end of the course students would be able to:

- Understand **and explain** the basic concepts that define the field of political science by **summarizing the development of western political philosophy**.
- Interpret primary texts of classical, Renaissance, and Enlightenment political thinkers in their historical and intellectual contexts.
- Analyse the evolution of concepts such as justice, liberty, equality, and the nature of the political community across different thinkers.

Learn how to read and decode the texts and use them to solve cotemporary socio-political problems.

- Formulate **and clearly present** well-reasoned arguments on contemporary issues and **propose solutions** supported by logical and critical analysis.

Pedagogy of the Course:

The students will be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks on the basis of Unit test, Snap test, Attendance, Class assignments and class room participations.

Instructions for Paper-setter and candidates:

- iii. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).

- iv. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper-setter must put note (ii) in the question paper.

POL-DSC-22(MAJ)-704: Discipline Specific Course

Introduction to Research Methodology

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

This course introduces students to the fundamentals of research methodology in the social sciences. It aims to develop the ability to design a research by identifying problems, formulating questions, reviewing literature, and constructing hypotheses. Students will gain familiarity with qualitative and quantitative methods and with primary and secondary data sources, including archives, official statistics, and field-generated materials. The course also cultivates ethical awareness by explaining core principles of research ethics and helping students understand and avoid plagiarism in all its forms.

Learning Outcomes:

By the end of the course, students will be able to identify key concepts in social science research and explain the steps involved in designing a study. They will be able to apply qualitative and quantitative methods to fundamental research tasks and analyse different data sources for relevance and credibility. Students will evaluate ethical concerns, including plagiarism, in real research situations and will finally create coherent research proposals that integrate appropriate methods, data, and ethical principles.

Pedagogy of the Course:

The course will be taught through a mix of interactive lectures using ICT, thematic discussions and case-based analysis of relevant topics. Students will engage with official documents and data to deepen conceptual understanding. Group activities, short research tasks and simulations will encourage application of theory. Critical reflection and comparative inquiry will be emphasised throughout.

Instructions for Paper-setter and candidates:

- iii. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- iv. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Course Content

Unit I: Research Design

Understanding Social Sciences Research

Literature Review, Research Problem, Research Questions, Hypothesis

Unit II: Research Methods

Qualitative: Ethnography, Focus Group and Narratives

Quantitative: Surveys, Interviews and Questionnaire

Unit III: Methods of Data Collection

Types of Data: Primary, Secondary

Sources of Data: Official Statistics, Archival Sources, Field-Generated Data

Unit IV: Research Ethics

Meaning and Significance, Basic Principles

Plagiarism: Types of Plagiarism

Public Administration

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	: 100 marks
Theory	: 90 marks
Int. Ass.	: 10 marks
Time	: 3 hours

Course Objectives:

This course aims to introduce students to Public Administration as a discipline by explaining its nature, scope, and evolution. It develops understanding of organizational principles, personnel and financial administration, administrative law, and control mechanisms. The course also familiarizes learners with administrative reforms, accountability institutions, and the functioning of executive, legislative, and judicial systems in India.

Learning Outcomes:

After completing this course, students will be able to **define** core concepts of public administration, **explain** organizational principles, **analyze** personnel and financial administration systems, **apply** administrative law concepts, **evaluate** control and accountability mechanisms, and **assess** administrative reforms and institutions such as Lokpal, tribunals, and audit bodies within the Indian administrative framework.

Pedagogy of the Course:

The course will be taught through a mix of interactive lectures using ICT, thematic discussions and case-based analysis of relevant topics. Students will engage with official documents and data to deepen conceptual understanding. Group activities, short research tasks and simulations will encourage application of theory. Critical reflection and comparative inquiry will be emphasised throughout.

Theories of International Relations

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The course aims to develop the students' understanding and perspective on international relation's theories from the basics to the advanced level. It explains various emerging approaches and theories reflecting on how and why nations engage with one another on issues of domestic and international significance.

Learning Outcomes:

This course enables students to build on previously taught basic concepts by introducing them to the advanced level of understanding international relations. This course is designed to incorporate the relatively recent theoretical and conceptual interventions in international relations that build on the previously taught basic concepts and classical theoretical frameworks.

Pedagogy of the Course:

Classroom discussions, analysis of key readings, debates, and live examples will be utilised as pedagogical tools. Students will be assessed based on a written examination of 90 marks and a continuous internal assessment of 10 marks, including unit tests, snap tests, attendance, class assignments, and classroom participation.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The course aims to provide students with an in depth understanding of how developed political systems work by introducing major comparative approaches, explaining the core features of modernity in Western societies and examining the evolution of the modern welfare state and civil society. It also familiarizes students with the constitutional frameworks of developed countries and helps them to analyse the role of political parties and interest groups in shaping democratic processes. Overall, the course develops the ability to compare institutions, political behaviour and governance patterns across advanced societies in a systematic and informed manner.

Learning Outcomes:

- At the end of the course students will be able to develop a clear understanding of the major concepts and approaches used to study political systems in developed societies.
- Students will gain the ability to explain how social, economic and institutional factors shape politics in advanced democracies.
- Students will be able to use comparative analysis to interpret similarities and differences across political structures and processes in developed countries.

Pedagogy of the Course:

- Learning methods comprise of pedagogical methods such as class room lectures and student-teacher interactions, group discussions, seminars and assignments etc.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. Modern Social and Political Thought

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

This course aims to provide a comprehensive knowledge of the significant developments in social and political thought in the modern era. While structured around key figures, the course covers the main philosophical traditions and reflections on the key concerns/issues that mark the periods in which these thinkers are located. The course aims to train students to carefully read philosophical texts and discern the mode of argumentation deployed and then subject them to critical and comparative analysis.

Learning Outcomes:

At the end of the course, the student will:

- (i) Have a grounding in the central texts and ideas in the modern thought
- (ii) Be able to read and interpret texts and engage in comparative and critical analysis
- (iii) Learn to apply the theoretical frameworks developed by the thinkers to contemporary issues and concerns

Pedagogy of the Course:

Learning methods comprise of pedagogical methods such as class room lectures and student-teacher interactions, group discussions, seminars and assignments etc.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

POL-DSC-27 (MAJ)-804: Discipline Specific Course

Public Institutions in India

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

While the focus in the sub-discipline of Indian politics has mainly been on the political processes, the study of public institutions has been lacking. This paper tries to address this gap by taking up the study of some of the federal institutions. The study of the institutions under focus—constitutional or statutory—has two components. The first one is to study the original intent with which the institutions were set up and the purpose they were to serve. The second component is whether the institutions have been able to live up to the mark, an assessment of the performance of the institutions since their formation. Also, the debate involving these institutions' work and the challenges they face.

Learning Outcomes:

The students opting for this course would be able to:

- Evaluate critically a wide range of India's fundamental federal institutions, which are essential for providing fundamental governance.
- Examine the public sector's ability to manage the significant changes India has undergone since independence using an interdisciplinary approach.

Pedagogy of the Course:

The students will be learning about the course contents through class room lectures followed by discussions. The focus would be on reading the original constitutional and legal text including the judgments followed by the scholarly interpretations. The course would encourage students to get acquainted with the debates and make their own assessment about the institutions under focus. The students would be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 20 marks on the basis of Unit test, Snap test, Class Attendance, Class assignments and Class Room participations.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Theories of International Relations

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The course aims to develop the students' understanding and perspective on international relation's theories from the basics to the advanced level. It explains various emerging approaches and theories reflecting on how and why nations engage with one another on issues of domestic and international significance.

Learning Outcomes:

This course enables students to build on previously taught basic concepts by introducing them to the advanced level of understanding international relations. This course is designed to incorporate the relatively recent theoretical and conceptual interventions in international relations that build on the previously taught basic concepts and classical theoretical frameworks.

Pedagogy of the Course:

Classroom discussions, analysis of key readings, debates, and live examples will be utilised as pedagogical tools. Students will be assessed based on a written examination of 90 marks and a continuous internal assessment of 10 marks, including unit tests, snap tests, attendance, class assignments, and classroom participation.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Comparative Politics: Understanding Developed Countries

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The course aims to provide students with an in depth understanding of how developed political systems work by introducing major comparative approaches, explaining the core features of modernity in Western societies and examining the evolution of the modern welfare state and civil society. It also familiarizes students with the constitutional frameworks of developed countries and helps them to analyse the role of political parties and interest groups in shaping democratic processes. Overall, the course develops the ability to compare institutions, political behaviour and governance patterns across advanced societies in a systematic and informed manner.

Learning Outcomes:

- At the end of the course students will be able to develop a clear understanding of the major concepts and approaches used to study political systems in developed societies.
- Students will gain the ability to explain how social, economic and institutional factors shape politics in advanced democracies.
- Students will be able to use comparative analysis to interpret similarities and differences across political structures and processes in developed countries.

Pedagogy of the Course:

- Learning methods comprise of pedagogical methods such as class room lectures and student-teacher interactions, group discussions, seminars and assignments etc.

Instructions for Paper-setter and candidates:

- iii. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. Modern Social and Political Thought

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

This course aims to provide a comprehensive knowledge of the significant developments in social and political thought in the modern era. While structured around key figures, the course covers the main philosophical traditions and reflections on the key concerns/issues that mark the periods in which these thinkers are located. The course aims to train students to carefully read philosophical texts and discern the mode of argumentation deployed and then subject them to critical and comparative analysis.

Learning Outcomes:

At the end of the course, the student will:

- (iv) Have a grounding in the central texts and ideas in the modern thought
- (v) Be able to read and interpret texts and engage in comparative and critical analysis
- (vi) Learn to apply the theoretical frameworks developed by the thinkers to contemporary issues and concerns

Pedagogy of the Course:

Learning methods comprise of pedagogical methods such as class room lectures and student-teacher interactions, group discussions, seminars and assignments etc.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

POL-DSC-27 (MAJ)-804: Discipline Specific Course

Public Institutions in India

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

While the focus in the sub-discipline of Indian politics has mainly been on the political processes, the study of public institutions has been lacking. This paper tries to address this gap by taking up the study of some of the federal institutions. The study of the institutions under focus—constitutional or statutory—has two components. The first one is to study the original intent with which the institutions were set up and the purpose they were to serve. The second component is whether the institutions have been able to live up to the mark, an assessment of the performance of the institutions since their formation. Also, the debate involving these institutions' work and the challenges they face.

Learning Outcomes:

The students opting for this course would be able to:

- Evaluate critically a wide range of India's fundamental federal institutions, which are essential for providing fundamental governance.
- Examine the public sector's ability to manage the significant changes India has undergone since independence using an interdisciplinary approach.

Pedagogy of the Course:

The students will be learning about the course contents through class room lectures followed by discussions. The focus would be on reading the original constitutional and legal text including the judgments followed by the scholarly interpretations. The course would encourage students to get acquainted with the debates and make their own assessment about the institutions under focus. The students would be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 20 marks on the basis of Unit test, Snap test, Class Attendance, Class assignments and Class Room participations.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	: 100 marks
Theory	: 90 marks
Int. Ass.	: 10 marks
Time	: 3 hours

Course Description/Objectives:

This is an advanced course in studying the legal and constitutional text that shapes the architecture of Indian polity. The discussion over the course content would help the students to not only have an insight into the original intent of the Constituent Assembly members while setting up the constitutional institutions and offices but also frame the provisions related to the rights of the citizens. Students who have already read the courses focusing on the Constitution of India will now be better acquainted with the constitutional principles, including the interpretation of the constitutional laws by the higher judiciary, which provide the bedrock on which the institutions are founded, and also how they have functioned since independence.

Learning Outcomes:

On successful completion of the course, students would be able to get a basic idea of the constitutional antecedents, the Process of the making of the Constitution, explain the linkage between the constitution, colonial rule and the socio-political contestations surrounding constitution-making. Students will have an idea of Constitution, Constitutionalism, Constitutional Morality. They will be able to comprehend the founding principles of India's Constitutional Democracy. This course enables students to grasp the issues that were the subject of intense debates in the Constituent Assembly, how the Indian Constitution protects the civic and political rights of the citizens and communities? Students will be able to analyse the idea of the basic structure of the constitution/doctrine of checks and balances

Pedagogy of the Course:

The students will be learning about the course contents through class room lectures followed by discussions. The focus would be on reading the original constitutional and legal text including the judgments followed by the scholarly interpretations. The students would be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks on the basis of Unit test, Snap test, Class Attendance, Class assignments and Class Room participations.

Instructions for Paper-setter and candidates:

- iii. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks).
- iv. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

Western Political Philosophy

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The objective of this course is to introduce students to the major themes of western political thought. This will be done by undertaking an in-depth study of the key texts of the thinkers of this tradition. Many of these texts pose difficult questions about political community, social order and human nature, encouraging critical reflection on the foundations of political life.

Learning Outcomes:

By the end of the course students would be able to:

- Understand **and explain** the basic concepts that define the field of political science by **summarizing the development of western political philosophy**.
- Interpret primary texts of classical, Renaissance, and Enlightenment political thinkers in their historical and intellectual contexts.
- Analyse the evolution of concepts such as justice, liberty, equality, and the nature of the political community across different thinkers.

Learn how to read and decode the texts and use them to solve cotemporary socio-political problems.

- Formulate **and clearly present** well-reasoned arguments on contemporary issues and **propose solutions** supported by logical and critical analysis.

Pedagogy of the Course:

The students will be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks on the basis of Unit test, Snap test, Attendance, Class assignments and class room participations.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall

attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks).

- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Introduction to Research Methodology

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

This course introduces students to the fundamentals of research methodology in the social sciences. It aims to develop the ability to design a research by identifying problems, formulating questions, reviewing literature, and constructing hypotheses. Students will gain familiarity with qualitative and quantitative methods and with primary and secondary data sources, including archives, official statistics, and field-generated materials. The course also cultivates ethical awareness by explaining core principles of research ethics and helping students understand and avoid plagiarism in all its forms.

Learning Outcomes:

By the end of the course, students will be able to identify key concepts in social science research and explain the steps involved in designing a study. They will be able to apply qualitative and quantitative methods to fundamental research tasks and analyse different data sources for relevance and credibility. Students will evaluate ethical concerns, including plagiarism, in real research situations and will finally create coherent research proposals that integrate appropriate methods, data, and ethical principles.

Pedagogy of the Course:

The course will be taught through a mix of interactive lectures using ICT, thematic discussions and case-based analysis of relevant topics. Students will engage with official documents and data to deepen conceptual understanding. Group activities, short research tasks and simulations will encourage application of theory. Critical reflection and comparative inquiry will be emphasised throughout.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Indian Polity: A Legal Constitutional Perspective

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Description/Objectives:

This is an advanced course in studying the legal and constitutional text that shapes the architecture of Indian polity. The discussion over the course content would help the students to not only have an insight into the original intent of the Constituent Assembly members while setting up the constitutional institutions and offices but also frame the provisions related to the rights of the citizens. Students who have already read the courses focusing on the Constitution of India will now be better acquainted with the constitutional principles, including the interpretation of the constitutional laws by the higher judiciary, which provide the bedrock on which the institutions are founded, and also how they have functioned since independence.

Learning Outcomes:

On successful completion of the course, students would be able to get a basic idea of the constitutional antecedents, the Process of the making of the Constitution, explain the linkage between the constitution, colonial rule and the socio-political contestations surrounding constitution-making. Students will have an idea of Constitution, Constitutionalism, Constitutional Morality. They will be able to comprehend the founding principles of India's Constitutional Democracy. This course enables students to grasp the issues that were the subject of intense debates in the Constituent Assembly, how the Indian Constitution protects the civic and political rights of the citizens and communities? Students will be able to analyse the idea of the basic structure of the constitution/doctrine of checks and balances

Pedagogy of the Course:

The students will be learning about the course contents through class room lectures followed by discussions. The focus would be on reading the original constitutional and legal text including the judgments followed by the scholarly interpretations. The students would be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks on the basis of Unit test, Snap test, Class Attendance, Class assignments and Class Room participations.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. Western Political Philosophy

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The objective of this course is to introduce students to the major themes of western political thought. This will be done by undertaking an in-depth study of the key texts of the thinkers of this tradition. Many of these texts pose difficult questions about political community, social order and human nature, encouraging critical reflection on the foundations of political life.

Learning Outcomes:

By the end of the course students would be able to:

- Understand **and explain** the basic concepts that define the field of political science by **summarizing the development of western political philosophy**.
- Interpret primary texts of classical, Renaissance, and Enlightenment political thinkers in their historical and intellectual contexts.
- Analyse the evolution of concepts such as justice, liberty, equality, and the nature of the political community across different thinkers.

Learn how to read and decode the texts and use them to solve cotemporary socio-political problems.

- Formulate **and clearly present** well-reasoned arguments on contemporary issues and **propose solutions** supported by logical and critical analysis.

Pedagogy of the Course:

The students will be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks on the basis of Unit test, Snap test, Attendance, Class assignments and class room participations.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall

attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks).

- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

This course introduces students to the fundamentals of research methodology in the social sciences. It aims to develop the ability to design a research by identifying problems, formulating questions, reviewing literature, and constructing hypotheses. Students will gain familiarity with qualitative and quantitative methods and with primary and secondary data sources, including archives, official statistics, and field-generated materials. The course also cultivates ethical awareness by explaining core principles of research ethics and helping students understand and avoid plagiarism in all its forms.

Learning Outcomes:

By the end of the course, students will be able to identify key concepts in social science research and explain the steps involved in designing a study. They will be able to apply qualitative and quantitative methods to fundamental research tasks and analyse different data sources for relevance and credibility. Students will evaluate ethical concerns, including plagiarism, in real research situations and will finally create coherent research proposals that integrate appropriate methods, data, and ethical principles.

Pedagogy of the Course:

The course will be taught through a mix of interactive lectures using ICT, thematic discussions and case-based analysis of relevant topics. Students will engage with official documents and data to deepen conceptual understanding. Group activities, short research tasks and simulations will encourage application of theory. Critical reflection and comparative inquiry will be emphasised throughout.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. Theories of International Relations

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The course aims to develop the students' understanding and perspective on international relation's theories from the basics to the advanced level. It explains various emerging approaches and theories reflecting on how and why nations engage with one another on issues of domestic and international significance.

Learning Outcomes:

This course enables students to build on previously taught basic concepts by introducing them to the advanced level of understanding international relations. This course is designed to incorporate the relatively recent theoretical and conceptual interventions in international relations that build on the previously taught basic concepts and classical theoretical frameworks.

Pedagogy of the Course:

Classroom discussions, analysis of key readings, debates, and live examples will be utilised as pedagogical tools. Students will be assessed based on a written examination of 90 marks and a continuous internal assessment of 10 marks, including unit tests, snap tests, attendance, class assignments, and classroom participation.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. POL-DSC-25 (MAJ)-802: Discipline Specific Course

Comparative Politics: Understanding Developed Countries

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The course aims to provide students with an in depth understanding of how developed political systems work by introducing major comparative approaches, explaining the core features of modernity in Western societies and examining the evolution of the modern welfare state and civil society. It also familiarizes students with the constitutional frameworks of developed countries and helps them to analyse the role of political parties and interest groups in shaping democratic processes. Overall, the course develops the ability to compare institutions, political behaviour and governance patterns across advanced societies in a systematic and informed manner.

Learning Outcomes:

- At the end of the course students will be able to develop a clear understanding of the major concepts and approaches used to study political systems in developed societies.
- Students will gain the ability to explain how social, economic and institutional factors shape politics in advanced democracies.
- Students will be able to use comparative analysis to interpret similarities and differences across political structures and processes in developed countries.

Pedagogy of the Course:

- Learning methods comprise of pedagogical methods such as class room lectures and student-teacher interactions, group discussions, seminars and assignments etc.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Modern Social and Political Thought

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

This course aims to provide a comprehensive knowledge of the significant developments in social and political thought in the modern era. While structured around key figures, the course covers the main philosophical traditions and reflections on the key concerns/issues that mark the periods in which these thinkers are located. The course aims to train students to carefully read philosophical texts and discern the mode of argumentation deployed and then subject them to critical and comparative analysis.

Learning Outcomes:

At the end of the course, the student will:

- (i) Have a grounding in the central texts and ideas in the modern thought
- (ii) Be able to read and interpret texts and engage in comparative and critical analysis
- (iii) Learn to apply the theoretical frameworks developed by the thinkers to contemporary issues and concerns

Pedagogy of the Course:

Learning methods comprise of pedagogical methods such as class room lectures and student-teacher interactions, group discussions, seminars and assignments etc.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Public Institutions in India

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

While the focus in the sub-discipline of Indian politics has mainly been on the political processes, the study of public institutions has been lacking. This paper tries to address this gap by taking up the study of some of the federal institutions. The study of the institutions under focus—constitutional or statutory—has two components. The first one is to study the original intent with which the institutions were set up and the purpose they were to serve. The second component is whether the institutions have been able to live up to the mark, an assessment of the performance of the institutions since their formation. Also, the debate involving these institutions' work and the challenges they face.

Learning Outcomes:

The students opting for this course would be able to:

- Evaluate critically a wide range of India's fundamental federal institutions, which are essential for providing fundamental governance.
- Examine the public sector's ability to manage the significant changes India has undergone since independence using an interdisciplinary approach.

Pedagogy of the Course:

The students will be learning about the course contents through class room lectures followed by discussions. The focus would be on reading the original constitutional and legal text including the judgments followed by the scholarly interpretations. The course would encourage students to get acquainted with the debates and make their own assessment about the institutions under focus. The students would be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 20 marks on the basis of Unit test, Snap test, Class Attendance, Class assignments and Class Room participations.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Theories of International Relations

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	: 100 marks
Theory	: 90 marks
Int. Ass.	: 10 marks
Time	: 3 hours

Course Objectives:

The course aims to develop the students' understanding and perspective on international relation's theories from the basics to the advanced level. It explains various emerging approaches and theories reflecting on how and why nations engage with one another on issues of domestic and international significance.

Learning Outcomes:

This course enables students to build on previously taught basic concepts by introducing them to the advanced level of understanding international relations. This course is designed to incorporate the relatively recent theoretical and conceptual interventions in international relations that build on the previously taught basic concepts and classical theoretical frameworks.

Pedagogy of the Course:

Classroom discussions, analysis of key readings, debates, and live examples will be utilised as pedagogical tools. Students will be assessed based on a written examination of 90 marks and a continuous internal assessment of 10 marks, including unit tests, snap tests, attendance, class assignments, and classroom participation.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. POL-DSC-25 (MAJ)-802: Discipline Specific Course

Comparative Politics: Understanding Developed Countries

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

The course aims to provide students with an in depth understanding of how developed political systems work by introducing major comparative approaches, explaining the core features of modernity in Western societies and examining the evolution of the modern welfare state and civil society. It also familiarizes students with the constitutional frameworks of developed countries and helps them to analyse the role of political parties and interest groups in shaping democratic processes. Overall, the course develops the ability to compare institutions, political behaviour and governance patterns across advanced societies in a systematic and informed manner.

Learning Outcomes:

- At the end of the course students will be able to develop a clear understanding of the major concepts and approaches used to study political systems in developed societies.
- Students will gain the ability to explain how social, economic and institutional factors shape politics in advanced democracies.
- Students will be able to use comparative analysis to interpret similarities and differences across political structures and processes in developed countries.

Pedagogy of the Course:

- Learning methods comprise of pedagogical methods such as class room lectures and student-teacher interactions, group discussions, seminars and assignments etc.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).
- ii. For private candidates who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Modern Social and Political Thought

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	:	100 marks
Theory	:	90 marks
Int. Ass.	:	10 marks
Time	:	3 hours

Course Objectives:

This course aims to provide a comprehensive knowledge of the significant developments in social and political thought in the modern era. While structured around key figures, the course covers the main philosophical traditions and reflections on the key concerns/issues that mark the periods in which these thinkers are located. The course aims to train students to carefully read philosophical texts and discern the mode of argumentation deployed and then subject them to critical and comparative analysis.

Learning Outcomes:

At the end of the course, the student will:

- (i) Have a grounding in the central texts and ideas in the modern thought
- (ii) Be able to read and interpret texts and engage in comparative and critical analysis
- (iii) Learn to apply the theoretical frameworks developed by the thinkers to contemporary issues and concerns

Pedagogy of the Course:

Learning methods comprise of pedagogical methods such as class room lectures and student-teacher interactions, group discussions, seminars and assignments etc.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. Public Institutions in India

Total Credits: 4 credits (Theory: 45 hrs. + Tutorial: 15 hrs.)

Max.Marks	: 100 marks
Theory	: 90 marks
Int. Ass.	: 10 marks
Time	: 3 hours

Course Objectives:

While the focus in the sub-discipline of Indian politics has mainly been on the political processes, the study of public institutions has been lacking. This paper tries to address this gap by taking up the study of some of the federal institutions. The study of the institutions under focus—constitutional or statutory—has two components. The first one is to study the original intent with which the institutions were set up and the purpose they were to serve. The second component is whether the institutions have been able to live up to the mark, an assessment of the performance of the institutions since their formation. Also, the debate involving these institutions' work and the challenges they face.

Learning Outcomes:

The students opting for this course would be able to:

- Evaluate critically a wide range of India's fundamental federal institutions, which are essential for providing fundamental governance.
- Examine the public sector's ability to manage the significant changes India has undergone since independence using an interdisciplinary approach.

Pedagogy of the Course:

The students will be learning about the course contents through class room lectures followed by discussions. The focus would be on reading the original constitutional and legal text including the judgments followed by the scholarly interpretations. The course would encourage students to get acquainted with the debates and make their own assessment about the institutions under focus. The students would be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 20 marks on the basis of Unit test, Snap test, Class Attendance, Class assignments and Class Room participations.

Instructions for Paper-setter and candidates:

- i. There shall be 9 questions in all. The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks ($9 \times 2 = 18$ marks). Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks ($4 \times 18 = 72$ marks).

Advanced Administrative Theory and Thought

Max. Marks: 100

Theory: 90 Marks

Internal Assessment: 10 Marks

Time: 03 Hours

Course Objective

The objective of this paper is to help students learn about the important thinkers and ideas that shaped Public Administration. It will explain how the subject started, how it grew over time, and how different theories and approaches are used to understand government and management today.

Learning outcomes

- To learn about famous thinkers like Woodrow Wilson, Henri Fayol, Max Weber, and others who helped in building the foundation of Public Administration.
- To understand different theories such as Scientific Management, Bureaucratic Theory, Motivation, and Decision-Making in a simple and clear way.
- To develop the ability to connect these theories with how government offices and organizations work in real life.
- To gain knowledge of both modern and traditional ideas of administration, including the principles given by Kautilya.

Pedagogy of the Course

The students will be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks, based on class test, academic activities, Attendance, Class assignments and class room participation.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES:

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Research Methods

Max. Marks: 100
Theory: 90 Marks
Internal Assessment: 10 Marks
Time: 03 Hours

Course Objective

The objective of this paper is to help students understand the basic principles, methods, and tools of Social Research. It focuses on how to design a study, collect and analyze data, and present research findings clearly. The course also aims to develop practical skills for using statistical techniques and computers in research.

Learning Outcomes

1. To understand the meaning, nature, and scope of Social Research and learn how to develop hypotheses and research designs.
2. To gain knowledge of different research methods such as experimental, survey, and case study, and various techniques of data collection and processing.
3. To learn about sampling methods, frequency distribution, and measures of central tendency used in social research.
4. To develop the ability to apply basic statistical tools such as standard deviation, correlation, and chi-square in analyzing research data.

Pedagogy of the Course

The students will be assessed on the basis of written examination comprising of 90 marks and continuous internal assessment of 10 marks, based on class test, academic activities, Attendance, Class assignments and class room participation.

Dissertation Synopsis

Max. Marks: 100

Synopsis Written Component: 80Marks

Presentation (Oral/Visual): 20 Marks

Course Objective

This course aims to build foundational research orientation among undergraduate students of Public Administration. It seeks to develop the capacity for independent inquiry by encouraging students to identify administrative issues, analyse governance processes, and link theoretical concepts with real-world contexts. Overall, it prepares students for higher academic pursuits, fosters problem-solving abilities, and equips them for informed engagement with public policy and administration.

Learning Outcomes

1. Identify and define a relevant and researchable topic in Public Administration.
2. Formulate a clear problem statement, research objectives, and guiding questions or hypotheses.
3. Conduct a basic review of literature and identify conceptual gaps.
4. Use elementary research methods, tools, and data collection techniques appropriately.
5. Structure a research synopsis with clarity, coherence, and academic rigour.
6. Present research ideas effectively through an oral and visual presentation.

INSTRUCTIONS FOR EXAMINERS AND CANDIDATES:

The Presentations will be held in the presence of an external examiner. External examiners must evaluate BA synopses fairly, assessing originality, methodology, and academic quality, and submit reports within the stipulated time. All submissions must include plagiarism reports as per university norms, and examiners should ensure no excessive or undisclosed use of AI tools. Two copies of the synopsis must be submitted one week prior to the datesheet of practical examinations of the University.

Course Requirements and Components of the Synopsis

Students will prepare a synopsis comprising the following structured components:

1. **Selection of Topic**
Identification of a specific, researchable, and administratively relevant theme.
2. **Statement of the Problem**
Clear articulation of what is being studied and its significance.
3. **Review of Literature**
Brief overview of relevant books, articles, reports, and existing theoretical debates; identification of gaps.
4. **Objectives of the Study**
Concise, feasible, and logically aligned research objectives.
5. **Research Questions / Hypotheses**
Key questions guiding the enquiry or tentative hypotheses where applicable.
6. **Theoretical Framework**
Use of relevant concepts, models, or theories in Public Administration to frame the study.

7. **Research Methodology**
Description of study type (descriptive, analytical, case study, etc.);
methods of data collection (primary/secondary);
sampling details (if applicable);
tools and techniques used for analysis.
8. **Expected Outcomes**
Anticipated contribution or relevance of the proposed study.
9. **Proposed Chapterisation**
Outline of the structure to be followed in the final report.
10. **References / Bibliography**
List of sources consulted, following a standard citation format.
11. **Plagiarism and AI Reports**
Plagiarism and AI reports, as per university norms, must be attached using the approved plagiarism-checking software.

Dissertation

Max. Marks: 200
Written Dissertation: 160 Marks
Viva-Voce: 40 Marks

Course Objective

The dissertation aims to provide undergraduate students with rigorous exposure to the research process in Public Administration. It seeks to deepen independent thinking, analytical competence, and the ability to apply theoretical knowledge to real-world governance issues. Through systematic investigation, students learn to collect, analyse, and interpret data; develop evidence-based arguments; and produce original academic work. The course further strengthens research ethics, academic writing, conceptual clarity, and methodological precision. It serves as a capstone experience that prepares students for advanced studies, professional research roles, and informed engagement with public policy and administration.

Learning Outcomes

1. Formulate a relevant and researchable topic in Public Administration.
2. Develop a coherent research design, including problem statement, objectives, questions, and theoretical grounding.
3. Undertake systematic literature review and identify research gaps.
4. Apply appropriate research methods, data collection tools, and analytical techniques.
5. Analyse empirical or secondary data and interpret findings effectively.
6. Link results with theory, concepts, and existing studies.
7. Produce a structured, academically rigorous dissertation with proper citation practices.
8. Present and defend their research during a viva voce examination while adhering to ethical research standards.

INSTRUCTIONS FOR EXAMINERS AND CANDIDATES:

The Viva-Voce examination will be held in the presence of an external examiner. External examiners must evaluate the Dissertation fairly, assessing originality, methodology, and academic quality, and submit reports within the stipulated time. All submissions must include plagiarism reports as per university norms, and examiners should ensure no excessive or undisclosed use of AI tools. They should ensure that the work follows ethical research standards, including proper citations, permissions, and data authenticity. Two copies of the dissertation must be submitted one week prior to the datesheet of practical examinations of the University.

Dissertation Structure

The dissertation will follow the chapterisation scheme outlined in the approved synopsis and include the following components:

1. Title
2. Introduction
3. Review of Literature
4. Objectives of the Study
5. Research Questions / Hypotheses
6. Theoretical / Conceptual Framework
7. Research Methodology
8. Data Analysis and Interpretation
9. Discussion
10. Findings and Conclusions
11. Suggestions / Policy Implications
12. Limitations of the Study
13. References / Bibliography
14. Annexures (if any)
15. Plagiarism and AI Reports
